

TTM Technologies, Inc. Investor Presentation

February, 2024

Inspiring Innovation

Disclaimers

Forward-Looking Statements

This communication may contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, including statements related to the future business outlook, events, and expected performance of TTM Technologies, Inc. (“TTM”, “we” or the “Company”). The words “anticipate,” “believe,” “plan,” “forecast,” “foresee,” “estimate,” “project,” “expect,” “seek,” “target,” “intend,” “goal” and other similar expressions, among others, generally identify “forward-looking statements,” which speak only as of the date the statements were made and are not guarantees of performance. Actual results may differ materially from these forward-looking statements. Such statements relate to a variety of matters, including but not limited to the operations of TTM’s businesses. These statements reflect the current beliefs, expectations and assumptions of the management of TTM, and we believe such statements to have a reasonable basis.

It is uncertain whether any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do, what impact they will have on the results of operations and financial condition of the Company. These forward-looking statements are based on assumptions that may not materialize, and involve certain risks and uncertainties, many of which are beyond our control, that could cause actual events or performance to differ materially from those indicated in such forward-looking statements. Factors, risks, trends, and uncertainties that could cause actual results to differ materially from those projected, anticipated, or implied in forward-looking statements include, but are not limited to potential changes in domestic or global economic conditions, demand for our products, market pressures on prices of our products, warranty claims, changes in product mix, contemplated significant capital expenditures and related financing requirements, our dependence upon a small number of customers, and other factors set forth in the Company’s most recent Annual Report on Form 10-K and Quarterly Report on Form 10-Q and in the Company’s other filings filed with the Securities and Exchange Commission (the “SEC”), including under the heading “Risk Factors”, and which are available at the SEC’s website at www.sec.gov.

TTM does not undertake any obligation to update any of these statements to reflect any new information, subsequent events or circumstances, or otherwise, except as may be required by law, even if experience or future changes make it clear that any projected results expressed in this communication or future communications to stockholders, press releases or Company statements will not be realized. In addition, the inclusion of any statement in this communication does not constitute an admission by us that the events or circumstances described in such statement are material.

Use of Non-GAAP Financial Measures

In addition to the financial statements presented in accordance with U.S. generally accepted accounting principles (“GAAP”), TTM uses certain non-GAAP financial measures, including EBITDA, Adjusted EBITDA, Non-GAAP Operating Income, Non-GAAP Net Income, Non-GAAP Operating Margin, Non-GAAP Gross Margin, Non-GAAP EPS and Adjusted Operating Cash Flow. We present non-GAAP financial information to enable investors to see TTM through the eyes of management and to provide better insight into our ongoing financial performance.

Disclaimers (cont.)

A material limitation associated with the use of the above non-GAAP financial measures is that they have no standardized measurement prescribed by GAAP and may not be comparable to similar non-GAAP financial measures used by other companies. We compensate for these limitations by providing full disclosure of each non-GAAP financial measure and reconciliation to the most directly comparable GAAP financial measure. However, the non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information prepared in accordance with GAAP.

See Appendix for reconciliations of Adjusted EBITDA and Non-GAAP Operating Income to the most comparable GAAP metric.

Data Used in This Presentation

Due to rounding, numbers presented throughout this and other documents may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Third Party Information

The information contained herein does not purport to be all inclusive. This presentation has been prepared by the Company and includes information from other sources believed by the Company to be reliable. No representation or warranty, express or implied, is made as to the fairness, accuracy or completeness of any of the opinions and conclusions set forth herein based on such information. This presentation may contain descriptions or summaries of certain documents and agreements, but such descriptions or summaries are qualified in their entirety by reference to the actual documents or agreements. Unless otherwise indicated, the information contained herein speaks only as of the date hereof and is subject to change, completion or amendment without notice.

