FORWARD-LOOKING STATEMENTS

All statements other than statements of historical fact included in this press release are forward-looking statements that are subject to certain risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in such statements. We have based these forward-looking statements upon information available to management of Dance as of the date of this release and management's expectations and projections about certain future events. It is possible that the assumptions made by management for purposes of such statements may not materialize. Actual results may differ materially from those projected or implied in any forward-looking statements. Such statements may involve risks and uncertainties, including but not limited to those relating to our limited operating history, our ability to successfully develop product candidates, including Dance 501, the cost and uncertainty of obtaining regulatory approvals, our ability to bring product candidates, including Dance 501, to multiple markets and our ability to develop inhaled formulations of other medicines.
