November 6, 2025

Microchip Technology Announces Financial Results for Second Quarter of Fiscal Year 2026

- **Net sales of $1.140 billion, increased 6.0% sequentially and declined 2.0% from the year ago quarter. The midpoint of our guidance provided on August 7, 2025 was net sales of $1.130 billion.**
- **On a GAAP basis: gross profit of 55.9%; operating income of $88.9 million and 7.8% of net sales; net income attributable to common stockholders of $13.9 million; and EPS of $0.03 per diluted share. Our guidance provided on August 7, 2025 was for GAAP EPS loss per diluted share of $0.04 to $0.01.**
- **On a Non-GAAP basis: gross profit of 56.7%; operating income of $277.2 million and 24.3% of net sales; net income of $199.1 million; and EPS of $0.35 per diluted share. Our guidance provided on August 7, 2025 was for Non-GAAP EPS per diluted share of $0.30 to $0.36.**
- **Returned approximately $245.8 million to common stockholders in the September quarter through dividends.**
- **Quarterly dividend on common stock declared for the December quarter of 45.5 cents per share.**
- **Introduced industry's first 3nm PCIe Gen 6 switch for AI and enterprise data center applications.**

CHANDLER, Ariz., Nov. 06, 2025 (GLOBE NEWSWIRE) -- **(NASDAQ: MCHP)** - Microchip Technology Incorporated, a leading provider of smart, connected, and secure embedded control solutions, today reported results for the three months ended September 30, 2025.

Steve Sanghi, Microchip’s CEO and President commented that "Our second quarter results demonstrate continued momentum in our recovery, with net sales of $1.140 billion growing 6% sequentially and above the midpoint of our guidance. The operational improvements we have implemented are translating into meaningful financial progress despite the broader market recovery developing more gradually than anticipated. We believe our operational capabilities position us to outperform as conditions improve."

Mr. Sanghi added, "Our Total System Solutions strategy continues to drive strong customer engagement across key growth markets, with design activity spanning across our diversified portfolio. We are seeing robust momentum in data center applications where customers are re-engaging following inventory corrections, and in aerospace and defense markets where accelerating global spending is driving demand for our integrated solutions."

Eric Bjornholt, Microchip's Chief Financial Officer, said, "Our second quarter results demonstrate the strength of our operational model and the disciplined cost management embedded in our business. The combination of improved operational efficiency and careful

capital allocation is generating meaningful cash flow improvements that we expect will allow us to reduce our debt levels over the coming quarters."

Rich Simoncic, Microchip's Chief Operating Officer, said, "Our launch of the industry's first 3nm PCIe Gen 6 switch represents a significant technological milestone demonstrating our commitment to process technology leadership and innovation. This advanced solution delivers industry-leading power efficiency, security and performance for AI and enterprise data center connectivity applications, complementing our power management and timing solutions to deliver robust connectivity platforms."

Mr. Sanghi concluded, "While December is historically our seasonally weakest quarter, we are seeing encouraging business momentum with September quarter bookings growing 10% sequentially and a book-to-bill ratio of 1.06. Customer requests for expedited shipments have also increased significantly, indicating inventory normalization is progressing. However, given typical December seasonality, we expect net sales of $1.129 billion plus or minus $20 million. We remain confident in our strategic positioning as these positive leading indicators position us for stronger performance in the quarters ahead."

The following table summarizes Microchip's reported result for the three months ended September 30, 2025.

	Three Months Ended September 30, 2025[1]			
Net sales	$1,140.4			
	GAAP	**%**	**Non-GAAP[2]**	**%**
Gross profit	$637.9	55.9%	$646.2	56.7%
Operating income	$88.9	7.8%	$277.2	24.3%
Other expense	$(57.1)		$(57.2)	
Income tax (benefit) provision	$(9.9)		$20.9	
Net income	$41.7		$199.1	
Dividends on Series A Preferred Stock	$(27.8)		—	
Net income attributable to common stockholders	$13.9	1.2%	$199.1	17.5%
Diluted net income per common share	$0.03		$0.35	

(1) In millions, except per share amounts and percentages of net sales.

(2) See the "Use of Non-GAAP Financial Measures" section of this release.

Net sales for the second quarter of fiscal 2026 were $1.140 billion, down 2.0% from net sales of $1.164 billion in the prior year's second fiscal quarter.

GAAP net income attributable to common stockholders for the second quarter of fiscal 2026 was $13.9 million, or $0.03 per diluted share, down from GAAP net income attributable to common stockholders of $78.4 million, or $0.14 per diluted share, in the prior year's second fiscal quarter. For the second quarters of fiscal 2026 and fiscal 2025, GAAP results were adversely impacted by amortization of acquired intangible assets associated with our previous acquisitions.

