## KORE to Share Best Practices on Fleet Safety, Webinar with Field Technologies

ALPHARETTA, Ga.--(BUSINESS WIRE)-- [KORE](#), the world's largest managed wireless network services provider specializing in the Internet-of-Things (IoT) and machine-to-machine (M2M) communications, today announced that Director of Business Development, Randy Holmes, will participate in a webinar titled "The Criticality of Fleet Safety."

The webinar, moderated by Field Technologies Editor-In-Chief Sarah Nicastro, will discuss the cost of inadequate fleet safety, the key pillars of a fleet safety strategy, how technology plays a role in fleet safety, and tips for making sure drivers are engaged both on and while onboard.

At the webinar, attendees will learn how a strong safety program, coupled with the deployment of IoT devices, can substantially reduce costs and decrease insurance expenses. Holmes will provide examples of how KORE partners have improved ROI through fleet management and safety, and Nicastro will reference additional case studies. The webinar will also cover the four key best practices on deploying fleet tracking solutions: Devices, Connectivity, Platform and Cost Management.

**What:** Webinar titled "The Criticality of Fleet Safety"