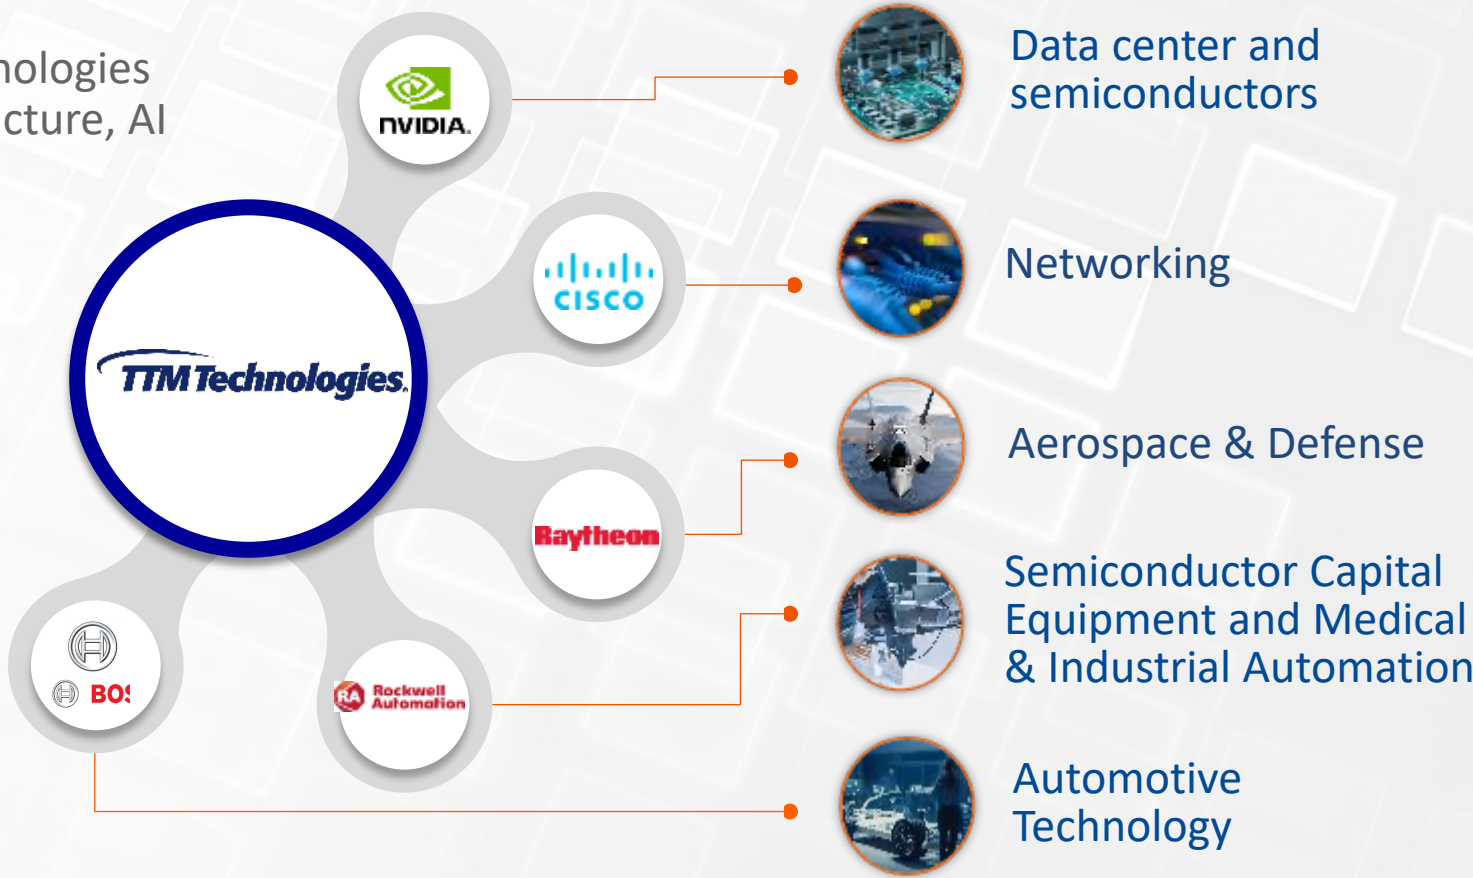

Leading Technology Solutions provider of Mission Systems, PCBs and Specialty Components