Non-GAAP net income for the second quarter of fiscal 2026 was $199.1 million, or $0.35 per diluted share, down from non-GAAP net income of $250.2 million, or $0.46 per diluted share, in the prior year's second fiscal quarter. For the second quarters of fiscal 2026 and fiscal 2025, our non-GAAP results exclude the effect of share-based compensation, restructuring charges, cybersecurity incident expenses, expenses related to our acquisition activities (including intangible asset amortization, severance, other restructuring costs, and legal and other general and administrative expenses including legal fees and expenses for litigation

and investigations related to our Microsemi acquisition), professional services associated with certain legal matters, (gain) loss on available-for-sale investments, and dividends on our Series A Mandatory Convertible Preferred Stock. For the second quarters of fiscal 2026 and fiscal 2025, our non-GAAP income tax expense is presented based on projected cash taxes for the applicable fiscal year, excluding transition tax payments under the Tax Cuts and Jobs Act. A reconciliation of our non-GAAP and GAAP results is included in this press release.

Microchip announced today that its Board of Directors declared a quarterly cash dividend on its common stock of 45.5 cents per share, which is payable on December 9, 2025 to stockholders of record on November 24, 2025. The Microchip Board also declared a quarterly cash dividend on Microchip's 7.50% Series A Mandatory Convertible Preferred Stock of $18.750 per share (which represents $0.9375 per depositary share) which is payable on December 15, 2025 to stockholders of record on December 1, 2025.

Third Quarter Fiscal Year 2026 Outlook:

The following statements are based on current expectations. These statements are forward-looking, and actual results may differ materially.

	Microchip Consolidated Guidance		
Net Sales	$1.109 to $1.149 billion		
	GAAP[5]	Non-GAAP Adjustments[1]	Non-GAAP[1]
Gross Profit	56.2% to 58.1%	$11.1 to $12.1 million	57.2% to 59.2%
Operating Expenses[2]	47.9% to 48.5%	$174.9 to $178.9 million	32.3% to 32.7%
Operating Income	7.7% to 10.3%	$186.0 to $191.0 million	24.5% to 26.9%
Other Expense, net	$55.9 to $56.5 million	$(0.2) to $0.2 million	$55.7 to $56.7 million
Income Tax Provision	$14.6 to $24.9 million[3]	$1.1 to $7.4 million	$22.0 to $26.0 million[4]
Net income	$14.6 to $37.3 million	$178.4 to $190.1 million	$193.0 to $227.4 million
Dividends on Series A Preferred Stock	$(27.8) million	$27.8 million	—
Net (loss) income attributable to common stockholders	$(13.2) to $9.5 million	$206.2 to $217.9 million	$193.0 to $227.4 million
Diluted Common Shares Outstanding	Approximately 540.8 to 545.2 million shares	24.1 to 27.5 million shares	Approximately 568.3 to 569.3 million shares
Diluted net (loss) income per common share	$(0.02) to $0.02	$0.36 to $0.38	$0.34 to $0.40

[1] See the "Use of Non-GAAP Financial Measures" section of this release for information regarding our non-GAAP guidance.
[2] We are not able to estimate the amount of certain Special Charges and Other, net that may be incurred during the quarter ending December 31, 2025. Therefore, our estimate of GAAP operating expenses excludes certain amounts that may be recognized as Special Charges and Other, net in the quarter ending December 31, 2025.
[3] The forecast for GAAP tax expense excludes any unexpected tax events that may occur during the quarter, as these amounts cannot be forecasted.
[4] Represents the expected cash tax rate for fiscal 2026, excluding any transition tax payments associated with the Tax Cuts and Jobs Act.
[5] Our GAAP guidance excludes the impact of any potential gains or charges related to our ongoing evaluation of restructuring activities including the sale of our Fab 2 wafer fabrication facility.

Capital expenditures for the quarter ending December 31, 2025 are expected to be between $15 million and $25 million. Capital expenditures for all of fiscal 2026 are expected to be at or below $100 million. Consistent with the slow macroeconomic environment in fiscal 2025, we have paused most of our factory expansion actions and reduced our planned capital

investments through fiscal 2026. However, we are adding capital equipment to selectively expand our production capacity and add research and development equipment.

Under the GAAP revenue recognition standard, we are required to recognize revenue when control of the product changes from us to a customer or distributor. We focus our sales and marketing efforts on creating demand for our products in the end markets we serve and not on moving inventory into our distribution network. We also manage our manufacturing and supply chain operations, including our distributor relationships, towards the goal of having our products available at the time and location the end customer desires.

