

get to know FreedomEdge[®] Syringe Driver

Part of the Freedom Integrated Syringe Infusion System

Easy to use & learn

No controls - just load, close and go!

Safe constant pressure

Highly accurate constant pressure system for safe drug delivery. Maintains pressure of 13.5 psi.

DynEQ[™] (Dynamic Equilibrium)

If the pressure in your sites increases, the system will immediately respond by automatically slowing down.

Portable

No batteries or electricity needed. Comes with a travel pouch to promote patient independence.

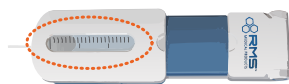

Quality assured

Made in the USA with the highest level of quality control for defect-free products. No maintenance needed.

Fits 20 & 30ml syringes

Easy to handle and purge of air. Can be filled from 1ml to 30ml.

Progress window

Easy to check infusion progress.

Silent operation

Convenient for patients - no unnecessary alarms & noise.

Ideal for all users

Maximum simplicity for all users - small hands, limited dexterity and limited strength.

NOTE: Use ONLY RMS Freedom System accessories with the FreedomEdge[®] Syringe Driver. Use of any other accessory may cause over delivery of fluids, unknown flow rates or additional site complications such as pain, swelling and redness.
