SKECHERS Achieves New Quarterly Sales Record in First Quarter 2018

MANHATTAN BEACH, Calif.--(BUSINESS WIRE)-- SKECHERS USA, Inc. (NYSE:SKX), a global footwear leader, today announced financial results for the first quarter ended March 31, 2018.

First Quarter Highlights

- Record sales of \$1.250 billion, an increase of 16.5 percent
- Earnings from operations of \$148.8 million, a 19.6 percent increase
- Net earnings of \$117.7 million, a 25.2 percent increase, and diluted earnings per share of \$0.75
- International wholesale sales increased 17.9 percent; total international wholesale and retail sales combined represented 54.0 percent of total sales
- Domestic wholesale sales increased 8.5 percent
- Company-owned global retail sales increased 26.4 percent, with a comparable same store sales increase of 9.5 percent worldwide

“What a way to start 2018,” began Robert Greenberg, Skechers chief executive officer. “We truly felt 2017 was a banner year, but yet again we surpassed our expectations and hit a new quarterly sales record. With our men’s, women’s and kids’ product growing year-over-year and resonating with consumers globally, we believe our moment is now. We are experiencing the continued success of our men’s Skechers Sport, women’s sandals and men’s and women’s On the Go collections. In addition, with the global focus on the trend-right Skechers D’lites, we’re seeing this product turn into a must-have item by accounts and the press, resulting in new opportunities. From a marketing perspective, we have a new commercial with chart-topping singer Camila Cabello in our D’lites, legendary football great Tony Romo in our men’s Relaxed Fit slip on shoes, and more than a dozen other commercials, including many featuring our kids’ footwear. Our targeted marketing on air, in print, and digitally continues to raise awareness of our vast product offering and drive sales around the world. We’re looking forward to the remainder of our Spring deliveries, and sharing our results as we move through the rest of 2018.”

“We achieved yet another record sales quarter and continued to see significant growth across all our business segments including comp store sales increases of 9.5 percent worldwide,” stated David Weinberg, chief operating officer of Skechers. “During the first quarter, our North American Distribution Center experienced a record month for shipment volume, a testament to the strength in our wholesale and retail businesses in the United States and Canada. Further, our European Distribution Center experienced a record quarter for shipment volume, an indication of the strength of our operations in that region. Our international subsidiary and joint venture businesses are driving our growth with a combined quarterly increase of 25.7 percent, and there are now 2,197 Company-owned or third-party Skechers stores outside the United States. Now at 54.0 percent of our total business, we continue to see international as our greatest growth opportunity.”

First Quarter 2018 Financial Results

(\$ in millions, except per share data)

	For the three-months ended		Change

<i>Operating Margin</i>	11.9	%	11.6	%		
Net Earnings	117.7		94.0		23.7	25.2%
Diluted Earnings per Share	\$ 0.75		\$ 0.60		\$ 0.15	25.0%

Sales grew 16.5 percent as a result of a 17.9 percent increase in the Company's **international wholesale** business, an 8.5 percent increase in the Company's **domestic wholesale** business, and a 26.4 percent increase in its Company-owned global **retail** business. **Comparable same store sales** in Company-owned stores worldwide increased 9.5 percent, including 7.0 percent in the United States and 17.6 percent internationally, as compared to the first quarter of 2017.

Gross margins increased due to strength in the Company's international subsidiary and Company-owned international retail businesses.

SG&A expenses increased 23.4 percent. This increase was due to an additional \$72.9 million in **general and administrative expenses**, including \$37.4 million to support international growth in the Company's joint venture and subsidiary businesses, and \$18.3 million associated with operating 73 additional Company-owned Skechers stores, of which 15 opened in the first quarter. **Selling expenses** increased by \$10.6 million primarily due to higher international advertising expenses.

Earnings from operations increased \$24.4 million, or 19.6 percent.

Net earnings were \$117.7 million and **diluted earnings per share** were \$0.75. In the first quarter, the Company's income tax rate was 9.6 percent, reflecting certain discrete tax benefits primarily associated with a refinement in understanding of the various provisions of the Tax Cuts & Jobs Act ("TCJA"). The benefit of these discrete tax items to the Company's diluted earnings per share was approximately \$0.07 cents per share.

Balance Sheet

At quarter-end, **cash and cash equivalents** were \$700.1 million, a decrease of \$36.4 million, or 4.9 percent, from December 31, 2017, and an increase of \$92.3 million, or 15.2 percent, over March 31, 2017.

Total **inventory**, including inventory in transit, was \$800.3 million, a \$72.7 million decrease over December 31, 2017, and a \$214.5 million increase over March 31, 2017.

Working capital was \$1.6 billion at March 31, 2018, a \$100 million increase over December 31, 2017, and a \$300 million increase over March 31, 2017.

"Our global growth strategy continues to yield positive results," said John Vandemore, chief financial officer of Skechers. "We continue to invest in our global capabilities and remain poised to capitalize on consumer trends. We also continue to execute our capital allocation philosophy as evidenced by our on-going investment in our direct-to-consumer offerings and our share repurchases in the quarter."

Share Repurchase

During the three months ended March 31, 2018, the Company repurchased approximately 76,000 shares of its Class A common stock at a cost of \$3.0 million under its existing share repurchase program. At March 31, 2018, approximately \$147.0 million remained available under the Company's share repurchase program.

Outlook

For the second quarter of 2018, the Company believes it will achieve sales in the range of \$1.120 billion to \$1.145 billion, and diluted earnings per share of \$0.38 to \$0.43. The estimated quarterly sales includes an expected shift in shipments from the second quarter to the back half of the year for several key international distributors and domestic accounts. Based on current expectations, the Company continues to anticipate that its 2018 annual tax rate will be in the range of 12 percent to 17 percent.

This announcement contains forward-looking statements that are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These forward-looking statements include, without limitation, Skechers' future domestic and international growth, financial results and operations including expected net sales and earnings, its development of new products, future demand for its products, its planned domestic and international expansion, opening of new stores and additional expenditures, and advertising and marketing initiatives. Forward-looking statements can be identified by the use of forward-looking language such as "believe," "anticipate," "expect," "estimate," "intend," "plan," "project," "will be," "will continue," "will result," "could," "may," "might," or any variations of such words with similar meanings. Any such statements are subject to risks and uncertainties that could cause actual results to differ materially from those projected in forward-looking statements. Factors that might cause or contribute to such differences include international economic, political and market conditions including the challenging consumer retail markets in the United States; sustaining, managing and forecasting costs and proper inventory levels; losing any significant customers; decreased demand by industry retailers and cancellation of order commitments due to the lack of popularity of particular designs and/or categories of products; maintaining brand image and intense competition among sellers of footwear for consumers, especially in the highly competitive performance footwear market; anticipating, identifying, interpreting or forecasting changes in fashion trends, consumer demand for the products and the various market factors described above; sales levels during the spring, back-to-school and holiday selling seasons; and other factors referenced or incorporated by reference in the Company's annual report on Form 10-K for the year ended December 31, 2017. The risks included here are not exhaustive. Skechers operates in a very competitive and rapidly changing environment. New risks emerge from time to time and the companies cannot predict all such risk factors, nor can the companies assess the impact of all such risk factors on their respective businesses or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Given these risks and uncertainties, you should not place undue reliance on forward-looking statements as a prediction of actual results. Moreover, reported results should not be considered an indication of future performance.