Use of Non-GAAP Financial Measures: Our non-GAAP adjustments, where applicable, include the effect of share-based compensation, restructuring charges, cybersecurity incident expenses, expenses related to our acquisition activities (including intangible asset amortization, severance, other restructuring costs, and legal and other general and administrative expenses including legal fees and expenses for litigation and investigations related to our Microsemi acquisition), professional services associated with certain legal matters, (gain) loss on available-for-sale investments, and dividends on our Series A Mandatory Convertible Preferred Stock. For the second quarters of fiscal 2026 and fiscal 2025, our non-GAAP income tax expense is presented based on projected cash taxes for the fiscal year, excluding transition tax payments under the Tax Cuts and Jobs Act.

We are required to estimate the cost of certain forms of share-based compensation, including restricted stock units and our employee stock purchase plan, and to record a commensurate expense in our income statement. Share-based compensation expense is a non-cash expense that varies in amount from period to period and is affected by the price of our stock at the date of grant. The price of our stock is affected by market forces that are difficult to predict and are not within the control of management. Our other non-GAAP adjustments are either non-cash expenses, unusual or infrequent items, or other expenses related to transactions. Management excludes all of these items from its internal operating forecasts and models.

We are using non-GAAP operating expenses in dollars, including non-GAAP research and development expenses and non-GAAP selling, general and administrative expenses, non-GAAP other expense, net, and non-GAAP income tax rate, which exclude the items noted above, as applicable, to permit additional analysis of our performance.

Management believes these non-GAAP measures are useful to investors because they enhance the understanding of our historical financial performance and comparability between periods. Many of our investors have requested that we disclose this non-GAAP information because they believe it is useful in understanding our performance as it excludes non-cash and other charges that many investors feel may obscure our underlying operating results. Management uses non-GAAP measures to manage and assess the profitability of our business and for compensation purposes. We also use our non-GAAP results when developing and monitoring our budgets and spending. Our determination of these non-GAAP measures might not be the same as similarly titled measures used by other companies, and it should not be construed as a substitute for amounts determined in accordance with GAAP. There are limitations associated with using these non-GAAP measures, including that they exclude financial information that some may consider important in evaluating our performance. Management compensates for this by presenting information on both a GAAP and non-GAAP basis for investors and providing reconciliations of the GAAP and non-GAAP results.

Generally, gross profit fluctuates over time, driven primarily by the mix of products sold and licensing revenue; variances in manufacturing yields; fixed cost absorption; wafer fab loading levels; costs of wafers from foundries; inventory reserves; pricing pressures in our non-proprietary product lines; and competitive and economic conditions. Operating expenses fluctuate over time, primarily due to net sales and profit levels.

Diluted Common Shares Outstanding can vary for, among other things, the trading price of our common stock, the vesting of restricted stock units, the potential for incremental dilutive shares from our convertible debentures and our mandatory convertible preferred stock (additional information regarding our share count is available in the investor relations section of our website under the heading "Supplemental Information"), and repurchases or issuances of shares of our common stock. The diluted common shares outstanding presented in the guidance table above assumes an average Microchip stock price in the December 2025 quarter between $60 and $70 per share (however, we make no prediction as to what our actual share price will be for such period or any other period).

Free cash flow	$ 51.6	$ 22.8	$ 309.3	$ 327.0
GAAP cash flow from operations as a percentage of net sales	7.7%	3.7%	16.4%	17.5%
Free cash flow as a percentage of net sales	4.5%	2.0%	14.0%	13.6%

Microchip will host a conference call today, November 6, 2025 at 5:00 p.m. (Eastern Time) to discuss this release. This call will be simulcast over the Internet at www.microchip.com. The webcast will be available for replay until December 4, 2025.

A telephonic replay of the conference call will be available at approximately 8:00 p.m. (Eastern Time) on November 6, 2025 and will remain available until 5:00 p.m. (Eastern Time) on December 4, 2025. Interested parties may listen to the replay by dialing 201-612-7415/877-660-6853 and entering access code 13754617.

