ATA Reports Fiscal 2012 Third Quarter Financial Results

Company to Hold Conference Call on February 22 at 8 a.m. ET

BEIJING, Feb. 21, 2012 /PRNewswire-Asia-FirstCall/ -- **ATA Inc.** ("ATA" or the "Company", Nasdaq: [ATAI](#)), a leading provider of computer-based testing and testing-related services in China, today announced preliminary unaudited financial results for its fiscal third quarter ended December 31, 2011 ("Third Quarter 2012").

Third Quarter 2012 Financial and Operating Highlights (percentage comparisons are year over year)

- Net revenues of RMB143.6 million (US\$22.8 million), up 5.7%
- Gross profit of RMB75.4 million (US\$12.0 million), up 2.9%
- Income from operations of RMB44.0 million (US\$7.0 million), up 27.0%
- Net income of RMB38.1 million (US\$6.0 million), up 22.0%
- Adjusted net income excluding share-based compensation expense and foreign currency exchange gain (non-GAAP) of RMB40.8 million (US\$6.5 million), up 26.9%
- Basic and diluted earnings per ADS for Third Quarter 2012 were RMB1.66 (US\$0.26) and RMB1.62 (US\$0.26), respectively.
- Delivered 3.1 million billable tests in Third Quarter 2012, up 4.9%
- RMB253.3 million (US\$40.2 million) in cash and no long-term debt as of December 31, 2011

Company Revises Net Revenue Guidance for Fiscal 2012 / Provides Fiscal 2012 Fourth Quarter Outlook

- For the fiscal year ending March 31, 2012 ("Fiscal Year 2012"), the Company is revising its net revenue guidance to between RMB345.0 million and RMB350.0 million, from between RMB395.0 million and RMB415.0 million, as a result of longer-than-anticipated negotiations relating to the Security Guard exams and the rescheduling of a banking exam from Fourth Quarter 2012 to First Quarter 2013.
- For Fiscal Year 2012, the Company is reiterating its net income guidance of between RMB55.0 million and RMB60.0 million.

Mr. Kevin Ma, ATA's Chairman and Chief Executive Officer, stated, "ATA continued to make progress in its operations throughout the quarter with year-over-year growth in net revenues, gross profit, and net income. During the past quarter, we delivered 3.1 million billable tests, with the total number of tests delivered year-to-date up 14.4% compared to the first nine months of fiscal 2011. The growth in the number of tests delivered is largely due to increased demand for ATA's HR Select and TOEIC. We believe that we will continue to realize certain economies of scale as more individuals in China seek to improve where they rank in the eyes of potential employers."

Operating Review

In Third Quarter 2012, ATA delivered a total of 3.1 million billable tests, an increase of approximately 4.9% from the prior-year period. The Company has a network of 2,462 authorized test centers throughout China as of December 31, 2011, which it believes is the largest test center network of any commercial testing service provider in China. ATA has delivered more than 37.8 million billable tests since it began operations in 1999.

GAAP Results

For Third Quarter 2012, ATA's total net revenues increased 5.7% to RMB143.6 million (US\$22.8 million) from RMB135.9 million in the prior-year period.

The Company's net revenues continued to grow year over year despite increased securities professional test revenue in the same quarter last year when the Securities Association of China exam was postponed from the second fiscal quarter to the third fiscal quarter. Net revenues from HR Select for Third Quarter 2012 increased 45.7% to RMB27.9 million (US\$4.4 million), and net revenues from TOEIC increased 29.9% to RMB14.3 million (US\$2.3 million).

Gross profit for Third Quarter 2012 increased 2.9% to RMB75.4 million (US\$12.0 million) from RMB73.3 million in the same period last fiscal year. Gross margin was 52.5% in Third Quarter 2012, compared to 53.9% in the prior-year period. The decline was primarily due to the fact that while the cost of delivering a test was incurred in Third Quarter 2012, the corresponding revenue will not be recognized until Fourth Quarter 2012, after the service fee had been confirmed in February 2012. If such revenue had been recognized in Third Quarter 2012, our gross margin would have been 2.2% higher than 52.5%.

Higher revenues contributed to income from operations in Third Quarter 2012 of RMB44.0 million (US\$7.0 million), an increase of 27.0% compared to operating income of RMB34.7 million in the prior-year period.

Net income for Third Quarter 2012 was RMB38.1 million (US\$6.0 million), an increase of 22.0% from the RMB31.2 million reported in the prior-year period.

