Novelis Reports Third Quarter Fiscal Year 2024 Results

Significant year-over-year recovery in Net Income and Adjusted EBITDA

ATLANTA, Feb. 12, 2024 /PRNewswire/ --

Q3 Fiscal Year 2024 Highlights

- Net income attributable to our common shareholder of \$121 million, up significantly compared to \$12 million in the prior year period; Net income excluding special items was \$174 million, up 81% YoY
- Adjusted EBITDA of \$454 million, up 33% YoY
- Rolled product shipments of 910 kilotonnes, flat YoY
- Adjusted EBITDA per tonne shipped of \$499, up 33% YoY

Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today reported results for the third quarter of fiscal year 2024.

"Novelis delivered a substantial year-over-year improvement in Adjusted EBITDA and Adjusted EBITDA per tonne margin, in line with our expectations of continued margin recovery this fiscal year," said Steve Fisher, president and CEO, Novelis Inc. "Our

unmatched global scale, diversified end market product portfolio and recycling leadership is evident in our strong third quarter results and makes us an essential partner of choice for our customers. These differentiators also allow us to execute our ongoing strategy to invest in growth and organically increase our rolling and recycling capacity to shape a more sustainable future."

Net sales decreased 6% versus the prior year period to \$3.9 billion for the third quarter of fiscal year 2024, driven by lower average aluminum prices as shipments were in line with prior year levels. Total flat rolled product shipments were 910 kilotonnes in the third quarter of fiscal year 2024 compared to 908 kilotonnes in the prior year period. Shipments were flat due to a decline in specialties product shipments from muted economic conditions in some markets, though more than offset by continued growth in automotive shipments and a return in demand for beverage packaging sheet.

Net income attributable to our common shareholder significantly improved versus the prior year to \$121 million in the third quarter of fiscal year 2024, due primarily to higher Adjusted EBITDA. Adjusted EBITDA increased 33% versus the prior year to \$454 million in the third quarter of fiscal year 2024. This significant improvement was primarily driven by favorable metal benefit from recycling, higher pricing, and lower operating costs than the prior year, which was heavily impacted by high inflation and geopolitical instability.

Net cash flow provided by operating activities was \$420 million in the first nine months of fiscal year 2024 compared to \$309 million in the prior fiscal year period, primarily due to favorable changes in working capital. Adjusted Free Cash Flow was an outflow of \$517 million in the first nine months of fiscal year 2024, higher than the prior year period outflow of \$170 million due primarily to higher capital expenditures, partially offset by higher cash flow from operating activities. Fiscal year-to-date 2024 capital expenditures total \$960 million and reflect the planned increase in strategic investments in new rolling and recycling capacity under construction. The company had a net leverage ratio (Net Debt / trailing twelve months (TTM) Adjusted EBITDA) of 2.7x at the end of the third quarter of fiscal year 2024.

"We continue to expect adjusted EBITDA per tonne to return to a sustainable \$525 level beginning this fiscal fourth quarter as shipments seasonally improve and we drive more operating leverage," said Devinder Ahuja, executive vice president and CFO, Novelis Inc. "Looking ahead, we believe there is opportunity for further margin expansion over time as we progress through our current period of disciplined, transformational capital investment to capture market growth."

The company had a strong total liquidity position of \$2.1 billion, consisting of \$787 million in cash and cash equivalents and \$1.4 billion in availability under committed credit facilities, as of December 31, 2023.

Bay Minette Update

Novelis is constructing a state-of-the-art, greenfield rolling and recycling plant in Bay Minette, Alabama, that we anticipate will be able to initially produce 600 kilotonnes of finished goods for the beverage packaging and automotive markets in North America. This is the first fully integrated aluminum plant built in the U.S. in nearly 40 years, and the largest project in company history. With a high level of project engineering complete, and all key equipment and the majority of materials contracted, the project capital cost is now expected to be \$4.1

billion, and to commission in the second half of calendar year 2026.

