Huntsman Announces First Quarter 2017 Results; Raises 2017 Free Cash Flow Target to Over \$450 Million

THE WOODLANDS, Texas, April 26, 2017 /PRNewswire/ --

First Quarter 2017 Highlights

- Net income was \$92 million compared to \$62 million in the prior year period and \$137 million in the prior quarter.
- Adjusted EBITDA was \$329 million compared to \$274 million in the prior year period and \$256 million in the prior quarter.
- Diluted income per share was \$0.31 compared to \$0.24 in the prior year period and \$0.53 in the prior quarter.
- Adjusted diluted income per share was \$0.57 compared to \$0.37 in the prior year period and \$0.30 in the prior quarter.
- Net cash provided by operating activities was \$93 million. Free cash flow generation was \$82 million.
- On April 25, 2017, we made a \$100 million early repayment of debt.
- We are committed to an IPO or spin of our Pigments business in the summer of 2017

See end of press release for footnote explanations

Huntsman Corporation (NYSE: HUN) today reported first quarter 2017 results with revenues of \$2,469 million, net income of \$92 million and adjusted EBITDA of \$329 million.

Peter R. Huntsman, our President and CEO, commented:

"Within the first quarter we saw positive business trends develop such that earnings for all our divisions exceeded early quarter expectations. Additionally, it is noteworthy that our combined non-pigment businesses experienced year-over-year EBITDA growth. Net income was \$92 million and adjusted EBITDA improved by \$62 million to \$329 million compared to the prior year after taking into consideration the fourth quarter 2016 sale of our European surfactants business. Our cash flow provided from operating activities was \$93 million. Strong earnings fueled free cash flow delivery of \$82 million which includes \$54 million of insurance proceeds, an improvement of \$95 million compared to the prior year first quarter. We continue to strengthen our balance sheet and on April 25, 2017 we voluntarily repaid \$100 million of debt. In total, we have repaid approximately \$670 million over the last year. As a result of the strong first quarter earnings and our improving outlook for the remainder of the year, we now expect to generate more than \$450 million of free cash flow in 2017."

"We continue our efforts to separate our Pigments and Additives division (known as Venator) and are targeting an IPO or spin during this upcoming summer."

Segment Analysis for 1Q17 Compared to 1Q16

Polyurethanes

The increase in revenues in our Polyurethanes segment for the three months ended March 31, 2017 compared to the same period of 2016 was primarily due to higher average selling prices. MDI average selling prices increased in response to higher raw material costs and continued strong market conditions. MTBE average selling prices increased primarily as a result of higher pricing for high octane gasoline. MDI and MTBE volumes were flat compared to the same period of 2016. The increase in segment adjusted EBITDA was primarily due to higher MDI margins, partially offset by lower MTBE margins.

Performance Products

The decrease in revenues in our Performance Products segment for the three months ended March 31, 2017 compared to the same period of 2016 was due to lower sales volumes because of the sale of the European surfactants business to Innospec Inc. on December 30, 2016, partially offset by higher sales volumes in largely all of our businesses as well as higher average selling prices. On a Pro-forma basis, volumes increased 10%.

The decrease in segment adjusted EBITDA was primarily due to the sale of the European surfactants business and lower margins in our amines and maleic anhydride businesses, partially offset by higher sales volumes and lower fixed costs.

Advanced Materials

The decrease in revenues in our Advanced Materials segment for the three months ended March 31, 2017 compared to the same period of 2016 was primarily due to lower sales volumes. Sales volumes decreased primarily due to our withdrawal from certain low margin business in the coatings and construction markets and competitive pressures in the wind

market, partially offset by growth in certain higher value businesses. The decrease in segment adjusted EBITDA was due to lower sales volumes, higher raw material costs, and adverse fixed costs associated with optimizing our inventory to lower levels.

