- Strong Liquidity of \$848 million, up 34% YOY**
- Debt Refinancing positions Company for future growth**
- Phil Martens named President and CEO**

ATLANTA, Feb. 8, 2011 /PRNewswire/ -- Novelis Inc., the world's leading producer of aluminum rolled products, today reported a net loss attributable to its common shareholder of \$46 million for the third quarter of fiscal 2011 compared to net income of \$68 million for the same period in fiscal 2010. The net loss for the quarter was primarily due to one-time charges of \$74 million associated with the refinancing of the Company's debt as well as \$20 million for restructuring activities mainly related to the closure of its Bridgnorth and Aratu facilities.

Shipments of aluminum rolled products totaled 715 kilotonnes for the third quarter of fiscal 2011, an increase of ten percent compared to shipments of 649 kilotonnes in the third quarter of the previous year. This increase in shipments was driven by strong end-market conditions across all product segments globally, particularly can, automotive and electronics.

Net sales for the third quarter of fiscal 2011 were \$2.6 billion, an increase of 21 percent compared to the \$2.1 billion reported in the same period a year ago, the result of higher shipments, conversion premiums and aluminum prices.

Adjusted EBITDA for the quarter was \$238 million, representing a 20 percent increase from adjusted EBITDA of \$199 million posted for the same period a year ago. These operating results were primarily due to strong global market demand, price and mix and effective cost management.

"These are solid results, especially considering that this is our seasonally low quarter," said Phil Martens, Novelis President and Chief Executive Officer. "This quarter was particularly significant for us for a number of reasons. We completed a major refinancing and recapitalization of the business, which positions the Company to significantly invest in the

business over the next few years. We also closed one of our smelters in Brazil and made headway on the closure of Bridgnorth, another underperforming asset. Both of these closures will increase operating efficiency, reduce costs and help us focus more closely on our core rolling operations. And lastly, we made progress on our debottlenecking initiatives and Brazil mill expansion."

The Company reported a loss before income taxes of \$2 million for the third quarter of fiscal 2011, a decrease when compared to the \$129 million income before taxes reported in the same period of fiscal 2010. Excluding restructuring charges, unrealized gains on derivatives, loss on extinguishment of debt, and loss on sale of assets, adjusted pre-tax income increased 23 percent year-over-year.

Liquidity was \$848 million at the end of the third quarter of 2011, an increase of 34 percent from \$634 million in liquidity reported for the same period in the previous year and a decrease of \$335 million compared to the second quarter of fiscal 2011 primarily driven by the Company's recapitalization in the quarter.

"With the complete refinancing of our debt structure, this quarter represented a significant milestone for Novelis," said Steve Fisher, Chief Financial Officer for Novelis. "Our new capital structure gives us the ability to appropriately manage our business today while providing the flexibility to invest in strategic growth opportunities to capture the future growth we see in our industry."

For the third quarter of fiscal 2011, free cash flow was \$45 million, compared to \$124 million reported in the third quarter of the previous year.

"Our free cash flow in this quarter was impacted by our refinancing activities, higher capital spending and higher working capital as a result of higher LME prices," said Fisher. "Going forward, we expect strong free cash flow generation which will enable us to meaningfully invest in the business."

Business Outlook

The Company sees continued strong growth across all regions and product segments globally in the short and long-term.

Over the next five years, the Company expects the aluminum flat rolled products' market to grow at approximately 34 percent. To capture this growth, in addition to debottlenecking initiatives and Brazil plant expansion, the Company is committed to significantly investing in the business globally over the next few years.

Non-GAAP Financial Measures

This press release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We think that these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies.

These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides filed as Exhibit 99.2 to our Current Report on Form 8-K furnished to the SEC concurrent with the issuance of this press release. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Forward-Looking Statements

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking statements within the meaning of securities laws. Forward-looking statements include statements preceded by, followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of such statements in this news release include our plans to increase production capacity, our growth plans, our expectations with respect to the flat rolled products market and our view of our ability to generate free cash flow this fiscal year. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and that Novelis' actual results could differ materially from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise. Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: changes in the prices and availability of aluminum (or premiums associated with such prices) or other

materials and raw materials we use; the capacity and effectiveness of our metal hedging activities, including our internal used beverage cans (UBCs) and smelter hedges; relationships with, and financial and operating conditions of, our customers, suppliers and other stakeholders; fluctuations in the supply of, and prices for, energy in the areas in which we maintain production facilities; our ability to access financing for future capital requirements; changes in the relative values of various currencies and the effectiveness of our currency hedging activities; factors affecting our operations, such as litigation, environmental remediation and clean-up costs, labor relations and negotiations, breakdown of equipment and other events; the impact of restructuring efforts in the future; economic, regulatory and political factors within the countries in which we operate or sell our products, including changes in duties or tariffs; competition from other aluminum rolled products producers as well as from substitute materials such as steel, glass, plastic and composite materials; changes in general economic conditions including deterioration in the global economy, particularly sectors in which our customers operate; changes in the fair value of derivative instruments and our ability to purchase derivative instruments; cyclical demand and pricing within the principal markets for our products as well as seasonality in certain of our customers' industries; changes in government regulations, particularly those affecting taxes, derivative instruments, environmental, health or safety compliance; changes in interest rates that have the effect of increasing the amounts we pay under our principal credit agreement and other financing agreements; the effect of taxes and changes in tax rates; the impact of timing differences between the pricing periods for the purchase and sale of aluminum; our ability to increase production capacity and our indebtedness and our ability to generate cash. The above list of factors is not exhaustive. Other important risk factors included under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2010 and our Quarterly Report on Form 10-Q for the period ended December 31, 2010 are specifically incorporated by reference into this news release.
