TTM Technologies, Inc. to Exhibit at PCB West in Santa Clara, CA

COSTA MESA, Calif., Aug. 28, 2017 (GLOBE NEWSWIRE) -- TTM Technologies, Inc. (NASDAQ:TTMI) will be exhibiting at PCB West 2017 at Booth 307, on September 13th. This annual event also has a conference that runs for three days from September 12th-14th. As an industry leader, TTM Technologies has been actively exhibiting at the PCB West and participating in its technical conferences since 2003. This year, two of TTM's technical experts will be speaking at the conference and sharing TTM's views on PCB Design in Rigid and Flexible Circuits.

“At the annual PCB West event, we have been able to connect with industry peers and interact with customers face-to-face which helps us build better understanding of the challenges our customers encounter while designing their products,” said Kent Hardwick, TTM's Senior Vice President of Sales. “As a technology leader, TTM continues to provide time sensitive and innovative solutions to their customers that enable them to keep up with today's fast changing electronics industry.”

About PCB West

PCB West encompasses the entire PCB industry and brings together engineers, designers, fabricators, assemblers and managers to take advantage of unique opportunities to improve skills, increase knowledge and network with experts. www.pcbwest.com

About TTM

TTM Technologies, Inc. is a leading global printed circuit board (PCB) manufacturer, focusing on quick-turn and volume production of technologically advanced PCBs, backplane assemblies and electro-mechanical solutions. TTM stands for time-to-market, representing how TTM's time-critical, one-stop manufacturing services enable customers to shorten the time required to develop new products and bring them to market.
