Anixa Biosciences to Host 2026 Annual Meeting of Stockholders and Provide Corporate Update Highlighting Recent Clinical and Regulatory Progress

Presentation to Review Ovarian Cancer CAR-T Survival Observations and Dose Escalation, as well as Final Phase 1 Breast Cancer Vaccine Data

SAN JOSE, Calif., March 2, 2026 /PRNewswire/ -- [Anixa Biosciences, Inc.](#) ("Anixa" or the "Company") (NASDAQ: ANIX), a biotechnology company focused on the treatment and prevention of cancer, today announced that it will host its 2026 Annual Meeting of Stockholders (the "Meeting") on Tuesday, March 10, 2026, at 10:00 a.m. Pacific Time in a virtual format. The Meeting will be open to all interested parties, including non-stockholders.

Following the formal business and voting portion of the Meeting, Anixa Chairman and CEO Dr. Amit Kumar will deliver an investor presentation and corporate update. The presentation will include a review of recent clinical milestones across the Company's oncology pipeline, including:

- Encouraging survival observations and regulatory approval for substantial dose escalation in the Company's ongoing Phase 1 ovarian cancer CAR-T trial; and
- Final Phase 1 data from the breast cancer vaccine program, which met primary endpoints and demonstrated favorable tolerability and protocol-defined immune responses in the majority of participants.

The presentation will be followed by a live question-and-answer session.

The Meeting may be accessed online at: www.virtualshareholdermeeting.com/ANIX2026

About Anixa Biosciences, Inc.

Anixa is a clinical-stage biotechnology company focused on the treatment and prevention of cancer. Anixa's therapeutic portfolio consists of liraltagene autoleucel, or lira-cel, an ovarian cancer immunotherapy being developed in collaboration with Moffitt Cancer Center, which uses a novel type of CAR-T, known as chimeric endocrine receptor-T cell (CER-T)

technology. This technology is differentiated from other cell therapies as the natural ligand of the FSHR receptor, FSH, binds to the FSHR receptor on the tumor cell instead of an antibody fragment. Moffitt is a world leader in cancer immunotherapy treatments, pioneering next-generation cell therapies such as CAR-T, and tumor infiltrating lymphocytes (TILs) to harness the power of the immune system. The Company's vaccine portfolio includes vaccines being developed in collaboration with Cleveland Clinic to treat and prevent breast cancer and ovarian cancer, as well as additional cancer vaccines to address many intractable cancers, including high incidence malignancies in lung, colon, and prostate. These vaccine technologies focus on immunizing against "retired" proteins that have been found to be expressed in certain forms of cancer. The breast and ovarian cancer vaccines were developed at Cleveland Clinic and exclusively licensed to Anixa. Cleveland Clinic is entitled to royalties and other commercialization revenues from the Company related to these vaccine technologies. Anixa's unique business model of partnering with world-renowned research institutions on all stages of development allows the Company to continually examine emerging technologies in complementary fields for further development and commercialization. Forward-Looking Statements

Statements that are not historical fact may be considered forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are not statements of historical facts, but rather reflect Anixa's current expectations concerning future events and results. We generally use the words "believes," "expects," "intends," "plans," "anticipates," "likely," "will" and similar expressions to identify forward-looking statements. Such forward-looking statements, including those concerning our expectations, involve risks, uncertainties and other factors, some of which are beyond our control, which may cause our actual results, performance or achievements, or industry results, to be materially different from any future results, performance, or achievements expressed or implied by such forward-looking statements. These risks, uncertainties and factors include, but are not limited to, those factors set forth in "Item 1A - Risk Factors" and other sections of our most recent Annual Report on Form 10-K as well as in our Quarterly Reports on Form 10-Q and Current Reports on Form 8-K. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law. You are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in this press release.
