About Capstone Energy+

For nearly four decades, Capstone Energy+ has designed, developed, and delivered proven behind-the-meter, on-site energy solutions that help businesses operate with certainty in an increasingly constrained power environment. Our evolution from "Green" to "Plus" reflects who we are today, delivering clean, innovative energy solutions that go beyond electricity.

Capstone Energy+: *On Site. On Demand. Always On.*

With more than 10,600 units shipped across 88 countries through our global distributor network, Capstone provides highly reliable, low-maintenance, fuel-flexible power systems engineered for mission-critical operations. Built on our core 30kW, 65kW, and 200kW microturbine platforms, our scalable multi-megawatt solutions are designed for rapid deployment, continuous operation, and simplified maintenance.

Capstone Energy+ serves critical industries including data centers, hospitals, agriculture, and industrial facilities where uptime and energy certainty are essential. Beyond power generation, our solutions support the circular economy by converting waste streams into usable fuel and capturing waste heat to produce valuable thermal energy with a lower carbon footprint.

To support evolving customer needs, Capstone also offers flexible Energy as a Service solutions, including power purchase or energy service agreements (PPAs/ESAs), leasing, rentals, and long-term service agreements designed to reduce upfront costs, accelerate deployment, and provide life-cycle cost predictability.

Capstone's modular, plug-and-play architecture enables customers to scale quickly, reduce integration risk, and adapt to growing energy demands with resilient, always-available power solutions.