Cautionary Statement:

The statements in this release relating to continued momentum in our recovery, that operational improvements are translating into meaningful financial progress, the broader market recovery developing more gradually than anticipated, that we believe our operational capabilities position us to outperform as conditions improve, that our Total System Solutions strategy continues to drive strong customer engagement across key growth markets, that we are seeing robust momentum in data center applications and in aerospace and defense markets where accelerating global spending is driving demand for our integrated solutions, that our second quarter results demonstrate the strength of our operational model and the disciplined cost management embedded in our business, that the combination of improved operational efficiency and careful capital allocation is generating meaningful cash flow improvements that we expect will allow us to reduce our debt levels over the coming quarters, that our launch of the industry's first 3nm PCIe Gen 6 switch represents a significant technological milestone demonstrating our commitment to process technology leadership and innovation, that we are seeing encouraging business momentum with September quarter bookings and book-to-bill ratio, that customer requests for expedited shipments have also increased significantly, indicating inventory normalization is progressing, that we expect net sales of $1.129 billion plus or minus $20 million, that we remain confident in our strategic positioning as these positive leading indicators position us for stronger performance in the quarters ahead, our third quarter fiscal 2026 guidance for net sales and GAAP and non-GAAP gross profit, operating expenses, operating income, other

expense, net, income tax provision (benefit), net income, dividends on Series A Preferred Stock, net (loss) income attributable to common stockholders, diluted common shares outstanding, diluted net (loss) per common share, capital expenditures for the December 2025 quarter and for all of fiscal 2026, adding capital equipment to selectively expand our production capacity and add research and development equipment, our belief that non-GAAP measures are useful to investors and our assumed average stock price in the December 2025 quarter are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. These statements involve risks and uncertainties that could cause our actual results to differ materially, including, but not limited to: any continued uncertainty, fluctuations or weakness in the U.S. and world economies (including China and Europe) due to the current U.S. government shutdown, changes in the scope and level of tariffs, interest rates or high inflation, actions taken or which may be taken by the Trump administration or the U.S. Congress, monetary policy, political, geopolitical, trade or other issues in the U.S. or internationally (including the military conflicts in Ukraine-Russia and the Middle East), further changes in demand or market acceptance of our products and the products of our customers and our ability to respond to any increases or decreases in market demand or customer requests to reschedule or cancel orders; the mix of inventory we hold, our ability to satisfy any short-term orders from our inventory and our ability to effectively manage our inventory levels; foreign currency effects on our business; changes in utilization of our manufacturing capacity and our ability to effectively manage our production levels to meet any increases or decreases in market demand or any customer requests to reschedule or cancel orders; the impact of inflation on our business; competitive developments including pricing pressures; the level of orders that are received and can be shipped in a quarter; our ability to realize the expected benefits of our long-term supply assurance program; changes or fluctuations in customer order patterns and seasonality; our ability to effectively manage our supply of wafers from third party wafer foundries to meet any increases or decreases in our needs and the cost of such wafers, our ability to obtain additional capacity from our suppliers to increase production to meet any future increases in market demand; our ability to successfully integrate the operations and employees, retain key employees and customers and otherwise realize the expected synergies and benefits of our acquisitions; the impact of any future significant acquisitions or strategic transactions we may make; the costs and outcome of any current or future litigation or other matters involving our acquisitions (including the acquired business, intellectual property, customers, or other issues); the costs and outcome of any current or future tax audit or investigation regarding our business or our acquired businesses; the impact that the CHIPS Act will have on increasing manufacturing capacity in our industry by providing incentives for us, our competitors and foundries to build new wafer manufacturing facilities or expand existing facilities; the amount and timing of any incentives we may receive under the CHIPS Act, the impact of current and future changes in U.S. corporate tax laws (including the One Big Beautiful Bill Act, the Inflation Reduction Act of 2022 and the Tax Cuts and Jobs Act of 2017); fluctuations in our stock price and trading volume which could impact the number of shares we acquire under our share repurchase program and the timing of such repurchases; disruptions in our business or the businesses of our customers or suppliers due to natural disasters (including any floods in Thailand), terrorist activity, armed conflict, war, worldwide oil prices and supply, public health concerns or disruptions in the transportation system; and general economic, industry or political conditions in the United States or internationally.

For a detailed discussion of these and other risk factors, please refer to Microchip's filings on Forms 10-K and 10-Q. You can obtain copies of Forms 10-K and 10-Q and other relevant documents for free at Microchip's website (www.microchip.com) or the SEC's website (www.sec.gov) or from commercial document retrieval services.

Stockholders of Microchip are cautioned not to place undue reliance on our forward-looking statements, which speak only as of the date such statements are made. Microchip does not undertake any obligation to publicly update any forward-looking statements to reflect events, circumstances or new information after this November 6, 2025 press release, or to reflect the occurrence of unanticipated events.

About Microchip:

Microchip Technology Inc. is a broadline supplier of semiconductors committed to making innovative design easier through total system solutions that address critical challenges at the intersection of emerging technologies and durable end markets. Its easy-to-use development tools and comprehensive product portfolio support customers throughout the design process, from concept to completion. Headquartered in Chandler, Arizona, Microchip offers outstanding technical support and delivers solutions across the industrial, automotive, consumer, aerospace and defense, communications and computing markets. For more information, visit the Microchip website at www.microchip.com.