For Third Quarter 2012, basic and diluted earnings per common share were RMB0.83 (US\$0.13) and RMB0.81 (US\$0.13), respectively, compared to earnings of RMB0.70 per common share in the same period last fiscal year. Basic and diluted earnings per ADS were RMB1.66 (US\$0.26) and RMB1.62 (US\$0.26), respectively, in Third Quarter 2012, compared to net income per ADS of RMB1.40 in the prior-year period.

Non-GAAP Measures

Adjusted net income for Third Quarter 2012, which excludes share-based compensation expense and foreign currency exchange gain (non-GAAP), increased 26.9% to RMB40.8 million (US\$6.5 million) from RMB32.2 million in the prior-year period. Basic and diluted earnings per common share excluding share-based compensation expense and foreign currency exchange gain (non-GAAP) for Third Quarter 2012 were RMB0.90 (US\$0.14) and RMB0.87 (US\$0.14), respectively.

Basic and diluted earnings per ADS excluding share-based compensation expense and foreign currency exchange gain (non-GAAP) for Third Quarter 2012 were RMB1.80 (US\$0.28) and RMB1.74 (US\$0.28), an increase of 25.0% and 20.8%, respectively, from RMB1.44 in the same period last fiscal year.

Please see the note about non-GAAP measures and the reconciliation table at the end of this press release.

Other Data

The number of weighted average ADSs used to calculate basic and diluted earnings per ADS for Third Quarter 2012 were 22.4 million and 22.9 million, respectively. Each ADS represents two common shares. ATA had 45.7 million common shares outstanding on December 31, 2011, and 44.4 million common shares outstanding on December 31, 2010.

Guidance for Fiscal Year 2012 and for Fourth Quarter 2012

For Fourth Quarter 2012 ending March 31, 2012, ATA expects net revenues to be between RMB54.0 million and RMB59.0 million.

For the fiscal year ending March 31, 2012 ("Fiscal Year 2012"), the Company is revising its net revenue guidance to between RMB345.0 million and RMB350.0 million from RMB395.0 million and RMB415.0 million as a result of extended negotiations surrounding provincial Security Guard exams and the rescheduling of a banking exam from Fourth Quarter 2012 to First Quarter 2013. For the fiscal year ending March 31, 2012, the Company is reiterating its net income guidance of between RMB55.0 million and RMB60.0 million.

Estimated Financial Results (unaudited) (RMB in millions)

	Estimated for the year ending		Actual for the year ended
	March 31, 2012	March 31, 2011	Percent Increase
Net Revenue	345.0 - 350.0	303.9	13.5% - 15.2%
Net Income	55.0 - 60.0	19.8	177.8% - 203.0%

	Estimated for the quarter ending		Actual for the quarter ended
	March 31, 2012	March 31, 2011	Percent Increase
Net Revenue	54.0 - 59.0	49.7	8.7% - 18.7%

Mr. Ma concluded, "ATA is lowering its net revenue guidance largely due to timing considerations. While negotiating contracts for the Security Guard exams is taking longer than initially anticipated, we continue to be in regular discussions with provincial governments and believe the additional time will allow us to attain reasonable terms for both sides. We are still very confident that we will be able to secure contracts with a number of provincial governments in China and hope to realize the benefits of these efforts in early fiscal 2013. The rescheduling of the banking exam from Fourth Quarter 2012 to First Quarter 2013 also impacts revenues from our traditional testing services business for Fiscal Year 2012, but we remain confident that our core testing business will continue to grow rapidly, particularly as we begin realizing greater contributions from HR Select and TOEIC. In addition, the cost structure that we have implemented is inherently scalable, which will allow us to provide efficient and highly reliable services in response to China's growing demand for standardized test assessment. We are flexible and well capitalized and continue to be focused on generating free cash flow and strengthening our financial position to fund the Company's organic growth."

These are ATA's current projections, which are subject to change. You are cautioned that operating results in Third Quarter 2012 are not necessarily indicative of operating results for any future periods.

Conference Call and Webcast Information (With Accompanying Presentation)

ATA will host a conference call at 8 a.m. Eastern Time on Wednesday, February 22, 2012, to discuss the results of Third Quarter 2012 and the nine months ended December 31, 2011. Cautionary Note Regarding Forward-looking Statements

This announcement contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, and as defined in the Private Securities Litigation Reform Act of 1995.

