 Embarking on a transformational organic growth period to further strengthen our industry leading position; Announced today an approximately \$2.5 billion greenfield, fully integrated rolling and recycling plant in the U.S. to support strong demand for aluminum beverage packaging and automotive solutions and advance a more circular economy

Novelis Inc., a leading sustainable aluminum solutions provider and the world leader in aluminum rolling and recycling, today reported results for the fourth quarter and full fiscal year 2022.

For the fourth quarter, net income attributable to its common shareholder increased 22% versus the prior year to \$215 million, while net income from continuing operations increased 21% to \$217 million. Excluding special items in both years, fourth quarter fiscal year 2022 net income from continuing operations increased 10% versus the prior year to \$189 million.

For the full year, fiscal 2022 net income attributable to its common shareholder increased more than four-fold versus the prior year to \$954 million, while net income from continuing operations more than doubled to \$1.0 billion. Excluding special items in both years, fiscal year 2022 net income from continuing operations increased 66% to \$934 million, driven mainly by higher Adjusted EBITDA.

"We achieved record full year results and crossed notable financial milestones for Adjusted EBITDA and net income, reflecting a continued focus on meeting strong customer demand for infinitely recyclable aluminum products while striving to advance our business and industry toward a more circular economy," said Steve Fisher, President and Chief Executive Officer, Novelis, Inc. "Our market-leading position, strong underlying market demand, and history of success adding new capacity position us to embark on our next phase of strategic expansion to support our customers for the long term, and deliver on our purpose of shaping a sustainable world together by reducing carbon emissions across the supply chain."

Fourth Quarter Fiscal 2022 Results

Net sales increased 34% to \$4.8 billion for the fourth quarter of fiscal year 2022, compared to \$3.6 billion in the prior year period, primarily driven by higher average aluminum prices and local market premiums. Total flat rolled product shipments were a record 987 kilotonnes, a slight increase over prior year shipments of 983 kilotonnes, driven by strong beverage can and aerospace shipments offsetting lower automotive shipments impacted by semiconductor shortages in the automotive industry.

Adjusted EBITDA of \$431 million in the fourth quarter of fiscal year 2022 included approximately \$55 million of higher operational costs, primarily in North America, as a result of production and logistics challenges that are not expected to continue in fiscal 2023. The current year quarter also included a \$15 million non-recurring regulatory provision. Other higher inflationary cost pressures were largely offset by favorable product pricing.

Full-Year Fiscal 2022 Results

Net sales increased 40% to \$17.1 billion in fiscal year 2022, compared to \$12.3 billion in fiscal year 2021, primarily driven by higher average aluminum prices and record shipments in every product end market. Total flat rolled product shipments increased 7% over the prior

year to 3,858 kilotonnes, driven by strong demand for sustainable, flat rolled aluminum sheet and recovery from COVID-related production shutdowns early in the prior fiscal year.

Adjusted EBITDA increased 19% to a record \$2.0 billion in fiscal year 2022, compared to \$1.7 billion in fiscal year 2021. The increase in Adjusted EBITDA is primarily due to higher volume, favorable product mix despite constrained automotive shipments impacted by the semiconductor chip shortage this year, and a strong demand environment benefiting pricing, partially offset by high inflation and operational disruptions. Adjusted EBITDA per ton shipped increased to \$530 in fiscal year 2022, compared to \$474 in fiscal 2021.

Adjusted free cash flow from continuing operations was \$649 million in fiscal 2022, after absorbing more than \$400 million of increased working capital pressure from rising aluminum prices, net of metal price lag, compared to the prior year free cash flow of \$740 million. The company's net leverage ratio (net debt / TTM Adjusted EBITDA) improved to 2.2x at the end of fiscal year 2022, compared to 2.9x at the end of fiscal year 2021.

"Our record operational and financial performance in fiscal 2022 drove a reduction in net leverage to well within our targeted range and provides a solid footing to begin our next wave of transformational investments," said Devinder Ahuja, Executive Vice President and Chief Financial Officer, Novelis, Inc. "We are well positioned to navigate current inflationary headwinds and global supply chain challenges, while keeping our focus on expanding capacity to support growing long term customer demand across end markets."

We have an attractive opportunity to expand rolling and recycling capacity as a critical partner to customers' growing demand for sustainable aluminum products. We are considering a number of potential capital investment opportunities over the next five years, spanning regions and end markets. This includes our plans, announced in a separate press release today, to commence construction of an approximately \$2.5 billion, fully integrated greenfield rolling mill in Bay Minette, Alabama, U.S., to support strong demand for sustainable, beverage can and automotive aluminum sheet. Other previously announced U.S. projects include Oswego hot mill debottlenecking and the construction of a state-of-the art, automotive recycling center in Guthrie, while in Asia, we are expanding recycling and casting in Ulsan, South Korea, and integrating our automotive business in Asia with the addition of a new cold mill and automotive recycling center in China.

