# ShiftPixy's Labor Day Launch of Driver Management

IRVINE, Calif., Sept. 04, 2018 (GLOBE NEWSWIRE) -- ShiftPixy, Inc. (NASDAQ: PIXY), a disruptive workforce engagement platform provider, has introduced a highly efficient and innovative proposition for fast food and fast casual restaurant operators who are trying to avoid the brand damage and high costs from third-party delivery.

"Third-party delivery has created a wave we call the convenience economy which provides a great source of new revenue for fast food and fast casual restaurant operators," said Scott Absher, ShiftPixy's Co-Founder and CEO. "However, many operators are now concerned that the complaints of food quality, late arrival, damage or wrong orders are harming their brand and the overall customer experience. Today we are launching our driver management feature as our first step to enable our restaurant operator clients to self-deliver and preserve their brand, customer experience, customer data and the 30 percent in fees they give to traditional third-party platforms."

The new driver management layer for operators in the ShiftPixy ecosystem will now allow ShiftPixy clients to use their own team members to self-deliver a brand intended customer experience. ShiftPixy has taken the compliance, management and insurance issues related to the support of a delivery option and created a turnkey self-delivery opportunity.
