We have elected to discontinue the practice of providing specific quarterly revenue, SOI and earnings per share guidance. Going forward, Salem will provide a quarterly range for total revenue and operating expenses. Accordingly, for the first quarter of 2008, Salem is projecting total revenue to decrease in the low-single digit range over first quarter 2007 total revenue of $\$ 55.2$ million. Salem is also projecting operating expenses before gain or loss on disposal of assets to increase in the low-to-mid-single digit range over first quarter of 2007 operating expenses of $\$ 46.7$ million. This increase is primarily the result of increased investment in our non-broadcast business.

## Regulation G

Station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are financial measures not prepared in accordance with generally accepted accounting
principles ("GAAP"). Station operating income is defined as net broadcasting revenues minus broadcasting operating expenses. Non-broadcast operating income is defined as nonbroadcast revenue minus non-broadcast operating expenses. EBITDA is defined as net income before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before loss on early redemption of long-term debt, impairment of goodwill and intangible assets, discontinued operations (net of tax), gain or loss on the disposal of assets and non-cash compensation expense. In addition, Salem has provided supplemental information as an attachment to this press release, reconciling these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, provide useful measures of the company's operating performance.

Station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are generally recognized by the broadcasting industry as important measures of performance and are used by investors as well as analysts who report on the industry to provide meaningful comparisons between broadcasting. Station operating income, nonbroadcast operating income, EBITDA and Adjusted EBITDA are not a measure of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not a substitute for, or superior to, the company's results of operations presented on a GAAP basis such as operating income and net income. In addition, Salem's definitions of station operating income, non-broadcast operating income, EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.