Technology-enabled end markets and customers

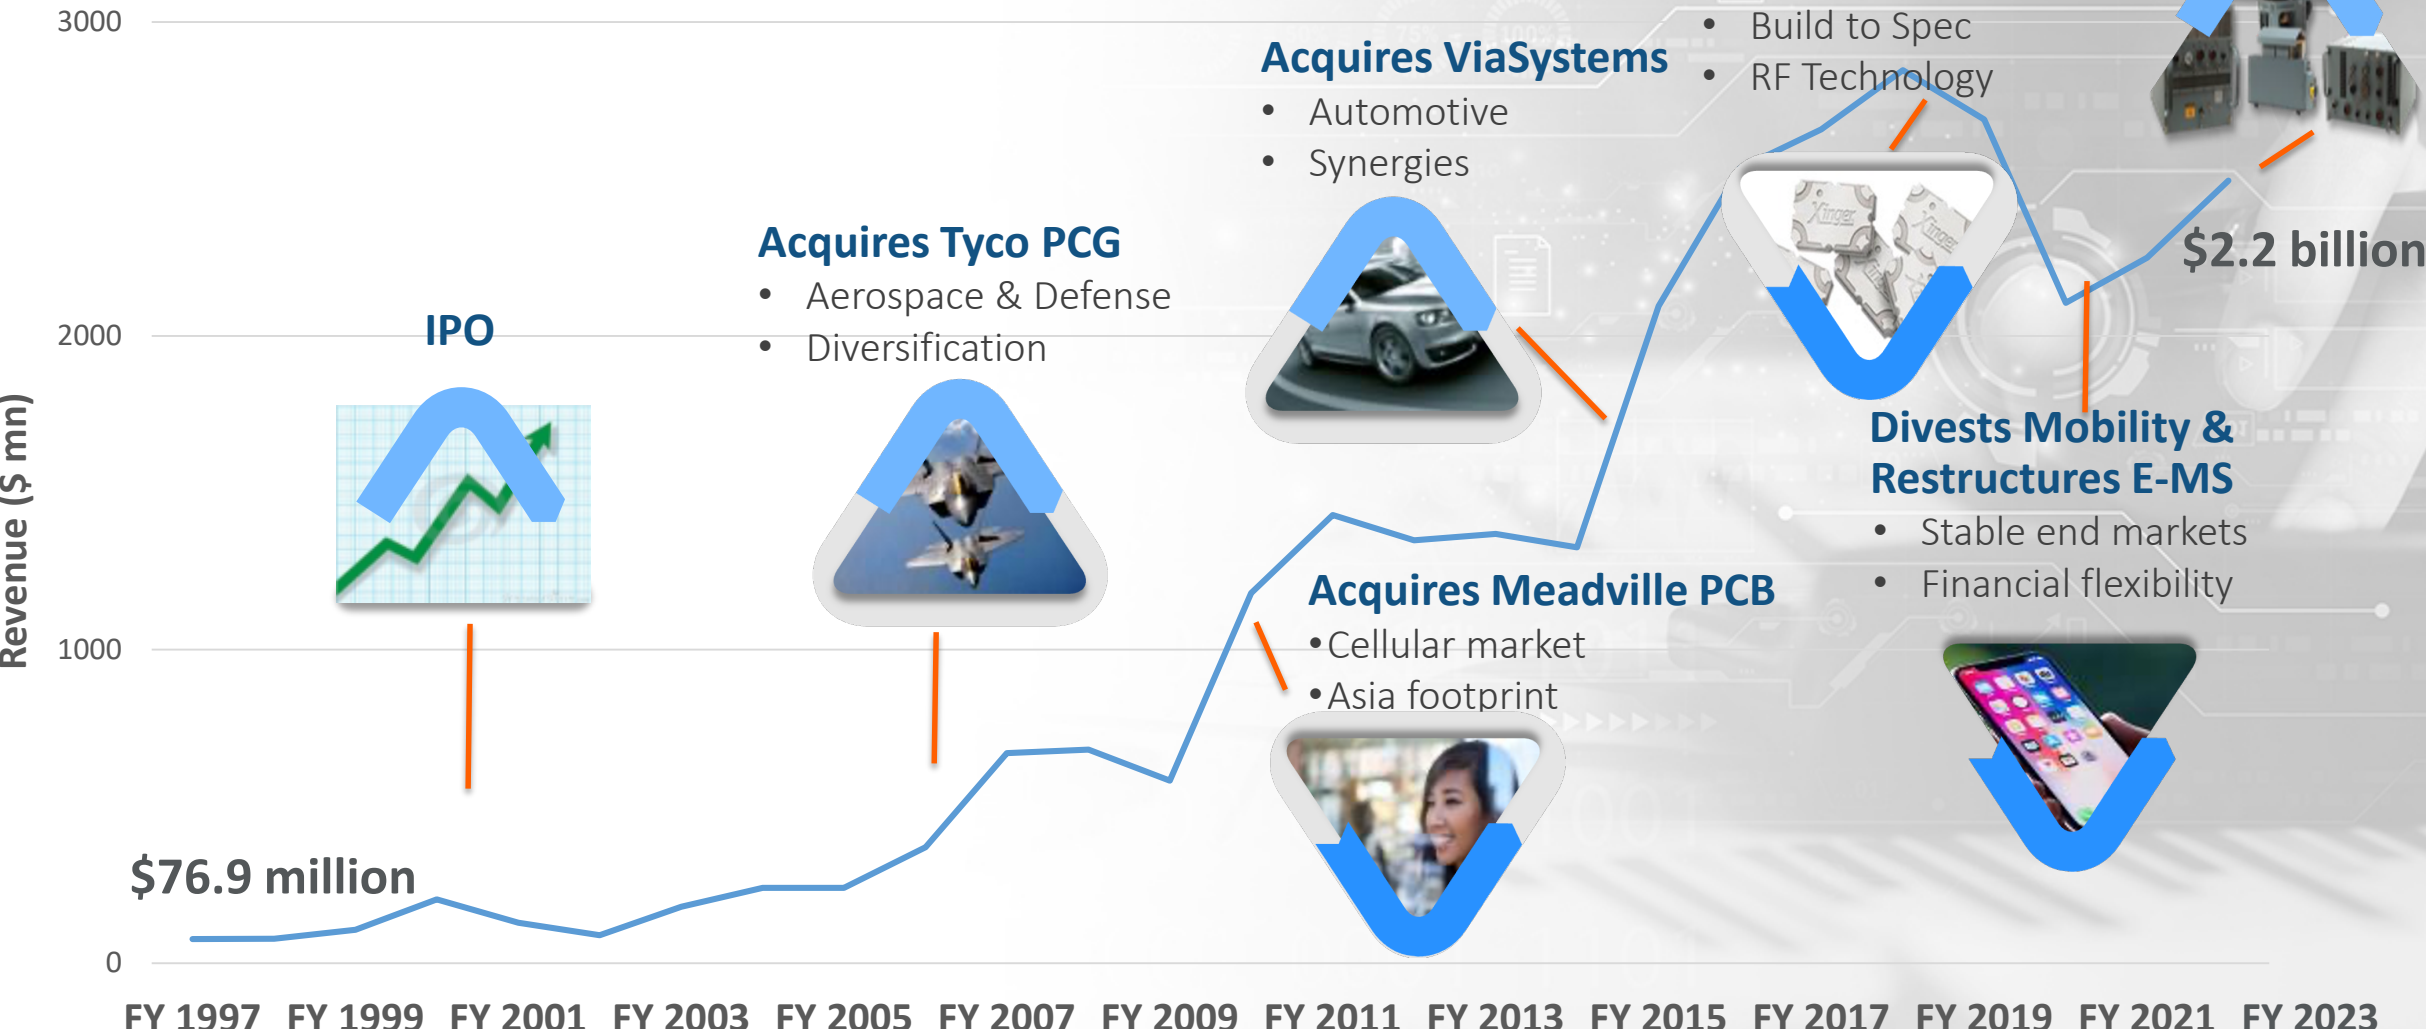

Critical supplier to today's fastest growing technologies such as advanced defense radar, cloud infrastructure, AI data centers, automobile technology, industrial automation and internet of things

Significant global footprint with 24 facilities and 15,775 employees

Scale:
\$2.2 billion FY23 revenue

History of TTM

Acquires Telephonics

- Aerospace and Defense
- Mission systems

Acquires Anaren

- Build to Spec
- RF Technology

Acquires ViaSystems

- Automotive
- Synergies

Acquires Tyco PCG

- Aerospace & Defense
- Diversification

Acquires Meadville PCB

- Cellular market
- Asia footprint

Divests Mobility & Restructures E-MS

- Stable end markets
- Financial flexibility

TTM Continues to Transform the Business by Implementing Its Core Strategy of Differentiation

