# **Deluxe Announces Collaboration with Codat to Embed Accounting Integrations Directly into Deluxe Payroll + HR Solutions Platform**

*This new product feature will be available for customers at no additional cost*

MINNEAPOLIS--(BUSINESS WIRE)-- Deluxe (NYSE:DLX), a Trusted Payments and Business Technology™ company, today announced a relationship with Codat, the universal API for small business data that provides connectivity to mid- and large-sized clients to build integrated products for SMBs. Through this effort, Deluxe Payroll + HR Solutions customers will now be able to reconcile their accounting data back into their accounting software automatically. The first accounting software immediately available for set-up is QuickBooks Online (QBO).

Seamless in-platform integration to a business's accounting software is not common with payroll providers today. Historically, owners of small- and medium-sized businesses using accounting software, such as QuickBooks, had to export their payroll data from their current payroll provider's platform, and then manually import it into their accounting software. Using Codat's API, Deluxe is providing a white-labeled solution, connecting a QBO account directly to the Deluxe Payroll + HR Solutions account, enabling automatic data reconciliation.

Through this relationship, business owners will connect once on the Deluxe platform and, using Codat's technology, the ongoing synchronization is managed seamlessly in the background. The automation of this manual process will save business owners time, reduce errors, and ultimately ensure payroll data accuracy.

"Since its inception, Deluxe Payroll + HR Solutions has consistently developed easier ways for time-starved small business owners to perform human resource and payroll functions," explained Michael Reed, President of Payments for Deluxe. "Our partnership with Codat elevates our Payroll + HR Solutions offerings by removing the hassle of manually entering payroll data to their accounting software. By utilizing Codat's existing infrastructure, we're able to decrease time-to-market and provide solutions to our customers sooner."

"Payroll is usually a business's largest outgoing, and one of the month's most painful finance tasks," said Pete Lord, Codat's CEO and Co-Founder. "We've experienced this firsthand as a rapidly scaling SMB. The availability of integrations was the main reason we recently decided to switch payroll providers. It's fantastic to see Codat's technology being used in exciting, innovative ways, that solve genuine daily headaches for small businesses. We look forward to working with Deluxe to make many more integrations available to customers in the near future."

Deluxe announced in June 2021, the integration of Payroll + HR Solutions with Microsoft Dynamics 365 Business Central, a comprehensive cloud-based business management

solution. In the coming months, Deluxe Payroll + HR Solutions will complete accounting software integrations into QuickBooks Desktop, Xero, and Sage Intacct, among others, bringing payroll integration and automation to more businesses. As a leading platform provider, Deluxe provides business owners with the tools they need to grow and thrive in the marketplace.
