Q1 2015 Financial Highlights (Excluding AutoMD)

- Net sales increased to \$76.33 million for Q1 2015 compared to \$67.95 million for Q1 2014. Our Q1 2015 net sales consisted of online sales, representing 90.3% of the total (compared to 89.4% in Q1 2014), and offline sales, representing 9.7% of the total (compared to 10.6% in Q1 2014). The net sales increase was driven by an increase of \$8.17 million, or 13.4%, in online sales. Online sales increased primarily due to an increase of 5.0% in conversion, a 1.0% increase in unique visitors, and an increase in average order value of 4.3%. The increase in unique visitors was favorable due to the improved marketing spend efficiency.
- Gross profit increased by \$0.79 million, or 3.8%, in Q1 2015 compared to Q1 2014. Gross margin rate decreased 2.2% to 28.1% in Q1 2015 compared to 30.3% in Q1 2014. Gross margin rate decreased for Q1 2015 compared to the prior year period primarily due to sales mix, competitive pricing strategies and to a lesser extent lower freight revenue as a percentage to total freight charges.
- Operating expenses as percent of net sales came in lower at 27.1% compared to last year of 28.9% primarily due to fixed expense operating leverage on higher net sales and lower non-cash depreciation and amortization.
- Capital expenditures for Q1 2015 were \$1.97 million compared with \$1.14 million in Q1 2014.
- Consolidated total Company cash and cash equivalents and investments were \$7.98 million and total debt under our revolver was \$9.49 million as of April 4, 2015 compared to \$7.72 million and \$11.02 million as of January 3, 2015.

Q1 2015 Operational Highlights

- Achieved positive traffic growth in the quarter compared to the prior year period.
- Converted our flag ship sites to a mobile friendly platform.
- Increased average order value 4% over the prior year.
- Added 1,000 new private label sku's to our assortment.
- Increased the number of orders 8% over the prior year period.
- Achieved In-Stock rate of +95% on our top 5,000 sku's.

Non-GAAP Financial Measures

Regulation G, "Conditions for Use of Non-GAAP Financial Measures" and other provisions of the Securities Exchange Act of 1934, as amended, define and prescribe the conditions for use of certain non-GAAP financial information. We provide "Adjusted EBITDA," which is a non-GAAP financial measure. Adjusted EBITDA consists of net income before (a) interest expense, net; (b) income tax provision; (c) depreciation and amortization expense; (d) amortization of intangible assets; (e) share-based compensation expense; and (f) restructuring costs.

The Company believes that this non-GAAP financial measure provides important supplemental information to management and investors. This non-GAAP financial measure reflects an additional way of viewing aspects of the Company's operations that, when viewed with the GAAP results and the accompanying reconciliation to corresponding GAAP financial measures, provides a more complete understanding of factors and trends affecting the Company's business and results of operations.

Management uses Adjusted EBITDA as a measure of the Company's operating performance because it assists in comparing the Company's operating performance on a consistent basis by removing the impact of items not directly resulting from core operations. Internally, this non-GAAP measure is also used by management for planning purposes, including the preparation of internal budgets; for allocating resources to enhance financial performance; for evaluating the effectiveness of operational strategies; and for evaluating the Company's capacity to fund capital expenditures and expand its business. The Company also believes that analysts and investors use Adjusted EBITDA as a supplemental measure to evaluate the overall operating performance of companies in our industry. Additionally, lenders or potential lenders use Adjusted EBITDA to evaluate the Company's ability to repay loans.

This non-GAAP financial measure is used in addition to and in conjunction with results presented in accordance with GAAP and should not be relied upon to the exclusion of GAAP financial measures. Management strongly encourages investors to review the Company's consolidated financial statements in their entirety and to not rely on any single financial measure. Because non-GAAP financial measures are not standardized, it may not be possible to compare these financial measures with other companies' non-GAAP financial measures having the same or similar names. In addition, the Company expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from the Company's non-GAAP measures should not be construed as an inference that these costs are unusual, infrequent or non-recurring.