Textile Effects

The increase in revenues in our Textile Effects segment for the three months ended March 31, 2017 compared to the same period of 2016 was due to higher sales volumes, partially offset by lower average selling prices. Sales volumes increased in both textile chemicals and dyes, particularly in our Asia, Europe and South America regions. Average selling prices decreased primarily in response to lower raw material costs and product mix. The increase in segment adjusted EBITDA was primarily due to higher volumes and lower fixed costs.

Pigments and Additives

In the Pigments and Additives division revenues were essentially unchanged for the three months ended March 31, 2017 compared to the same period of 2016 as higher average local currency selling prices were offset by lower sales volumes from the fire at our Pori, Finland titanium dioxide facility. Average selling prices increased primarily due to improved business conditions for titanium dioxide. Sales volumes increased within our complementary performance additives business. The increase in adjusted EBITDA was primarily due to higher average selling prices for titanium dioxide and lower costs resulting from restructuring savings, partially offset by approximately \$15 million in lower EBITDA resulting from the fire at our Pori, Finland titanium dioxide facility.

Corporate, LIFO and other

Adjusted EBITDA for Corporate, LIFO and Other decreased by \$1 million to a loss of \$43 million for the three months ended March 31, 2017 compared to a loss of \$42 million for the same period in 2016. The slight decrease in adjusted EBITDA was primarily a result of a decrease in LIFO inventory valuation income, partially offset by an increase in income from benzene sales.

Separation Update

We intend to pursue a possible initial public offering of Venator. This is our preferred route to separate Venator as it is intended to provide significantly more value for Huntsman Shareholders by allowing for greater deleveraging of Huntsman. We plan on leaving our Form 10 on file for a potential spin in the event that the IPO market conditions become unfavorable. Either way, we are working toward an initial public offering or spin during the upcoming summer months of 2017.

Liquidity, Capital Resources and Outstanding Debt

As of March 31, 2017, we had \$1,292 million of combined cash and unused borrowing capacity compared to \$1,208 million as of December 31, 2016.

During the three months ended March 31, 2017 we spent \$74 million on capital expenditures compared to \$99 million in 2016. We expect to spend approximately \$380 million on capital expenditures in 2017 net of capital reimbursements. On April 21, 2017 we amended our AR

securitization facilities, which among other things extended our maturities from 2018 to 2020. On April 25, 2017, we made a \$100 million early repayment of debt on our term loan B due 2019.

Income Taxes

During the three months ended March 31, 2017, we recorded an income tax expense of \$23 million. During the same period, we paid \$8 million in cash for income taxes.

In the first quarter 2017, our adjusted effective tax rate was 19%. We expect our long term adjusted effective tax rate will be approximately 30%. We expect our 2017 adjusted effective tax rate to be approximately 25 – 30%.

Earnings Conference Call Information

We will hold a conference call to discuss our first quarter 2017 financial results on Wednesday, April 26, 2017 at 9:00 a.m. ET.

Call-in numbers for the conference call:
U.S. participants (888) 679 - 8033
International participants (617) 213 - 4846
Passcode 549 608 51#

In order to facilitate the registration process, you may use the following link to pre-register for the conference call. Callers who pre-register will be given a unique PIN to gain immediate access to the call and bypass the live operator. You may pre-register at any time, including up to and after the call start time. To pre-register, please go to:

<https://www.theconferencingservice.com/prereg/key.process?key=PYK3Y9X8X>.

Webcast Information

The conference call will be available via webcast and can be accessed from the company's website at ir.huntsman.com.

Replay Information

The conference call will be available for replay beginning April 26, 2017 and ending May 3, 2017.

Call-in numbers for the replay:
U.S. participants (888) 286 - 8010
International participants (617) 801 - 6888
Replay code 29385180

Upcoming Conferences

During the second quarter a member of management is expected to present at the Wells Fargo Chemical Conference on May 9, 2017, the Goldman Sachs Basic Materials Conference on May 16, 2017 and Vertical Research Partners Materials Conference June 14-15, 2017. A webcast of the presentation, if applicable, along with accompanying materials will be available at ir.huntsman.com.

