Eve Air Mobility Secures Funding from Private Export Funding Corporation/Export-Import Bank of the United States

The aggregate guaranteed loan amount can reach up to \$15 million, with funds used to pay for engineering services and eVTOL parts from a U.S. Supplier.

MELBOURNE, Fla., Jan. 15, 2026 /PRNewswire/ -- Eve Air Mobility ("Eve") (NYSE: **EVE**; **EVEXW**) has advanced its mission to revolutionize urban air mobility, revealing an agreement with the Export-Import Bank of the United States (EXIM Bank) and the Private Export Funding Corporation (PEFCO) to provide financing for expenses with U.S. suppliers working on Eve's electric Vehicle Take-Off and Landing (eVTOL) program. The company will use the funding to procure batteries and engineering services from its U.S. supplier, BAE Systems, during Eve's eVTOL aircraft development and test phase.

MOBILITY REIMAGINED

This agreement with the EXIM Bank is an essential step in the continuous de-risking of Eve's program, bringing new funding sources with the support of the U.S. Export Credit Agency (EXIM Bank) to finance expenses with critical U.S. suppliers. The financing provides additional support during the development and testing phases, ensuring greater participation by U.S. suppliers in Eve's eVTOL program.

"We are incredibly proud to partner with EXIM Bank to offer this innovative financing solution," said Eduardo Couto, chief financial officer at Eve Air Mobility. "This agreement underscores EXIM Bank's confidence in Eve's business model and the strong future of urban air mobility. It will empower Eve's U.S. supply chain by providing critical financial flexibility, accelerating the adoption of sustainable air travel globally."

BAE Systems will supply its battery systems for integration into Eve's eVTOL aircraft, ensuring Eve's aircraft are equipped with high-performance, reliable, and safe energy storage solutions, crucial for efficient and sustainable urban air mobility operations.

Including BAE Systems' batteries as part of the overall Eve eVTOL sale and export package streamlines the procurement process for international buyers, offering a comprehensive, integrated solution.

Eve Air Mobility continues to strengthen its position as a leader in the United States' Urban Air Mobility (UAM) ecosystem. With a growing network of suppliers, customers, and strategic partners, Eve is not only delivering innovative solutions but also shaping the future of urban air mobility. As one of the leading OEMs in the sector, Eve's collaborative approach ensures that its technology and services are deeply embedded in the U.S. market, creating a strong foundation for sustainable growth and operational readiness across the entire UAM value chain.

About Eve Air Mobility

Eve Air Mobility is dedicated to accelerating the Urban Air Mobility (UAM) ecosystem. Benefiting from a start-up mindset, backed by [Embraer's](#) 56-year history of aerospace expertise, and with a singular focus, Eve is taking a holistic approach to progressing the UAM ecosystem, with an advanced eVTOL project, comprehensive global services and support network and a unique air traffic management solution. Eve is listed on the New York Stock Exchange (EVEX; EVEXW) and the São Paulo Stock Exchange (EVEB31), where its shares of common stock, public warrants and Brazilian Depository Receipts are traded.
