

Deluxe Named UiPath Al25 Award Winner

Payments and data company recognized as one of the 25 most innovative UiPath customers using AI and automation

MINNEAPOLIS--(BUSINESS WIRE)-- Deluxe, a trusted Payments and Data company, today announced it has been named an <u>UiPath Al25 Award Winner</u>. The annual award program identifies the 25 most innovative UiPath customers using a combination of Al and automation as a strategic change enabler to accelerate bigger and bolder outcomes. Deluxe was recognized for its leadership at <u>UiPath FORWARD</u>, UiPath's annual gathering of global Al and automation experts.

The UiPath AI25 Awards acknowledge customers using AI and automation to supercharge productivity; transform customer and employee experiences; deliver substantial return on investment; and support corporate, environmental, social, and governance (ESG) initiatives. Customers across the globe were invited to submit applications detailing how they have used AI and automation to redefine what's possible—not just in business, but in the way we work and live. The 25 winners were selected by a panel of expert judges for effectively articulating the business drivers, implementation, and results of their UiPath use case.

Deluxe leveraged UiPath to address complex business challenges that required significant time and resources. One key use case involved automating the review of key contract terms over 900+ legal documents within a few hours, a task that would have otherwise taken a team about 3 weeks working extended hours. By partnering with UiPath for the automation platform and qBotica as an implementation partner, Deluxe saved over 800 hours of manual labor, increased time-to-value by 99%, and improved data accuracy and consistency through automation.

"Being recognized by UiPath with this award highlights our dedication to innovation that delivers tangible value," said Yogs Jayaprakasam, Chief Technology and Digital Officer at Deluxe. "Our partnership with UiPath has accelerated our use of automation and AI, improving efficiency and driving new growth opportunities. This recognition reflects our dedication to leveraging technology for outstanding results, both for Deluxe and our clients, and is a testament to the efforts of our entire team."

"We are pleased by the overwhelming quality of Al25 entries we received from customers globally. These 25 companies exemplify the transformational impact of Al and automation, having effectively demonstrated and executed new opportunities to advance innovation and improve productivity," said Bobby Patrick, Chief Marketing Officer at UiPath. "We are proud to support customers with their automation journeys as they take full advantage of UiPath's platform to deliver transformational outcomes with fast time-to-value. We look forward to continue leading unprecedented innovation with the next chapter of automation which combines robots, Al agents and humans."