Differentiating TTM

Transformation to better business model continues

The result

- Highly valued partner and satisfied customers
- Strong and diversified portfolio with leading technical capabilities across all markets
- Greater stability, less cyclicity and improved visibility

Investing in engineering/technology and new regions

- Engineered solutions with technical capabilities (Anaren, Telephonics, and Syracuse) in stable and growing A&D end-market
- Footprint diversification (Penang, Malaysia)

Reducing exposure to cyclical consumer-oriented / commodity business

- Mobility divestiture
- E-M Solutions restructuring
- Sold Shanghai Back Plane Assembly facility

Strategic Focus

Diversification

- Diverse end markets
- Near term – Aerospace and Defense, Data Center Computing

Differentiation

- Engineering depth
- Early engagement
- Technology breadth
- Global footprint

Discipline

- Operational execution
- Earnings power
- Cash flow generation

End Market Growth Drivers and Outlook

	FY 2023 Net Sales	End Market Growth Drivers	2022 – 2027 CAGR (3 rd Party)	2024 TTM View
Aerospace & Defense 	45%	Increased Use of AESA Radar & Increased Military Equipment Builds	3-5%	Above

Aerospace & Defense Business At A Glance

Q4 23

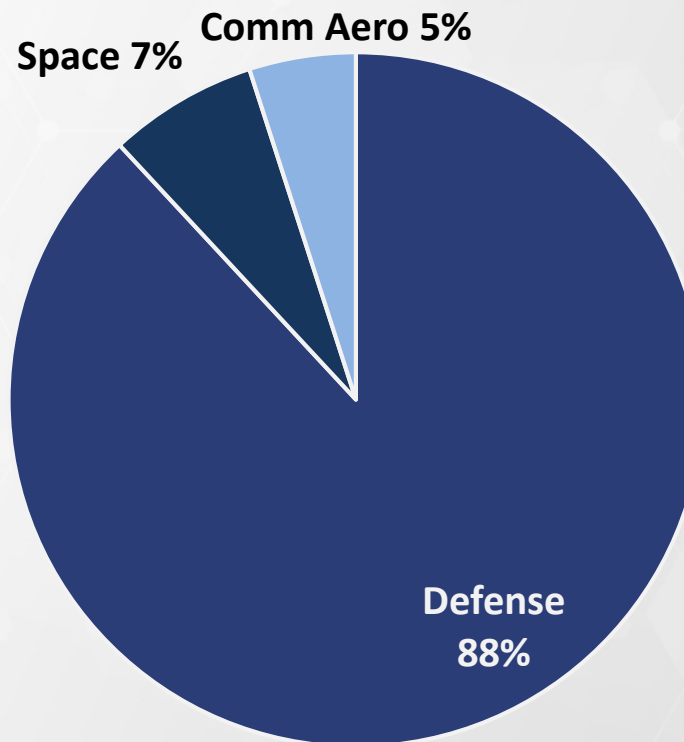

Bookings \$245 million

Program backlog \$1.33 billion

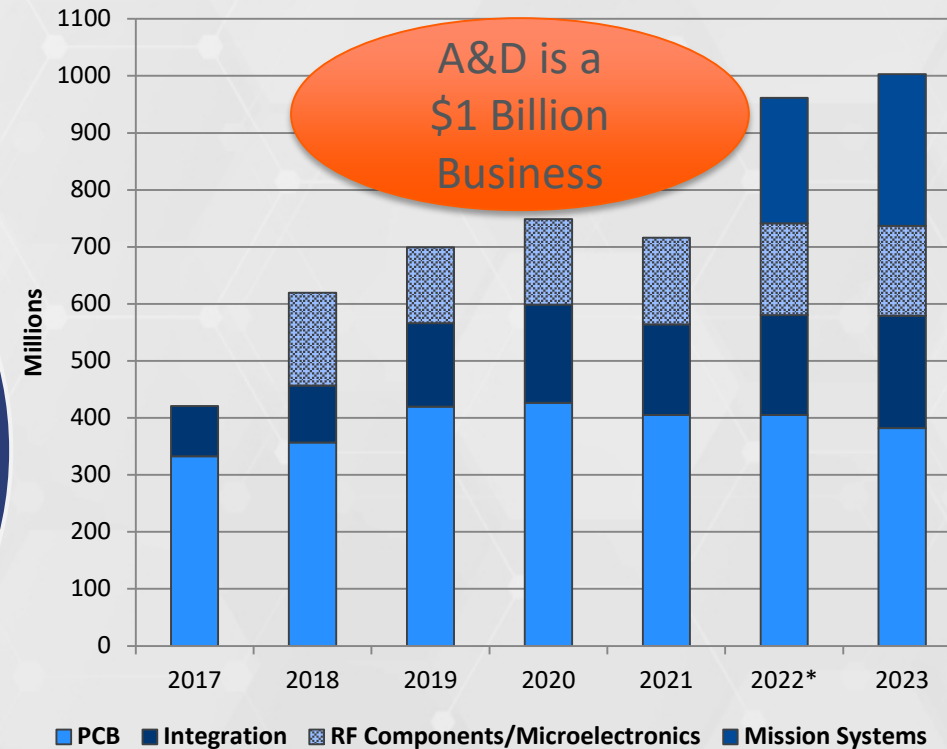

Key defense programs alignment

Engineered products focus

Q4 23 Market Mix

Estimated A&D Revenues by Product

PCB less than 50% of A&D revenues

*pro-forma Telephonics

Program Portfolio Positioned for Growth

- **Top Strategic OEM Customers**
 - Raytheon, Lockheed Martin & Sikorsky, Northrop Grumman, L3Harris, Boeing
- **Top Direct Government Customers**
 - US Army, US Navy, US Air Force, International Ministries of Defence
- **Future Expansion**
 - Commercial Space OEMs

