The ONE Group Announces Second Quarter 2015 Results

NEW YORK-- The ONE Group Hospitality, Inc. ("The ONE Group") (NASDAQ:STKS), today announced its financial results for the second quarter ended June 30, 2015.

Highlights for the second quarter ended June 30, 2015 were as follows:

- The second quarter marked our fifth consecutive quarter of double digit revenue growth;
- Owned unit net revenues increased 26.2% to \$12.8 million;
- Total GAAP revenue increased 21.5% to \$14.9 million;
- Total food and beverage sales at owned and managed units* increased 7.5% to \$36.7 million;
- Management and incentive fee revenues were \$2.1 million for the quarter;
- GAAP net income for the quarter was \$8.4 million, or \$0.34 per share, and included a one-time reversal of a deferred tax allowance of approximately \$6.2 million;
- Adjusted EBITDA was \$1.63 million compared to \$1.65 million for the same period last year**; and
- Opened STK at the ME Milan IL Duca and commenced the hotel's food & beverage services, and opened STK at the W Hotel West Beverly Hills in Los Angeles, California.

**Total food and beverage sales at owned and managed units, a non-GAAP measure, represents our total revenue from our owned operations as well as the revenue reported to us with respect to sales at our managed locations, where we earn management and incentive fees at these locations. For a reconciliation of our GAAP revenue to total food and beverage sales at our owned and managed units and a discussion of why we consider it useful, see the financial information accompanying this release.*

*** Adjusted EBITDA, a non-GAAP measure, represents net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, deferred rent, pre-opening expenses, non-recurring gains and losses, stock based compensation and losses from discontinued operations. For a reconciliation of adjusted EBITDA to the most directly comparable financial measure presented in accordance with*

GAAP and a discussion of why we consider it useful, see the financial information accompanying this release.

Jonathan Segal, CEO of The ONE Group said, "The second quarter marked our fifth consecutive quarter of double digit revenue growth. During the quarter we began operating the food and beverage services at the ME Milan including an STK Restaurant and Radio Milan, a rooftop bar. Additionally, we opened an STK in the W Hotel in West Beverly Hills, California to accompany the hotel food and beverage we had been operating at the property since October."

Segal continued, "We are also very excited about our proposed acquisition to acquire the restaurant brands Katsuya and Cleo as we expect that it will be transformative to our company and immediately accretive to earnings. These are high volume profitable brands with a significant licensing business similar to our hospitality business. They are complementary to our existing brands existing in markets we currently operate in, as well as additive to our growth, as it will open up geographic expansion into the Middle East. We will be able to assume the new operations without any increase in our general and administrative expenses by leveraging the management infrastructure we have invested in globally. We continue to believe that we are well positioned to build sustainable growth which we expect will enhance shareholder value over time."

Second Quarter 2015 Financial Results

Total owned unit net revenues increased 26.2% to \$12.8 million in the second quarter of 2015 compared to \$10.1 million in the second quarter of 2014. The increase was primarily due to the re-opening of our STK in Miami and the food and beverage services at the W Hotel in West Beverly Hills. Comparable sales from owned STK units increased 2.7% for the quarter. Comparable sales from owned and managed STK units increased 3.1% for the quarter after excluding the sales from the STK in London which was closed for several days due to a power failure that affected the entire hotel as well as the surrounding area.

Management and incentive fee revenues were \$2.12 million in the second quarter of 2015, a decrease of 1.0% compared to \$2.14 million in the prior year's quarter. The decrease was driven by the decline in revenue from our UK operations due to the change in exchange rates versus the same period a year ago. Offsetting this was an increase in management and incentive fee income earned from the STK in Las Vegas.

Total food and beverage sales at owned and managed units increased 7.5% to \$36.7 million compared to \$34.1 million in the second quarter of 2014.

Adjusted EBITDA for the second quarter of 2015 was \$1.63 million compared to adjusted EBITDA of \$1.65 million in the second quarter of 2014.

In the second quarter of 2015, we reported a net income attributable to The ONE Group of \$8.4 million compared to a net income of \$3.0 million in the second quarter of 2014. Net income in 2015 included a one-time reversal of a deferred tax valuation allowance of approximately \$6.2 million.

