

**JCPENNEY REPORTS SECOND QUARTER 2018 FINANCIAL RESULTS*****Delivered Positive Sales Comps for the Quarter and Year-to-Date Periods***

**PLANO, Texas - (Aug. 16, 2018)**- J. C. Penney Company, Inc. (NYSE: JCP) today announced financial results for its fiscal second quarter ended Aug. 4, 2018. Comparable sales increased 0.3 % for the second quarter. Net loss for the quarter was \$101 million or (\$0.32) per share.

"During the second quarter, we delivered a positive sales comp of 0.3%. We had a strong start and finish to the quarter, with both May and July comps delivering ahead of our annual comp guidance range. Overall, we are confident that our renewed focus on Women's is having a beneficial impact, evidenced by the positive comp sales performance in Women's and Children's apparel, both of which meaningfully out-performed our total Q2 comp results," said Jeffrey Davis, chief financial officer.

Davis continued, "This quarter we adjusted our approach to inventory management from 'buying to store capacity' to 'buying and chasing' into demonstrated sales trends. Inventory receipts continued to outpace total sales performance this quarter due to prior purchase commitments. As such, we took necessary actions to markdown and clear excessive inventory positions across many of our categories, which encompasses more than just seasonal product or fashion misses. We will continue to take actions to right-size our inventory, better curate our assortment and most importantly, provide a solid foundation that we can continue to build upon as we move forward. Consequently, we are reducing our earnings guidance for fiscal 2018."

For the second quarter ended Aug. 4, 2018, total net sales decreased 7.5 % to \$2.76 billion compared to \$2.99 billion for the second quarter ended Jul. 29, 2017. The decline in total net sales was primarily the result of the 141 stores that closed in fiscal 2017. Comparable sales increased 0.3 % for the second quarter. Credit income, which was previously reflected as a reduction to SG&A, was \$67 million for the second quarter this year compared to \$83 million in the second quarter last year.

Children's, Jewelry, Sephora, Women's Apparel and Salon were the Company's top performing divisions and categories during the quarter. Geographically, the Gulf Coast, Southeast and Northwest were the best performing regions of the country.

Cost of goods sold, which excludes depreciation and amortization, was \$1.83 billion, or 66.3 % of sales, for the second quarter this year compared to \$1.93 billion, or 64.7 % of sales in the same period last year. The increase as a rate of sales was primarily driven by markdown and pricing actions taken in the quarter to clear slow-moving seasonal inventory due to lower than planned sales.

SG&A expenses for the second quarter were \$880 million, or 31.9 % of sales compared to \$935 million, or 31.3 % of sales in the second quarter last year. The dollar reduction to last year was primarily driven by lower store expenses because of 141 stores that closed during fiscal 2017, corporate overhead and incentive compensation.

For the second quarter, the Company's net loss was \$101 million, or (\$0.32) per share, compared to a net loss of \$48 million, or (\$0.15) per share in the same period last year.

Adjusted net loss was \$120 million, or (\$0.38) per share, for the second quarter this year compared to an adjusted net loss of \$23 million, or (\$0.07) per share, for the second quarter last year. Adjusted net loss for the second quarter of 2018 and 2017 included gains on the sale of operating assets, which totaled \$40 million, or \$0.13 per share, and \$1 million, or \$0.00 per share, respectively; and \$52 million, or approximately (\$0.16) per share, resulting from an impairment charge in the second quarter this year related to the expected sale of the Company's three corporate-owned aircraft. In addition, second quarter adjusted net loss for 2018 and 2017 included the following items:

- \$2 million, or \$0.01 per share, this year related to restructuring and management transition charges compared to \$23 million, or \$0.07 per share, last year;
- \$19 million, or (\$0.06) per share, this year related to other components of net periodic pension income compared to \$14 million, or (\$0.05) per share, last year;
- \$35 million, or \$0.11 per share, last year related to the loss on extinguishment of debt; and

- \$1 million, or (\$0.00) per share this year compared to \$19 million, or (\$0.06) per share, last year related to the proportional share of net income from the home office land joint venture.