- (c) Represents payments associated with one-time costs of the proposed separation of our Pigments & Additives business.

Footnotes

- (1) We use adjusted EBITDA to measure the operating performance of our business and for planning and evaluating the performance of our business segments. We provide adjusted net income because we feel it provides meaningful insight for the investment community into the performance of our business. We believe that net income (loss) is the performance measure calculated and presented in accordance with generally accepted accounting principles in the U.S. ("GAAP") that is most directly comparable to adjusted EBITDA and adjusted net income. Additional information with respect to our use of each of these financial measures follows:

Adjusted EBITDA, adjusted net income (loss) and adjusted diluted income (loss) per share, as used herein, are not necessarily comparable to other similarly titled measures of other companies.

Adjusted EBITDA is computed by eliminating the following from net income (loss): (a) net income attributable to noncontrolling interest, net of tax; (b) interest; (c) income taxes; (d) depreciation and amortization; (e) acquisition and integration expenses, purchase accounting adjustments; (f) EBITDA from discontinued operations; (g) loss (gain) on disposition of businesses/assets; (h) loss on early extinguishment of debt; (i) certain legal settlements and related expenses; (j) net plant incident costs (credits), net; (k) business separation costs; (l) amortization of pension and postretirement actuarial losses (gains) and; (m) restructuring, impairment and plant closing costs (credits). The reconciliation of adjusted EBITDA to net income (loss) is set forth in Table 4 above.

Adjusted net income (loss) and adjusted diluted income (loss) per share are computed by eliminating the after tax impact of the following items from net income (loss): (a) net income attributable to noncontrolling interest; (b) acquisition and integration expenses, purchase accounting adjustments; (c) impact of certain foreign tax credit elections; (d) loss (income) from discontinued operations; (e) discount amortization on settlement financing associated with the terminated merger; (f) loss (gain) on disposition of businesses/assets; (g) loss on early extinguishment of debt; (h) certain legal settlements and related expenses; (i) net plant incident costs (credits), net; (j) business separation costs; (k) amortization of pension and postretirement actuarial losses (gains); and (l) restructuring, impairment and plant closing costs (credits). The income tax impacts, if any, of each adjusting item represent a ratable allocation of the total difference between the unadjusted tax expense and the total adjusted tax expense, computed without consideration of any adjusting items using a with and without approach. We do not adjust for changes in tax valuation allowances because we do not believe it provides more meaningful information than is provided under GAAP. The reconciliation of adjusted net income (loss) to net income (loss) is set forth in Table 4 above.

- (2) Pro forma adjusted to exclude the sale of our European differentiated surfactants business to Innospec on December 30, 2016 as if it had occurred at the beginning of the relevant period.
- (3) Management internally uses a free cash flow measure: (a) to evaluate the Company's liquidity, (b) to evaluate strategic investments, (c) to plan stock buyback and dividend levels and (d) to evaluate the Company's ability to incur and service debt. Free cash flow is not a defined term under U.S. GAAP, and it should not be inferred that the entire free cash flow amount is available for discretionary expenditures. The Company defines free cash flow as cash flow provided by operating activities less cash flow used in investing activities, excluding acquisition/disposition activities and non-recurring separation costs. Free cash flow is typically derived directly from the Company's condensed consolidated statement of cash flows; however, it may be adjusted for items that affect comparability between periods.
- (4) During the first quarter 2010 we closed our Australian styrenics operations; results from associated business are treated as discontinued operations.

About Huntsman:

Huntsman Corporation is a publicly traded global manufacturer and marketer of differentiated chemicals with 2016 revenues of approximately \$10 billion. Our chemical products number in the thousands and are sold worldwide to manufacturers serving a broad and diverse range of consumer and industrial end markets. We operate more than 100 manufacturing and R&D facilities in approximately 30 countries and employ approximately

15,000 associates within our 5 distinct business divisions including the Pigments and Additives division that we intend to IPO or spin-off as Venator Materials Corporation. For more information about Huntsman, please visit the company's website at www.huntsman.com.