We support over 200 programs, including key franchises for every major OEM

Commercial Sector Megatrends

Internet-Of-Everything (IOE) & Increasing electronic content across AMI&I Markets

IOE

Automotive
- EV, ADAS, V2X

Diagnostic Equipment & Robotics
Wearables & Implantables

Factory Automation

Hyperscalers

Cloud

ML

AI

LLM's

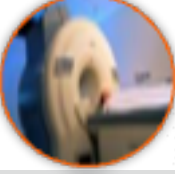

Generative AI

Explosive growth of data fuels requirements for increasing signal speeds & bandwidth plus rapid advancements in data management & computing

Notes:
V2X = Vehicle to Everything
ML = Machine Learning
LLM = Large Language Models

End Market Growth Drivers and Outlook

		FY 2023 Net Sales	End Market Growth Drivers	2022 – 2027 CAGR (3 rd Party)	2024 TTM View
Aerospace & Defense		45%	Increased Use of AESA Radar & Increased Military Equipment Builds	3-5%	Above
Automotive		16%	Electric & Autonomous Vehicle & Safety/ADAS/Infotainment	3-5%	Below
Data Center Computing		14%	Semiconductor Development & Data Center expansion	4-7%	Above
Medical & Industrial Instrumentation		17%	Patient Monitoring & Automated Test Equipment and Robotics	2-4%	In Line
Networking		8%	5G Infrastructure Spend & Networking Infrastructure	2-5%	Below

Commercial

Designed and Engineered Products plus Advanced Technologies are 47% of Revenues¹

¹ Q4 of 2023

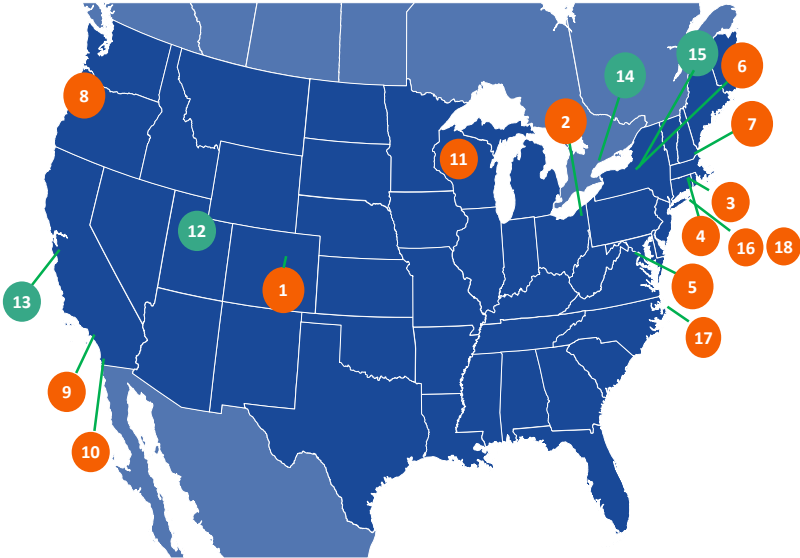

Successful Customer Engagement Model...

Engaging customers from concept to production to improve market share

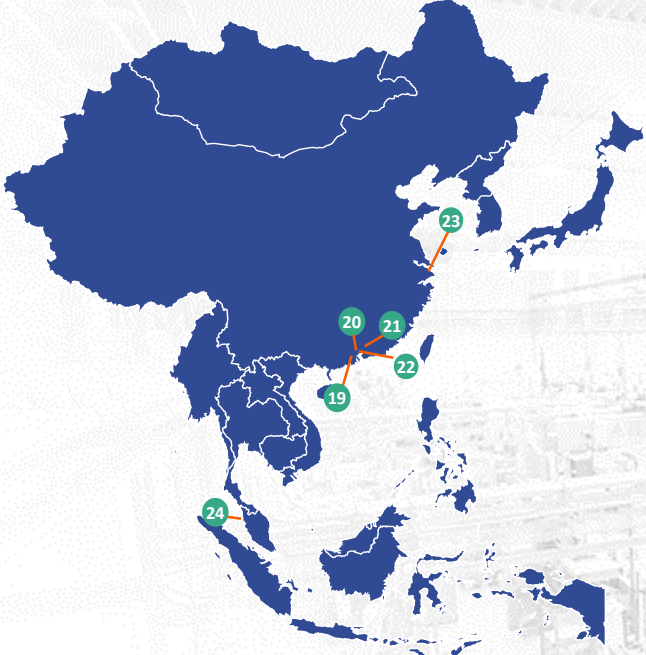

Global Footprint

(Effective on January 2, 2024)

North America Operations (Commercial Plants)

- 1 Denver – DEN
- 2 North Jackson – NJ
- 3 Stafford – ST
- 4 Stafford Springs – SS
- 5 Sterling – STE
- 6 Syracuse – SYR
- 7 Salem – SAL
- 8 Forest Grove – FG
- 9 Santa Ana – SA
- 10 San Diego – SD
- 11 Chippewa Falls – CF
- 12 Logan – LG
- 13 San Jose – SJ
- 14 Toronto – TOR
- 15 Syracuse – SYR-W¹
- 16 Huntington – HTN
- 17 Elizabeth City – EC
- 18 Farmingdale – FRM

