

# Novelis Reports Second Quarter Fiscal Year 2024 Results

ATLANTA, Nov. 7, 2023 /PRNewswire/ --

#### **Q2 Fiscal Year 2024 Highlights**

- Net income attributable to our common shareholder of \$157 million, down 14% YoY;
   Net income excluding special items was \$180 million, down 11% YoY
- Adjusted EBITDA of \$484 million, down 4% YoY
- Rolled product shipments of 933 kilotonnes, down 5% YoY
- Adjusted EBITDA per tonne shipped of \$519, up 1% YoY

Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today reported results for the second quarter of fiscal year 2024.

"We are pleased to see another quarter of sequential improvement in Adjusted EBITDA, driven by initial demand recovery in our core beverage packaging sheet end market as industry supply chain destocking activity is largely behind us," said Steve Fisher, president and CEO, Novelis Inc. "We delivered a solid second quarter, demonstrating the resilience of our business on account of our diverse customer base across premium end markets, our leadership position in aluminum recycling, a solid balance sheet, and the scale and efficiency of our global operations. The business will only be further strengthened in the coming years as we complete strategic investments under way in new rolling and recycling capacity."

Net sales decreased 14% versus the prior year period to \$4.1 billion for the second quarter of fiscal year 2024, primarily driven by lower average aluminum prices and a 5% decrease in total flat rolled product shipments to 933 kilotonnes, partially offset by increased product pricing and favorable product mix. The decrease in shipments is mainly due to lower beverage packaging shipments compared to prior year record levels, as well as challenging economic conditions impacting some specialties markets, mainly in building & construction,

partially offset by higher automotive shipments on stronger customer demand.

Net income attributable to our common shareholder decreased 14% versus the prior year to \$157 million in the second quarter of fiscal year 2024, due mainly to lower Adjusted EBITDA. Adjusted EBITDA decreased 4% versus the prior year to \$484 million in the second quarter of fiscal year 2024, primarily driven by lower shipments, less favorable metal benefit from recycling, and a prior year favorable impact from capitalizing high operating costs into inventory. These factors were partially offset by higher product pricing, favorable product mix, and some lower freight costs.

Net cash flow provided by operating activities was \$290 million in the first six months of fiscal year 2024 compared to \$196 million in the prior fiscal year period, primarily due to favorable changes in working capital, partially offset by lower Adjusted EBITDA. Adjusted Free Cash Flow was an outflow of \$300 million in the first six months of fiscal year 2024, higher than the prior year period outflow of \$96 million due primarily to a planned increase in capital expenditures as we ramp up strategic investments in new capacity, partially offset by higher cash flow from operating activities. The company had a net leverage ratio (Net Debt / trailing twelve months (TTM) Adjusted EBITDA) of 2.7x at the end of the second quarter of fiscal year 2024.

"We are delivering on our expectations for Adjusted EBITDA per tonne recovery this year, with Adjusted EBITDA per tonne again improving sequentially to \$519 in the second quarter, demonstrating the operating leverage we gain with higher shipments," said Devinder Ahuja, executive vice president and CFO, Novelis Inc.

The company had a strong total liquidity position of \$2.3 billion, consisting of \$1.2 billion in cash and cash equivalents and \$1.1 billion in availability under committed credit facilities, as of September 30, 2023.

#### **Second Quarter Fiscal Year 2024 Earnings Conference Call**

Novelis will discuss its second quarter fiscal year 2024 results via a live webcast and conference call for investors at 7:00 a.m. EST/5:30 p.m. IST on Tuesday, November 7, 2023. #### **About Novelis**

Novelis Inc. is driven by its purpose of shaping a sustainable world together. We are a global leader in the production of innovative aluminum products and solutions and the world's largest recycler of aluminum. Our ambition is to be the leading provider of low-carbon, sustainable aluminum solutions and to achieve a fully circular economy by partnering with our suppliers, as well as our customers in the aerospace, automotive, beverage can and specialties industries throughout North America, Europe, Asia and South America. Novelis had net sales of \$18.5 billion in fiscal year 2023. Novelis is a subsidiary of Hindalco Industries Limited, an industry leader in aluminum and copper, and the metals flagship company of the Aditya Birla Group, a multinational conglomerate based in Mumbai. For more

information, visit novelis.com.

#### **Non-GAAP Financial Measures**

This news release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides, which can be found at novelis.com/investors. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Attached to this news release are tables showing the condensed consolidated statements of operations, condensed consolidated balance sheets, condensed consolidated statements of cash flows, reconciliation of Adjusted EBITDA, Adjusted EBITDA per Tonne, Adjusted Free Cash Flow, Net Leverage Ratio, income from continuing operations excluding special items, and segment information.

#### **Forward-Looking Statements**

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking within the meaning of securities laws. Forward-looking statements include statements preceded by, followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of forward-looking statements in this news release are statements about our beliefs that the business will only be further strengthened in the coming years as we complete strategic investments under way in new rolling and recycling capacity. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and Novelis' actual results could differ materially from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: disruptions or changes in the business or financial condition of our significant customers or the loss of their business or reduction in their requirements; price and other forms of competition from other aluminum rolled products producers and potential new market entrants; competition in our end-markets, and the willingness of our customer to accept substitutes for our products, including steel, plastics, composite materials and glass; our inability to realize the anticipated benefits of strategic investments; increases in the cost of volatility in the availability of primary aluminum, scrap aluminum, sheet ingot, or other raw materials used in the production of our products; rises in energy costs or disruptions to our energy supplies; downturns in the automotive and ground transportation industries or changes in consumer demand; public health crises, such as the recently experienced COVID-19 pandemic; union disputes and other employee relations issues; loss of our key management and other

personnel, or an inability to attract and retain such management and other personnel; unplanned disruptions at our operating facilities; exposure to economic and political risk associated with our global operations; economic uncertainty, capital markets disruption and supply chain interruptions, including as a result of geopolitical instability due to the ongoing military conflict between Russia and Ukraine; the impact of labor disputes and strikes on our customers could have material adverse effects on our business and financial results; risks relating to certain joint ventures, subsidiaries and assets that we do not entirely control; security breaches and other disruptions to our information technology networks and systems; increased freight costs on imported products; timing differences between the prices we pay under purchase contracts and metal prices we charge our customers; a deterioration of our financial condition, a downgrade of our ratings by a credit rating agency or other factors which could limit our ability to enter into, or increase our costs of, financing and hedging transactions; risks related to variable rate indebtedness, including interest rate risk; adverse changes in currency exchange rates; our inability to transact in derivative instruments, if our exposure to price fluctuations is not adequately hedged under derivative instruments, or if counterparties to our derivative instruments fail to honor their agreements; an adverse decline in the liability discount rate, lower-than-expected investment return on pension assets; impairments to our goodwill, other intangible assets and other long-lived assets; tax expense, tax liabilities or tax compliance costs; operating and financial restrictions imposed on us by the covenants in our credit facilities and the indentures governing our Senior Notes; our inability to protect our intellectual property, the confidentiality of our know-how, trade secrets, technology, and other proprietary information; risks related to our global operations, including the impact of complex and stringent laws and government regulations; global climate change or the legal, regulatory or market responses to such change; risks related to the broad range of environmental, health and safety laws and regulations to which we are subject, and any related exposure to substantial environmental, health and safety costs and liabilities; our failure to comply with laws and regulations and industry standards relating to privacy, data protection, advertising and consumer protection; and exposure to significant legal proceedings and investigations. The above list of factors is not exhaustive. Other important factors are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2023 and in our Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2023.
