## **RESULTS OF OPERATIONS FOR THE QUARTER ENDED JUNE 30, 2021**

### ***Investment Income***

Investment income increased to \$249.0 million for the three months ended June 30, 2021 from \$190.2 million for the three months ended June 30, 2020. In addition to the growth in the portfolio, the incremental increase in investment income compared to the same period in the prior year was primarily due to an increase in dividend income.

### ***Expenses***

Total expenses, after the effect of management and incentive fee waivers, increased to \$129.7 million for the three months ended June 30, 2021 from \$61.7 million for the three months ended June 30, 2020, which was primarily due to expiration of the management and incentive fee waiver in October 2020 and an increase in management fees and interest expense. Management fees increased period over period due to an increase in assets. The increase in interest expense was primarily driven by an increase in average daily borrowings, offset by a decrease in the average interest rate period over period.

### ***Liquidity and Capital Resources***

As of June 30, 2021, we had \$627.2 million in cash and restricted cash, \$6.5 billion in total principal value of debt outstanding, and \$1.6 billion of undrawn capacity on our credit facilities. The Company's weighted average interest rate on debt outstanding was 3.0% and 3.2% for the three months ended June 30, 2021 and March 31, 2021, respectively. Ending debt to equity was 1.00x and 0.92x during the three months ended June 30, 2021 and March 31, 2021, respectively.

### ***COVID-19 Developments***

We continue to assess the impact of COVID-19 on our portfolio companies.