Asia Operations – All Commercial

- 19 Zhongshan – ZS
- 20 Guangzhou – GZ
- 21 Huiyang – HY
- 22 Dongguan – DMC
- 23 Suzhou – SUZ¹
- 24 Penang – PNG

¹RF&S Facilities

Penang, Malaysia Start-up Capabilities

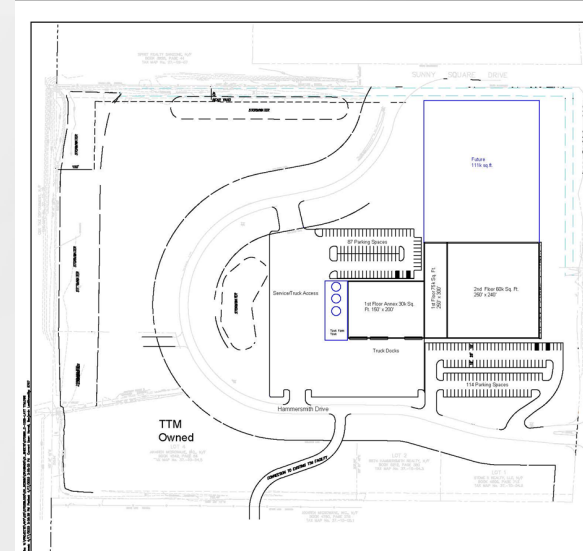

- **Factory Specifications**
 - 800,000 square feet
 - Factory automation with Industry 4.0
 - Productivity 150% > China factories
 - Will employ 1,000 people
 - Most sustainable factory in TTM
 - Largest rooftop solar installation in Malaysia
- **25% expansion capacity available to service customer demand**

Customer qualifications in Q1 2024 and ramp rest of year

Proposed New Facility in Syracuse

- **What:** Ultra-HDI (High Density Interconnect) PCB manufacturing facility
- **Where:** Adjacent to our existing SYR-A&D location
- **Why:** To address rapidly increasing U.S. Defense demand for capability and capacity in the United States
- **How:** Investment of \$100m+ to build a facility in excess of 160,000 sq. ft.
- **When:** Groundbreaking for proposed facility anticipated first half of 2024, start-up/low-rate production expected approximately 18 months after ground breaking

