Mammoth Energy Services, Inc. Prices Initial Public Offering of Common Stock

OKLAHOMA CITY, Oct. 13, 2016 (GLOBE NEWSWIRE) -- Mammoth Energy Services, Inc. ("Mammoth Energy") today announced that it has priced the initial public offering of 7,750,000 shares of its common stock at a public offering price of \$15.00 per share, of which 7,500,000 shares will be sold by Mammoth Energy and 250,000 shares will be sold by certain selling stockholders named in the registration statement relating to this offering. The underwriters have a 30-day option to purchase up to an additional 1,162,500 shares of common stock at the same price per share, all of which would be sold by the selling stockholders.

The common stock will commence trading on The NASDAQ Global Select Market on October 14, 2016 under the ticker symbol "TUSK."

Net proceeds to Mammoth Energy from the sale of 7,500,000 shares of common stock in this offering are estimated to be \$103.2 million, after deducting underwriting discounts and commissions and estimated offering expenses. Mammoth Energy intends to use the net proceeds from this offering to repay in full the outstanding borrowings under its revolving credit facility. The remaining net proceeds will be used for other general corporate purposes, which may include the acquisition of additional equipment and complementary businesses that enhance its existing service offerings, broaden its service offerings or expand its customer relationships. Mammoth Energy will not receive any of the proceeds from the sale of the shares by the selling stockholders.

The offering is expected to close on or about October 19, 2016, subject to satisfaction of closing conditions.