Novelis ended fiscal year 2022 with strong total liquidity of \$2.6 billion as of March 31, 2022.

First Quarter Fiscal Year 2023 Outlook

Market demand remains broadly favorable and non-recurring items from fourth quarter fiscal year 2022 are behind us. We expect first quarter fiscal year 2023 Adjusted EBITDA per ton to return to levels above \$500 per ton, even as we navigate continuing impacts from semi-conductor shortages, customer impacts from COVID lockdowns in China, global supply chain challenges and elevated energy costs.

Non-GAAP Financial Measures

This news release and the presentation slides for the earnings call contain non-GAAP financial measures as defined by SEC rules. We believe these measures are helpful to investors in measuring our financial performance and liquidity and comparing our performance to our peers. However, our non-GAAP financial measures may not be comparable to similarly titled non-GAAP financial measures used by other companies. These non-GAAP financial measures have limitations as an analytical tool and should not be considered in isolation or as a substitute for GAAP financial measures. To the extent we discuss any non-GAAP financial measures on the earnings call, a reconciliation of each measure to the most directly comparable GAAP measure will be available in the presentation slides, which can be found at novelis.com/investors. In addition, the Form 8-K includes a more detailed description of each of these non-GAAP financial measures, together with a discussion of the usefulness and purpose of such measures.

Attached to this news release are tables showing the Condensed Consolidated Statements of Operations, Condensed Consolidated Balance Sheets, Condensed Consolidated Statements of Cash Flows, Reconciliation of Adjusted EBITDA, Adjusted Free Cash Flow, Total Liquidity, Net Debt, Income from continuing operations excluding Special Items, and Segment Information.

Forward-Looking Statements

Statements made in this news release which describe Novelis' intentions, expectations, beliefs or predictions may be forward-looking within the meaning of securities laws. Forward-looking statements include statements preceded by, followed by, or including the words "believes," "expects," "anticipates," "plans," "estimates," "projects," "forecasts," or similar expressions. Examples of forward-looking statements in this news release are statements about our expectations for first quarter of fiscal year 2023 Adjusted EBITDA per ton to return to levels above \$500 per ton and our ability to navigate current inflationary headwinds and global supply chain challenges. Novelis cautions that, by their nature, forward-looking statements involve risk and uncertainty and Novelis' actual results could differ materially

from those expressed or implied in such statements. We do not intend, and we disclaim any obligation, to update any forward-looking statements, whether as a result of new information, future events or otherwise. Factors that could cause actual results or outcomes to differ from the results expressed or implied by forward-looking statements include, among other things: changes in the prices and availability of aluminum (or premiums associated with such prices) or other materials and raw materials we use; inflationary pressures impacting the price of labor, freight, coatings and alloys; the capacity and effectiveness of our hedging activities; relationships with, and financial and operating conditions of, our customers, suppliers and other stakeholders; fluctuations in the supply of, and prices for, energy in the areas in which we maintain production facilities; our ability to access financing including in connection with potential acquisitions and investments; continued risks stemming from the acquisition of Aleris Corporation, including uncertainties inherent in the acquisition method of accounting; disruption to our global aluminum production and supply chain as a result of COVID-19 or geopolitical factors, such as Russia's recent invasion of Ukraine; changes in the relative values of various currencies and the effectiveness of our currency hedging activities; factors affecting our operations, such as litigation, environmental remediation and clean-up costs, breakdown of equipment and other events; economic, regulatory and political factors within the countries in which we operate or sell our products, including changes in duties or tariffs; risks related to cybersecurity and data breaches; our potential inability to protect our intellectual property and the confidentiality of our know-how, trade secrets, technology, and other proprietary information; competition from other aluminum rolled products producers as well as from substitute materials such as steel, glass, plastic and composite materials; downturns in consumer demand for our products or changes in consumer preferences as it relates to our products; the impact of the global semiconductor shortage on automotive production and demand for automotive aluminum sheet; changes in general economic conditions including deterioration in the global economy; the risks of pandemics or other public health emergencies, including the continued spread and impact of, and the governmental and third party response to, the ongoing COVID-19 outbreak; the impact of climate change or the legal, regulatory, or market response to climate change; changes in government regulations, particularly those affecting taxes, derivative instruments, environmental, health or safety compliance; risks that production levels and margins of our recent capital expenditures do not grow in line with our current expectations and that we may not realize returns commensurate with our investments; changes in interest rates that have the effect of increasing the amounts we pay under our credit facilities and other financing agreements; and our ability to generate cash. The above list of factors is not exhaustive. Other important risk factors are included under the caption "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended March 31, 2022.