Strategic Focus

Diversification

- Diverse end markets
- Near term – Aerospace and Defense, Data Center Computing

Differentiation

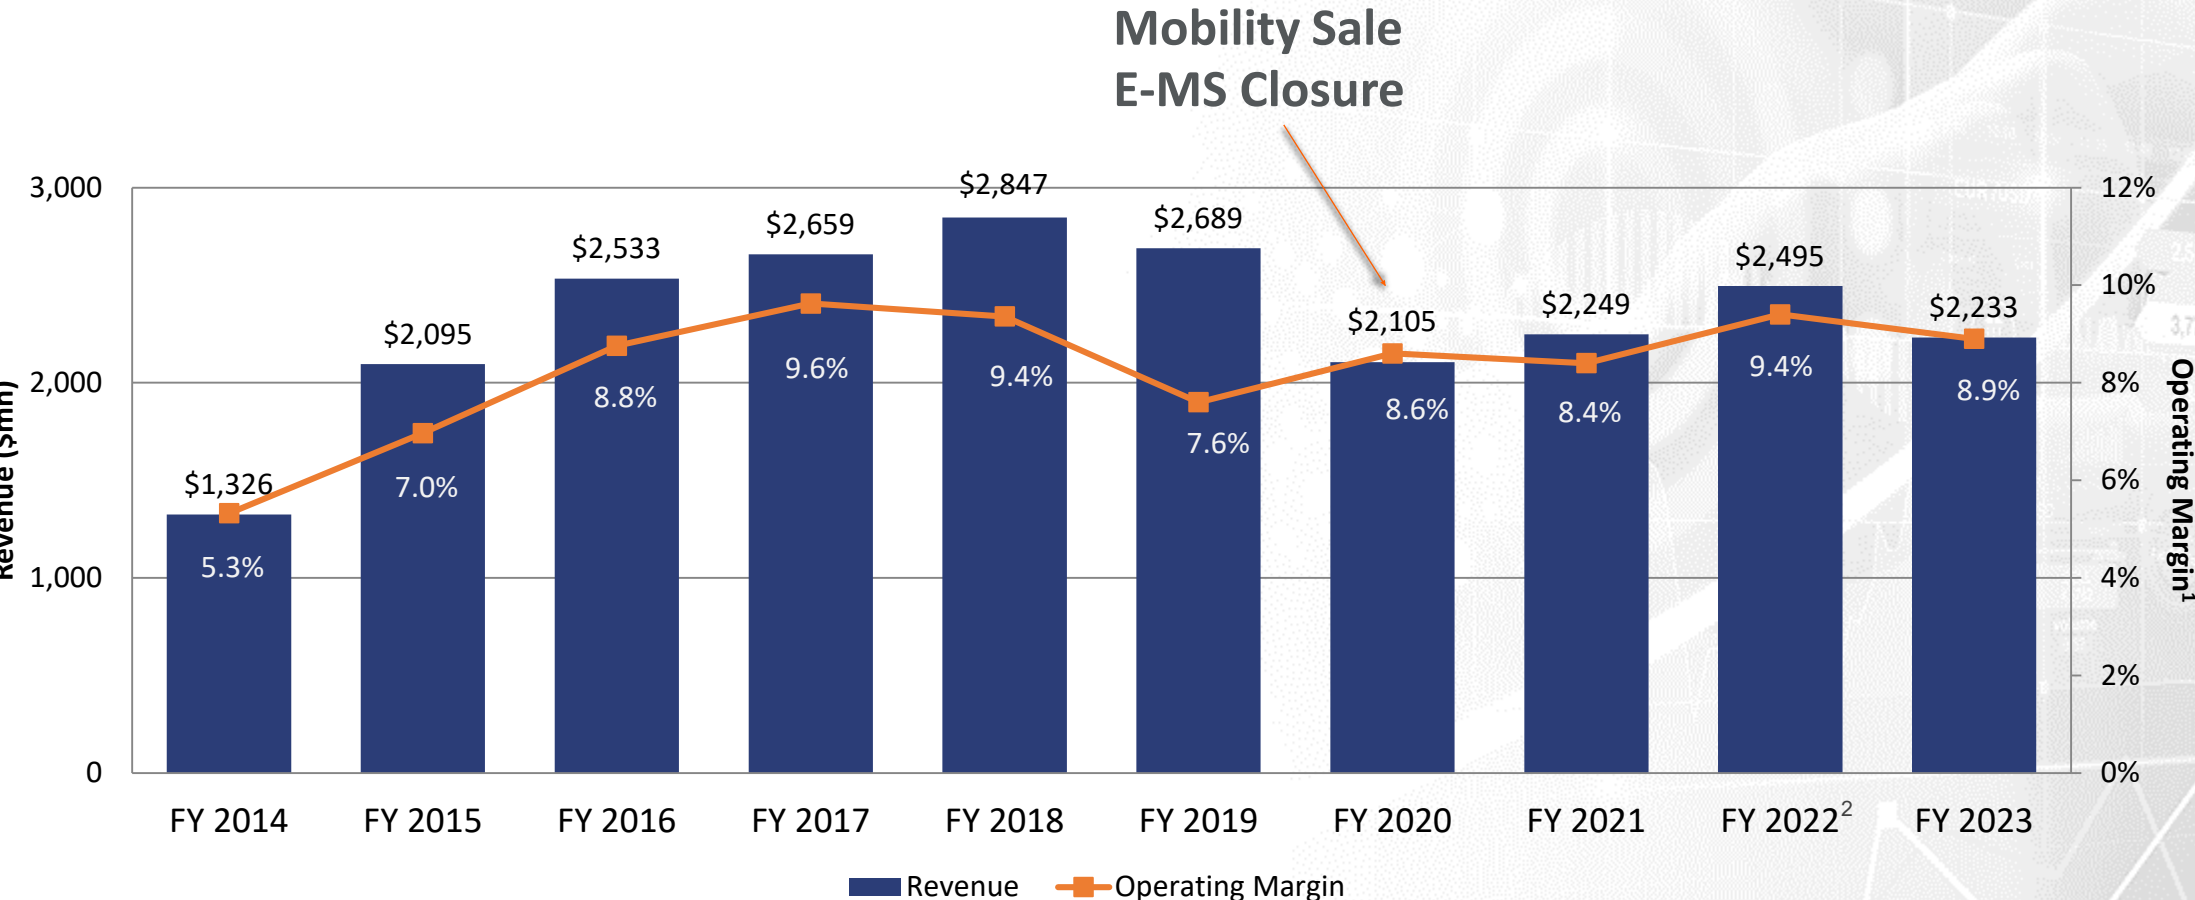

- Engineering depth
- Early engagement
- Technology breadth
- Global footprint

Discipline

- Operational execution
- Earnings power
- Cash flow generation

Historical TTM Reported Annual Revenue and Operating Margins

¹Operating margin is reported non-GAAP. See Appendix for reconciliation

²Includes approximately six months of Telephonics which closed 6/27/22

Financial Performance and Targets

Metric	FY 2023	Long Term Target
Revenue growth	-11%	4-6%
Non-GAAP Operating Margin ¹	8.9%	11-13%
Adjusted EBITDA Margin ¹	13.4%	15-17%
Capex	7.2% of Revenue	4-5% of Revenue
Cash Flow from Operations	8.3% of Revenue	> 10% of Revenue
Return on Invested Capital	8.6%	13-15%