These forward-looking statements can be identified by terms such as "anticipate," "believe," "could," "estimate," "expect," "forecast," "future," "intend," "look forward to," "outlook," "plan," "should," "will," and similar terms and include, among other things, the Company's guidance relating to anticipated financial and operating results for the Fourth Quarter 2012 and Fiscal Year 2012 and statements regarding market demand and trends, the potential growth and success of the Company's businesses, Security Guard Exam and the Company's future cash flow and financial position.

The factors that could cause the Company's actual financial and operating results to differ from what the Company currently anticipates can include its ability to meet challenges associated with its rapid expansion, its ability to meet the expectations of current and future clients, its ability to deploy new test titles, its ability to win new enterprise contracts, its ability to convert its existing contracts into actual revenues, the economy of China, uncertainties with respect to the China's legal and regulatory environments, and other factors stated in the Company's filings with the U.S. Securities and Exchange Commission (the "SEC").

The financial information contained in this release should be read in conjunction with the consolidated financial statements and related notes included in the Company's annual report on Form 20-F for its fiscal year ended March 31, 2011, and other filings that ATA has made with the SEC. The filings are available on the SEC's website at www.sec.gov and at ATA's website at www.ata.net.cn. For additional information on the risk factors that could adversely affect the Company's business, financial condition, results of operations, and prospects, please see the "Risk Factors" section of the Company's Form 20-F for the fiscal year ended March 31, 2011.

The forward-looking statements in this release involve known and unknown risks and uncertainties and are based on current expectations, assumptions, estimates, and projections about ATA and the markets in which it operates. The Company undertakes no obligation to update forward-looking statements, which speak only of the Company's views as of the date of this release, to reflect subsequent events or circumstances, or to changes in its expectations, except as may be required by law. Although the Company believes that the expectations expressed in these forward-looking statements are reasonable, the Company cannot assure you that its expectations and assumptions will turn out to be correct, and investors are cautioned that actual results may differ materially from the anticipated results.

Currency Convenience Translation

The Company's financial information is stated in Renminbi ("RMB"), the currency of the People's Republic of China. The translation of RMB amounts for Third Quarter 2012 and the nine-month period ended December 31, 2011, into U.S. dollars are included solely for the convenience of readers and have been made at the rate of RMB6.2939 to US\$1.00, the noon buying rate as of December 31, 2011, in New York for cable transfers in RMB per U.S. dollar as set forth in the H.10 weekly statistical release of the Federal Reserve Board. Such translations should not be construed as representations that RMB amounts could be converted into U.S. dollars at that rate or any other rate, or to be the amounts that would have been reported under U.S. GAAP.

About Non-GAAP Financial Measures

To supplement ATA's consolidated financial information presented in accordance with U.S. generally accepted accounting principles ("GAAP"), ATA uses the following non-GAAP financial measures: net income (loss) excluding share-based compensation expense and foreign currency exchange gain or loss and basic and diluted earnings per common share and ADS excluding share-based compensation expense and foreign currency exchange gain or loss.

The presentation of these non-GAAP financial measures is not intended to be considered in isolation or as a substitute for the financial information prepared and presented in accordance with GAAP. ATA believes these non-GAAP financial measures provide meaningful supplemental information about its performance by excluding share-based compensation expense and foreign currency exchange gains or losses, which may not be indicative of its operating performance from a cash perspective.

ATA believes that both management and investors benefit from these non-GAAP financial measures in assessing its performance and when planning and forecasting future periods. These non-GAAP financial measures also facilitate management's internal comparisons to ATA's historical performance. ATA computes its non-GAAP financial measures using a consistent method from period to period. ATA believes these non-GAAP financial measures are useful to investors in allowing for greater transparency with respect to supplemental information used by management in its financial and operational decision making. A limitation of using non-GAAP net income excluding share-based compensation expense and foreign currency exchange gains or losses and basic and diluted earnings per common share and per ADS excluding share-based compensation expense and foreign currency exchange gain or loss is that share-based compensation charges and foreign currency exchange gains or losses have been, and are expected to continue to be for the foreseeable future, a significant recurring expense in ATA's business.

Management compensates for these limitations by providing specific information regarding the GAAP amounts excluded from each non-GAAP measure. The table captioned "Unaudited Reconciliations of Non-GAAP Measures to the Most Comparable GAAP Measures" shown at the end of this news release has more details on the reconciliations between GAAP financial measures that are most directly comparable to the non-GAAP financial measures used by ATA.
