The Company's first electrically powered DuraStim® frac fleet was deployed on January 5, 2020 to a previously announced dedicated customer. Since deployment, ProPetro has been working diligently with its first customer, supply chain partners and equipment providers to evaluate the in-field performance of the new technology.

NYSE Extension

On February 14, 2020, the Company received a five-month additional trading period for continued listing on the New York Stock Exchange ("NYSE"). The additional trading period, which is subject to review by the NYSE on an ongoing basis, provides the Company until July 15, 2020 to become current in its filing obligations with the Securities and Exchange Commission ("SEC"). During the additional trading period, trading in the Company's common stock will remain unaffected.

Audit Committee Internal Review and Related Matters

ProPetro has filed a Current Report on Form 8-K (the "Form 8-K") today that provides updates regarding the audit committee's internal review and related matters. The audit committee has completed fact finding associated with its previously announced review.

ProPetro has also filed a Form 12b-25, Notification of Late Filing, with the SEC today regarding its inability to timely file its annual report on Form 10-K for the year ended December 31, 2019.

Management continues to provide information to its independent registered public accounting firm in order to allow it to evaluate the sufficiency of the scope of the internal review and associated findings, as well as the Company's

proposed remediation plan. Management is working to complete its preparation of quarterly and annual financial statements to allow its independent registered public accounting firm to perform quarterly reviews and an audit of the financial statements as of and for the year ended December 31, 2019. The Company cannot currently predict when this process will be completed. The Company continues to work diligently to become current in its filing obligations with the SEC as soon as reasonably practicable, and it currently expects to do so prior to the expiration of the additional trading period granted by the NYSE on July 15, 2020.

As previously disclosed, the Committee and management have not identified to date any items that would require revision or restatement of the Company's previously reported balance sheets, statements of operations, statements of shareholders' equity or statements of cash flows. Investors should read the Form 8-K and Form 12b-25 for additional information regarding these and other matters disclosed therein.
