# Intensity Therapeutics Selected for Oral Podium Presentation in a Late-Breaking Session at the 2024 Annual Connective Tissue Oncology Society (Sarcomas) Meeting

SHELTON, Conn., Nov. 8, 2024 /PRNewswire/ -- [Intensity Therapeutics, Inc.](https://www.intensitytherapeutics.com) (Nasdaq: INTS), ("Intensity" or "the Company") a late-stage clinical biotechnology company focused on the discovery and development of proprietary, novel immune-based intratumorally injected cancer therapies intended to kill tumors directly and increase immune system recognition of cancers, today announced that its Phase 3 trial has been selected for an oral podium presentation at the 2024 Connective Tissue Oncology Society (CTOS) on November 16, 2024. Dr. Christian F. Meyer MD, Ph.D will be making the oral presentation highlighting completed Phase 2 results and the INVINCIBLE-3 (Phase 3) randomized soft tissue sarcoma trial design and important study criteria. The annual CTOS conference runs from November 13 to 16, 2024 in San Diego at the Grand Hyatt.

## **Presentation Details**

**Session 11:** Trials in Progress/Late Breaking Trials

**Moderator:** Palma Dileo, MD (she/her/hers) – University College London Hospitals NHS Foundation Trust

**Moderator:** Steven I. Robinson, M.B.B.S. (he/him/his) – Mayo Clinic

**Paper 78** - A MULTICENTER, RANDOMIZED, PHASE 3 STUDY OF INTRATUMORAL INT230-6 (SHAO, VINBLASTINE, CISPLATIN) COMPARED TO STANDARD OF CARE THERAPY IN SELECTED METASTATIC SOFT TISSUE SARCOMAS: INVINCIBLE-3 TRIAL.

**Date:** Saturday, November 16, 2024

**Time:** 9:00 AM PST

**Location:** Harbor Ballroom

**Author:** Albiruni Abdul Razak, MB BCh, BAO, LRCP & SI – Toronto Sarcoma Program, Princess Margaret Cancer Center

**Presenter:** Christian F. Meyer, MD PhD (he/him/his) – Johns Hopkins University

**About Intensity Therapeutics**

Intensity Therapeutics is a late-stage clinical biotechnology company that applies novel engineered chemistry by enabling its aqueous cytotoxic-containing drug product, INT230-6, to mix and saturate the tumor's dense, high-fat pressurized environment. As a result of the saturation, Intensity's clinical trials have demonstrated the ability of INT230-6 to kill tumors and elicit an adaptive immune response within days of injection, representing a novel approach to cancer cell death that holds the potential to shift the treatment paradigm and turn many deadly cancers into chronic diseases even for cancers that do not respond to immunotherapy. Intensity complete two large clinical studies using INT230-6 that enrolled over 200 patients: a Phase 1/2 dose escalation trial ([NCT03058289](#)) and a Phase 2 randomized control clinical trial in breast cancer (the INVINCIBLE-2 study) ([NCT04781725](#)). Intensity Therapeutics initiated a Phase 3 trial in soft tissue sarcoma (the INVINCIBLE-3 study) ([NCT06263231](#)), testing INT230-6 as second or third-line monotherapy compared to the standard of care with overall survival as an endpoint. The Company is also conducting a Phase 2 study in collaboration with The Swiss Group for Clinical Cancer Research SAKK as part of a Phase 2/3 program evaluating INT230-6 followed by SOC and SOC alone for patients with presurgical triple-negative breast cancer. Information on the Phase 2 portion of the program (INVINCIBLE-4 Study) is listed under ([NCT06358573](#)). For more information about the Company, including publications, papers and posters about its novel approach to cancer therapeutics, visit [www.intensitytherapeutics.com](http://www.intensitytherapeutics.com).

### **About the Connective Tissue Oncology Society and Sarcoma**

The Connective Tissue Oncology Society was formed in 1995 and incorporated in 1997. CTOS is an international group comprised of physicians and scientists with a primary interest in the tumors of connective tissues such as soft tissue sarcomas, which are a rare type of cancer that develops in the soft tissues of the body, such as muscle, fat, blood vessels, and nerves: The goal of the society is to advance the care of patients with connective tissue tumors and to increase knowledge of all aspects of the biology of these tumors, including basic and clinical research.

### **Forward-Looking Statements**

Certain statements in this press release may constitute "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995, as amended to date. These statements include but are not limited to, statements relating to the development of the Company's clinical programs. When or if used in this communication, the words "may," "could," "should," "anticipate," "believe," "estimate," "expect," "intend," "plan," "predict" and similar expressions and their variants, as they relate to the Company or its management, may identify forward-looking statements. The forward-looking statements contained in this press release are based on management's current expectations and projections about future events. Nevertheless, actual results or events could differ materially from the plans, intentions, and expectations disclosed in, or implied by, the forward-looking statements. These risks and uncertainties, many of which are beyond our control, include: the initiation, timing, progress and results of future preclinical studies and clinical trials and research and development programs; the need to raise additional funding before the Company can expect to generate any revenues from product sales; plans to develop and commercialize product candidates; the timing or likelihood of regulatory filings and approvals; the ability of the Company's research to generate and advance additional product candidates; the implementation of the Company's business model, strategic plans for the

Company's business, product candidates and technology; commercialization, marketing and manufacturing capabilities and strategy; the rate and degree of market acceptance and clinical utility of the Company's system; the Company's competitive position; the Company's intellectual property position; developments and projections relating to the Company's competitors and its industry; the Company's ability to maintain and establish collaborations or obtain additional funding; expectations related to the use of cash and cash equivalents and investments; estimates regarding expenses, future revenue, capital requirements and needs for additional financing; and other risks described in the section entitled "Risk Factors" in the Company's SEC filings, which can be obtained on the SEC website at [www.sec.gov](http://www.sec.gov). Readers are cautioned not to place undue reliance on the forward-looking statements, which speak only as of the date on which they are made and reflect management's current estimates, projections, expectations and beliefs. The Company does not plan to update any such forward-looking statements and expressly disclaims any duty to update the information contained in this press release except as required by law.
