

# Mobivity 2nd Quarter Revenue Grew 90% to a Record \$2.1 Million, Conference Call to Discuss Results Scheduled for August 16, 2016

## SmartReceipt(R) Transactions Soared Over 103% to More Than 81 Million in the Month of June 2016

PHOENIX, AZ -- (Marketwired) -- 08/15/16 -- Mobivity Holdings Corp. (OTCQB: MFON), the award-winning, mobile marketing and customer engagement platform, announced today financial results for the second quarter ended June 30, 2016 ("Q2 2016").

#### 2<sup>nd</sup> Quarter and Year-to-Date Highlights:

- Q2 2016 revenue grew 90% year-over-year, and 12% sequentially to a record \$2.1 million.
- Year-to-date gross margin increased to 75% through June 30, 2016 as compared to 74% for the same period in 2015.
- Non-GAAP Adjusted Net Loss, a non-GAAP metric (see note on non-GAAP Measurements) was \$(427,000) for Q2 2016 compared to \$(802,000) in Q2 2015.
- SmartReceipt<sup>®</sup> transactions in June 2016 rose to more than 81 million, a 103% increase as compared to June 2015.
- Subscribers to Mobivity powered mobile marketing campaigns grew to 5.5 million unique consumers in June 2016, an increase of more than 136% compared to June 2015.
- Mobivity powered more than 35.4 million mobile marketing messages in June 2016, an increase of more than 266% over June 2015.
- As of June 30, 2016, Mobivity's patented solutions were deployed in more than 30,000 retail locations and have generated more than 1 billion targeted marketing impressions.

Commenting on the report, Dennis Becker, Mobivity CEO, stated, "We are very pleased with the continued momentum reflected in this recent quarter, however we believe we're still in the early stages of our upside potential. We've worked hard to prepare the technology for scale and it's important to note that much of our growth to more than 30,000 active locations in the U.S., and abroad, has just transpired over the last eight months of this year. In this short period of time, we've accumulated strong case study evidence, from millions of consumer transactions across thousands of locations, suggesting that our technology can deliver on the vision of targeted, personalized marketing to the offline marketplace -- and when that's achieved, significant financial results are produced. The expansion and scale of our technology has gone viral and is creating increased demand for our services. As an example, Baskin-Robbins has recently expanded beyond our SmartReceipt<sup>®</sup> offering with the launch of a mobile program utilizing our SmartSMS solution. With our technology and services being trusted by some of the world's most recognized brands, we're looking forward to capitalizing on our recent momentum and working endlessly to accelerate growth."

#### 2<sup>nd</sup> Quarter 2016 Financial Results:

Revenue for Q2 2016 was \$2.1 million, representing an increase of 90% from \$1.1 million in Q2 2015. The increase in revenue was primarily attributable to significant continuing growth in SMS and SmartReceipt<sup>®</sup> revenues contracted with large enterprise customers.

Gross margin was 73% in Q2 2016, as compared to 75% for Q2 2015. Gross margin for the six months ended June 30, 2016 was 75% compared to 74% for the same period in 2015. The decrease in gross margin for the second quarter is principally due to higher cloud-based software licensing fees, short code maintenance expenses, personnel-related costs and other expenses as they relate to the increase in revenues.

Operating expenses (excluding goodwill and intangible asset impairment charges) for Q2 2016 were \$2.4 million compared to \$2.1 million in Q2 2015. The year over year increase in

operating expenses is primarily due to higher personnel costs as a result of hiring and staffing to support growth, as well as the LiveLenz acquisition.

Operating loss for the quarter was \$(964,000) compared to \$(1.3 million) in the corresponding period in the prior year. Comprehensive loss for Q2 2016 was \$(978,000), or \$(0.03) per diluted share, compared to \$(1.3 million), or \$(0.05) per diluted share in Q2 2015.

Non-GAAP Adjusted Net Loss, a non-GAAP metric (see note on non-GAAP Measurements) was \$(427,000) for Q2 2016 compared to \$(802,000) in Q2 2015.

#### Non-GAAP Measurements

This press release includes certain financial information which constitutes "non-GAAP financial measures" as defined by the SEC. A full reconciliation of the non-GAAP measures to GAAP can be found in the tables of today's press release. Non-GAAP adjusted net income is supplemental to results presented under accounting principles generally accepted in the United States of America ("GAAP") and may not be comparable to similarly titled measures presented by other companies. These non-GAAP measures are used by management to facilitate period-to-period comparisons and analysis of Mobivity's operating performance and liquidity. Management believes these non-GAAP measures are useful to investors in trending, analyzing and benchmarking the performance and value of Mobivity's business. These non-GAAP measures should be considered in addition to, but not as a substitute for, other similar measures reported in accordance with GAAP.
