About Aqua Metals, Inc.

Aqua Metals (NASDAQ:AQMS) is reinventing lead recycling with its patent-pending AquaRefining™ technology. Unlike smelting, AquaRefining is a room temperature, water-based process that is fundamentally non-polluting. Aqua Metals expects its modular AquaRefining systems to allow the lead-acid battery industry to simultaneously reduce negative environmental impacts and increase production to meet rapidly growing demand. Aqua Metals is based in Alameda, California and built its first recycling facility in Nevada's Tahoe-Reno Industrial Center. To learn more, please visit www.aquametals.com.