Adjusted net loss for the quarter was \$721,000, or \$0.03 per share, compared to adjusted net income of \$707,000, or \$0.03 per share, in the second quarter of 2014.

Development Update

In May 2015 we launched the food and beverage services for the new ME Milan IL Duca hotel, including Radio Milan, a rooftop restaurant, and on May 11, we opened our second European STK location at this hotel. Additionally, on June 29, we opened an STK restaurant at the W Hotel in West Beverly Hills in addition to operating the W Lounge, along with other food and beverage services at the hotel. We will be shortly opening a new pool side restaurant for the hotel.

Reconciliation of Non-GAAP Measures

We prepare our financial statements in accordance with generally accepted accounting principles (GAAP). In this press release, we also make references to the following non-GAAP financial measures: total food and beverage sales at owned and managed units, adjusted net income and adjusted EBITDA.

Total food and beverage sales at owned and managed units. Total food and beverage sales at owned and managed units represents our total revenue from our owned operations as well as the revenue reported to us with respect to sales at our managed locations, where we

earn management and incentive fees at these locations. We believe that this measure represents a useful internal measure of performance as it identifies total sales associated with our brands and hospitality services that we provide. We believe that this measure also represents a useful internal measure of performance. Accordingly, we include this non-GAAP measure so that investors can review financial data that management uses in evaluating performance, and we believe that it will assist the investment community in assessing performance of restaurants and other services we operate, whether or not the operation is owned by us. However, because this measure is not determined in accordance with GAAP, it is susceptible to varying calculations and not all companies calculate these measures in the same manner. As a result, this measure as presented may not be directly comparable to a similarly titled measure presented by other companies. This non-GAAP measure is presented as supplemental information and not as an alternative to any GAAP measurements. The following table includes a reconciliation of our GAAP revenue to total food and beverage sales at our owned and managed units (in thousands):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,

(a) Components of Total Food & Beverage Sales at Owned and Managed Units

Adjusted EBITDA. We define adjusted EBITDA as net income before interest expense, provision for income taxes, depreciation and amortization, non-cash impairment loss, deferred rent, pre-opening expenses, non-recurring gains and losses and losses from discontinued operations. Adjusted EBITDA has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP.

We believe that adjusted EBITDA is a more appropriate measure of operating performance, as it provides a clearer picture of our operating results by eliminating certain non-cash expenses that are not reflective of the underlying business performance. We use this metric to facilitate a comparison of our operating performance on a consistent basis from period to period and to analyze the factors and trends affecting our business as well as evaluate the performance of our units. Adjusted EBITDA has limitations as an analytical tool and our calculation thereof may not be comparable to that reported by other companies; accordingly, you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP. Adjusted EBITDA is included in this press release because it is a key metric used by management. Additionally, adjusted EBITDA is frequently used by analysts, investors and other interested parties to evaluate companies in our industry. We use adjusted EBITDA, alongside other GAAP measures such as net income (loss), to measure

profitability, as a key profitability target in our annual and other budgets, and to compare our performance against that of peer companies. We believe that adjusted EBITDA provides useful information facilitating operating performance comparisons from period to period.

The following table presents a reconciliation of net income to adjusted EBITDA for the periods indicated (in thousands):

(1) Deferred rent is included in occupancy expense on the statement of income.

Adjusted Net Income. We define adjusted net income as net income before loss from discontinued operations, non-recurring gains and losses, non-cash impairment losses, and stock based compensation. Adjusted net income has been presented in this press release and is a supplemental measure of financial performance that is not required by, or presented in accordance with, GAAP. Adjusted net income has limitations as an analytical tool and our calculation thereof may not be comparable to that reported by other companies; accordingly, you should not consider it in isolation or as a substitute for analysis of our results as reported under GAAP.

We believe that adjusted net income provides a clearer picture of our operating results by eliminating certain non-cash expenses that are not reflective of the underlying business performance. We use this metric to facilitate a comparison of our operating performance on a consistent basis from period to period and to analyze the factors and trends affecting our business.
