# RESULTS OF OPERATIONS FOR THE QUARTER ENDED SEPTEMBER 30, 2020

## Investment Income

Investment income decreased to \$187.1 million for the three months ended September 30, 2020 from \$188.2 million for the three months ended September 30, 2019. This decrease was primarily due to a decrease in our portfolio's weighted average yield at amortized cost, partially offset by an increase in our investment portfolio.

# **Expenses**

Total expenses, after the effect of management and incentive fee waivers, increased to \$60.8 million for the three months ended September 30, 2020 from \$49.9 million for the three months ended September 30, 2019, which was primarily due to an increase in net management fees, professional fees and interest expense. Net management fees increased as a result of an increase in total assets period over period. The increase in interest expense was primarily driven by an increase in average daily borrowings, partially offset by a decrease in the average interest rate period over period.

As of September 30, 2020, we had \$0.2 billion in cash and restricted cash, \$4.3 billion in total principal value of debt outstanding, and \$1.4 billion of undrawn capacity on our credit facilities.