"We are building this plant not just for today, but for the next 40 years and beyond," said Fisher. "Bay Minette will be a true plant of the future, combining our decades of experience with the latest technology to improve safety, efficiency, and the sustainability of our products, while also providing the ability to double future capacity in a cost-effective manner. With customer contracts for beverage packaging already signed, and automotive contracting proceeding as planned, we remain confident in the double-digit return of this historic investment."

Non-GAAP Financial Measures

This news release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides, which can be found at novelis.com/investors. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Attached to this news release are tables showing the condensed consolidated statements of

operations, condensed consolidated balance sheets, condensed consolidated statements of cash flows, reconciliation of Adjusted EBITDA, Adjusted EBITDA per Tonne, Adjusted Free Cash Flow, Net Leverage Ratio, income from continuing operations excluding special items, and segment information.

Forward-Looking Statements

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking within the meaning of securities laws. Forward-looking statements include statements preceded by, followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of forward-looking statements in this news release are statements about our beliefs that the business will only be further strengthened in the coming years as we complete strategic investments under way in new rolling and recycling capacity, including our Bay Minette project, statements regarding future performance, including with respect to Adjusted EBITDA per tonne, our expectations regarding seasonal improvements of shipments, and our expectations regarding future margin expansion and capital investment opportunities. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and Novelis' actual results could differ materially from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise.

Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: disruptions or changes in the business or financial condition of our significant customers or the loss of their business or reduction in their requirements; price and other forms of competition from other aluminum rolled products producers and potential new market entrants; competition in our end-markets, and the willingness of our customer to accept substitutes for our products, including steel, plastics, composite materials and glass; our inability to realize the anticipated benefits of strategic investments; increases in the cost of volatility in the availability of primary aluminum, scrap aluminum, sheet ingot, or other raw materials used in the production of our products; rises in energy costs or disruptions to our energy supplies; downturns in the automotive and ground transportation industries or changes in consumer demand; public health crises, such as the recently experienced COVID-19 pandemic; union disputes and other employee relations issues; loss of our key management and other personnel, or an inability to attract and retain such management and other personnel: unplanned disruptions at our operating facilities; exposure to economic and political risk associated with our global operations; economic uncertainty, capital markets disruption and supply chain interruptions, including as a result of geopolitical instability due to the ongoing military conflict between Russia and Ukraine, attacks on shipping vessels in the Red Sea, and the ongoing conflict in the Gaza Strip; the impact of labor disputes and strikes on our customers could have material adverse effects on our business and financial results; risks relating to certain joint ventures, subsidiaries and assets that we do not entirely control: security breaches and other disruptions to our information technology networks and systems; increased freight costs on imported products; timing differences between the prices we pay under purchase contracts and metal prices we charge our customers; a deterioration of our financial condition, a downgrade of our ratings by a credit rating agency or other factors which could limit our ability to enter into, or increase our costs of, financing and

hedging transactions; risks related to variable rate indebtedness, including interest rate risk; adverse changes in currency exchange rates; our inability to transact in derivative instruments, if our exposure to price fluctuations is not adequately hedged under derivative instruments, or if counterparties to our derivative instruments fail to honor their agreements; an adverse decline in the liability discount rate, lower-than-expected investment return on pension assets; impairments to our goodwill, other intangible assets and other long-lived assets; tax expense, tax liabilities or tax compliance costs; operating and financial restrictions imposed on us by the covenants in our credit facilities and the indentures governing our Senior Notes; our inability to protect our intellectual property, the confidentiality of our know-how, trade secrets, technology, and other proprietary information; risks related to our global operations, including the impact of complex and stringent laws and government regulations; global climate change or the legal, regulatory or market responses to such change; risks related to the broad range of environmental, health and safety laws and regulations to which we are subject, and any related exposure to substantial environmental, health and safety costs and liabilities; our failure to comply with laws and regulations and industry standards relating to privacy, data protection, advertising and consumer protection; and exposure to significant legal proceedings and investigations. The above list of factors is not exhaustive. Other important factors are discussed under the captions "Risk Factors" and "Management's Discussion and Analysis" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2023 and in our Quarterly Report on Form 10-Q for the fiscal guarter ended December 31, 2023.
