"We are pleased to report the results from this quarter, particularly the meaningful increase in our NAV," said Kevin M. Rendino, Chairman and Chief Executive Officer of 180. "This is the first time in over seven years that we have increased our NAV in three consecutive quarters. Our new structure allowed us to reduce our ongoing run-rate of expenses by over 40%; we now have an easier path to grow NAV. This quarter, nearly 90% of the growth of our NAV came from our publicly traded holdings. In fact, on average, our publicly traded holdings increased by an average of 44% in the quarter. We remain focused on increasing our liquid assets as a percentage of our net assets. At quarter end, our cash and liquid securities totaled \$30 million, equating to 36% of our quarter ending net assets. Relative to our quarter end stock price of \$1.74, our liquid assets represented over half of our market capitalization. We are proud to share these results and believe we are well positioned to continue to build value for shareholders."

Mr. Rendino and Daniel Wolfe, President, Chief Financial Officer and Portfolio Manager, will host a conference call tomorrow, Thursday, November 2, 2017, at 9am Eastern Time, to discuss the results from the third quarter of 2017. The call can be accessed by phone at (641) 715-0632 passcode 415049 or via the web at join.freeconferencecall.com/daniel8166.