¹See Appendix for reconciliation

Operating Margin Improvement Bridge

Bridge Also Requires Recovery in Commercial Revenue

Strong Cash Flow Enables Flexible Capital Allocation Options

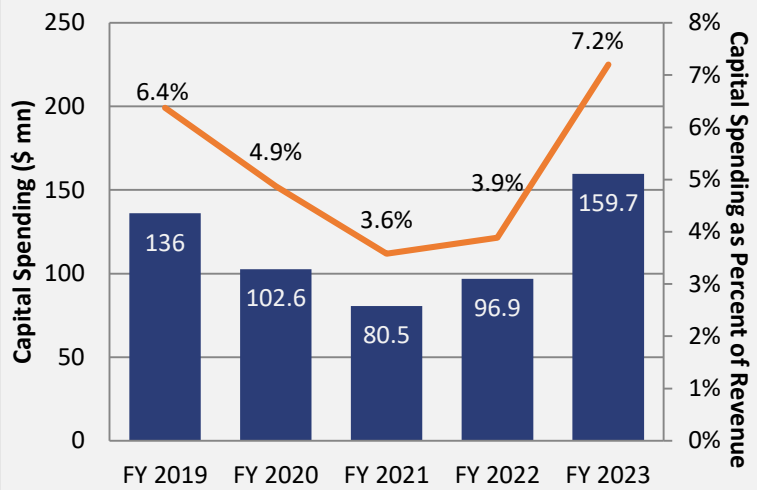

Cash Flows from Ops

Free Cash Flow

Capex

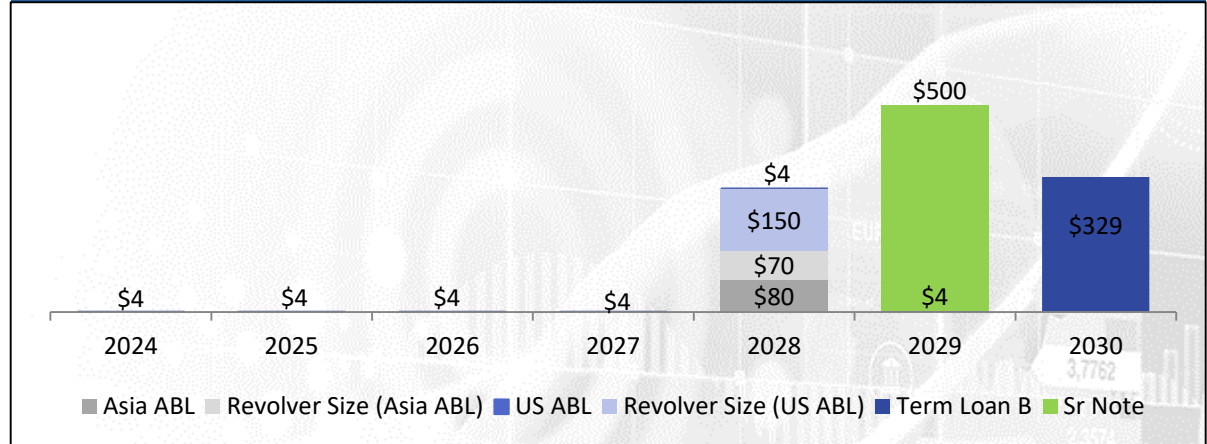

Penang investment temporarily increasing capital spending in 2023

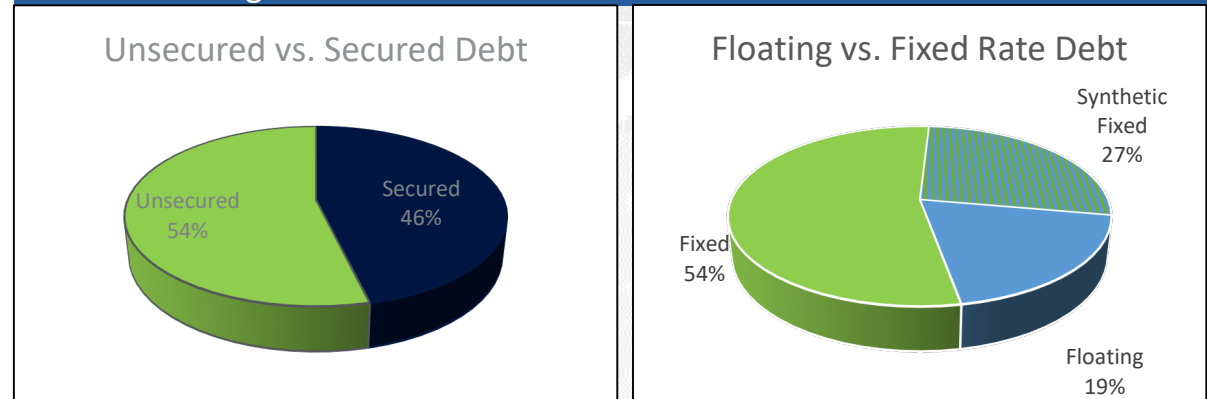

Capital Structure and Liquidity

- Net debt leverage ((debt-cash)/EBITDA) is 1.6x at the low end of our target range of 1.5 – 2.0x and very healthy
- No debt maturing until 2028
- Current covenants cap our leverage at 4.25x
- Initiated swap in April 2023 for \$250M, effectively fixing ~70% of Term Loan B rate at 6.25%, protecting us from further rate increases; current borrowing rate is ~8%
- Liquidity (cash plus ABLs) is solid at \$626M

Debt Maturity Profile Pro-forma refinancing

Debt Borrowing Mix

Capital Structure in Excellent Shape

Capital Allocation Strategy

- **Invest in differentiation**

- New product and technology development
- Leading edge equipment
- Strategic acquisitions to strengthen product/technology portfolio

- **Repay debt until <2x net debt/EBITDA**

- \$50 million repayment of Term Loan B in January 2023
- Net debt/EBITDA was 1.6x at the end of 2023
- Refinanced Term Loan and US and Asia ABLs in Q2 2023

- **Return of capital to shareholders**

- Completed entire \$100 million stock buyback in FY 2022
- Authorized new \$100 million buyback on May 3rd 2023
 - Purchased 1.8 million shares for \$24.4 million at \$13.54 in 2023
- Future returns dependent on timing of M&A

Going Forward

- Continued focus on markets with growth characteristics and favorable mega-trends
- Ongoing investment in differentiation:
 - RF and Advanced technology capabilities
 - A&D engineered products
 - Manufacturing footprint
- Solid Financial Management
 - Plan in place to improve operating margins
 - Strong focus on cash flow generation
 - Capital allocation balances investing in business with return of capital to shareholders
