Stratasys Offers Complete Printing Packages for Dimension 3D Printers

Packages include everything needed to start building parts

MINNEAPOLIS--(BUSINESS WIRE)-- (Nasdaq: SSYS) [Stratasys](#) has announced it will offer bundled, complete 3D printing packages for its Dimension line of printers.

By including everything needed to start building parts, the Dimension 3D Print Packs give buyers the assurance there will be no surprises. (Photo: Stratasys Inc.)

The [Dimension 3D Print Pack](#) includes the 3D printer and everything needed to print parts, including startup supplies and a

support-removal system. Monthly lease packages are available in the US at \$560 for the [Dimension](#) Elite 3D Printer and \$610 for the Dimension SST 1200es 3D Printer. Leasing is not available outside the US.

Print Pack purchase prices are \$31,900 for the Dimension Elite and \$34,900 for the Dimension SST 1200es.

“The Dimension 3D Print Packs offer a complete solution to begin building thermoplastic parts,” says Stratasys Product Manager Mary Stanley. “Customers can purchase a system with the assurance that there will be no surprises or hidden costs.”

The Dimension SST 1200es 3D Printer builds parts as large as 10 x 10 x 10 inches, while the Dimension Elite prints finely detailed models up to 8 x 8 x 12 inches. In addition to the printer, the packages include:

- SCA-1200 Support Removal Tank
- 1 Cartridge Ivory Modeling Material
- 1 Cartridge Soluble Support Material
- 1 Case of either Ecoworks or WaterWorks cleaning agent
- 6 Modeling Bases

The Dimension 3D Print Packs are available through a global network of Stratasys resellers.

Dimension, a brand of 3D printers by Stratasys, offers computer-aided-design (CAD) users a low-cost, networked alternative for building functional 3D models from the desktop. The 3D printer builds models layer-by-layer using ABS plastic, one of the most widely used thermoplastics in today's injection-molded products. 3D printing allows users to evaluate design concepts and test models for form, fit and function. Stratasys Inc., Minneapolis, is a maker of additive manufacturing machines for prototyping and producing plastic parts. The company markets under the brands uPrint and Dimension 3D Printers and Fortus Production 3D Printers. The company also operates RedEye On Demand, a digital-manufacturing service for prototypes and production parts. Stratasys manufactures 3D printers for Hewlett Packard, which it sells under the brand Designjet3D. In 2011 Stratasys acquired 3D printer maker Solidscape Inc. According to Wohlers Report 2011, Stratasys had a 41-percent market share in 2010, and has been the unit market leader for the ninth consecutive year. Stratasys patented and owns the Fused Deposition Modeling (FDM®) process. The process creates functional prototypes and manufactured goods directly from any 3D CAD program, using high-performance industrial thermoplastics. The company holds more than 285 granted or pending additive manufacturing patents globally. Stratasys products are used in the aerospace, defense, automotive, medical, business and industrial equipment, education, architecture, and consumer-product industries. Online at: www.Stratasys.com

FDM, Dimension, Fortus, uPrint and Stratasys are registered trademarks of Stratasys Inc. Print Pack, Fused Deposition Modeling is a trademark of Stratasys Inc.
