The [Pharma Innovation Awards](#) represent an annual recognition of new technologies and services that aim to help improve product quality, reduce risks, and enhance pharmaceutical production efficiency. In the 2023 edition, the editorial team at Pharma Manufacturing has selected 13 winners from global suppliers of pharmaceutical equipment and technologies who have distinguished themselves by enhancing and

improving their products, thereby supporting pharmaceutical companies in creating innovative and life-saving drugs.

The Mavis™ Combi visual inspection line is a cutting-edge solution designed to provide advanced performance, flexibility, and speed to enhance visual inspection of primary packaging and the drugs within it. The Mavis™ Combi can handle a diverse array of glass primary containers such as syringes, vials, ampoules, and cartridges, nimbly switching from one format to another, all in one unit. Its ability to accurately identify particles, cosmetic defects, and closure integrity issues is crucial in ensuring the highest standards of product quality and safety. Furthermore, the Mavis™ Combi visual inspection line can inspect both bulk and ready-to-use containers.

The Mavis™ Combi is also distinguished by its compact design and remarkable operational speed, supporting pharma production without compromising quality control. The Mavis™ Combi is part of Stevanato Group's Mavis™ platform, which also includes equipment for visual inspection of syringes. The Mavis™ platform was designed to respond to the need for high-performance visual inspection processes in combination with flexibility and compact design.

"It's a privilege to be acknowledged for the innovation behind the Mavis™ Combi visual inspection line," said Paolo Superchi, Vice President of Engineering Operations at Stevanato Group. "The compact design solution provides efficiency, adaptability, and flexibility. This enables Stevanato Group to meet the requirements of pharmaceutical companies in processing drugs and containers of various formats, all while upholding an exceptionally high level of quality control."

Forward-Looking Statements

This press release may include forward-looking statements. The words "provides", "enhance", "handle", "ensuring", "can", "enables", "to meet" and similar expressions (or their negative) identify certain of these forward-looking statements. These forward-looking statements are statements regarding the Company's intentions, beliefs or current expectations concerning, among other things, the investments the Company expects to receive, the expansion of manufacturing capacity, the Company's plans regarding its presence in the U.S. market, business strategies, the Company's capacity to meet future market demands and support preparedness for future public health emergencies, and results of operations. The forward-looking statements in this press release are based on numerous assumptions regarding the Company's present and future business strategies and the environment in which the Company will operate in the future. Forward-looking statements involve inherent known and unknown risks, uncertainties and contingencies because they relate to events and depend on circumstances that may or may not occur in the future and may cause the actual results, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements. Many of these risks and uncertainties relate to factors that are beyond the Company's ability to control or estimate precisely, such as future market conditions, currency fluctuations, the behavior of other market participants, the actions of regulators and other factors such as the Company's ability to continue to obtain financing to meet its liquidity needs, changes in the political, social and regulatory framework in which the Company operates or in economic or technological trends or conditions. Readers should therefore not place undue reliance on these statements, particularly not in connection with any contract or investment decision. Except as required by law, the company assumes no obligation to update any such forward-looking statements.
