### **About the Speaker**

Alex Brisbourne is CEO of KORE. He has more than 20 years of experience in the wireless, enterprise and fixed line networking and telecom industry. In his current role, he brings a uniquely qualified perspective from the front lines of applied machine-to-machine communications and embedded wireless. He speaks regularly at business and technology conferences and is frequently sourced as an expert on device communications in trade and business-oriented media. He sits on the Advisory Board of a number of technology companies in the USA and Canada.

Ken Connor brings over 20 years of experience in electronics technology sales and business development, and is focused on expanding KORE's penetration into the Oil and Gas and Heavy Equipment verticals with both satellite and terrestrial services.

### **About KORE**

KORE provides the connectivity and services that make the Internet of Things possible. Founded in 2003, KORE is the world's largest managed network services provider specializing in Internet of Things (IoT) and Machine to Machine (M2M) markets. KORE provides the critical wireless connectivity empowering application, hardware and wireless operator partners to rapidly bring new IoT and M2M innovations to market, with millions of active on-network units in more than 180 countries. KORE delivers choice, reliability and global native coverage through multi-carrier and Tier 1 carrier cellular and satellite network services – including LTE, GSM and CDMA - as well as advanced applications to easily manage IoT connected devices. KORE [Position Logic](#) software provides seamless location-based services (LBS) for businesses. KORE's recent acquisition of Wylless makes the company one of the six largest providers of M2M/IoT services globally, inclusive of carriers.