A reconciliation of GAAP to non-GAAP financial measures is included in the schedules accompanying the consolidated financial statements in this release.

Cash and cash equivalents at the end of the second quarter were \$182 million. Free cash flow was (\$235) million for the six months ended Aug 4, 2018, an improvement of \$186 million compared to the three months ended May 5, 2018.

The Company ended the quarter with liquidity of approximately \$2.2 billion.

Inventory at the end of the second quarter was \$2.82 billion, an increase of 0.1 % compared to the end of the second quarter last year, and up 1.0 % on a comp store basis.

### **CEO Search Update**

"I want to take this opportunity to update our stakeholders on the progress of the CEO search. The process is going well and the Board has met with highly qualified candidates who have expressed a strong desire to become the next leader of JCPenney. The hiring of a new CEO is the top priority of the Board of Directors and we will continue to expedite the process in order to bring this search to a successful conclusion," said Ronald W. Tysoe, JCPenney board chairman.

### **Outlook**

The Company has revised its 2018 full year guidance as follows:

- Comparable store sales: now expected to be approximately flat; and
- Adjusted earnings per share<sup>1</sup>: now expected to be (\$1.00) to (\$0.80).

<sup>[1]</sup> A reconciliation of non-GAAP forward-looking projections to GAAP financial measures is not available as the nature or amount of potential adjustments, which may be significant, cannot be determined now.

### Reconciliation of Non-GAAP Financial Measures

(Unaudited)

(Amounts in millions except per share data)

We report our financial information in accordance with generally accepted accounting principles in the United States (GAAP). However, we present certain financial measures and ratios identified as non-GAAP under the rules of the Securities and Exchange Commission (SEC) to assess our results. We believe the presentation of these non-GAAP financial measures and ratios is useful in order to better understand our financial performance as well as to facilitate the comparison of our results to the results of our peer companies. In addition, management uses these non-GAAP financial measures and ratios to assess the results of our operations. It is important to view non-GAAP financial measures in addition to, rather than as a substitute for, those measures and ratios prepared in accordance with GAAP. We have provided reconciliations of the most directly comparable GAAP measures to our non-GAAP financial measures presented.

The following non-GAAP financial measures are adjusted to exclude restructuring and management transition charges, other components of net periodic pension cost/(income), the (gain)/loss on extinguishment of debt, the proportional share of net income from our joint venture formed to develop the excess property adjacent to our home office facility in Plano, Texas (Home Office Land Joint Venture) and the tax impact for the allocation of income taxes to other comprehensive income items related to our pension plans and interest rate swaps. Unlike other operating expenses, restructuring and management transition charges, other components of net periodic pension cost/(income), the (gain)/loss on extinguishment of debt, the proportional share of net income from the Home Office Land Joint Venture and the tax impact for the allocation of income taxes to other comprehensive income items related to our pension plans and interest rate swaps are not directly related to our ongoing core business

operations. Further, other components of net periodic pension cost/(income) is determined using numerous complex assumptions about changes in pension assets and liabilities that are subject to factors beyond our control, such as market volatility. We believe it is useful for investors to understand the impact of restructuring and management transition charges, other components of net periodic pension cost/(income), the (gain)/loss on extinguishment of debt, the proportional share of net income from the Home Office Land Joint Venture and the tax impact for the allocation of income taxes to other comprehensive income items related to our pension plans and interest rate swaps on our financial results and therefore are presenting the following non-GAAP financial measures: (1) adjusted net income/(loss) before net interest expense, income tax (benefit)/expense and depreciation and amortization (adjusted EBITDA); (2) adjusted net income/(loss); and (3) adjusted earnings/(loss) per share-diluted.

#### ADJUSTED EBITDA, NON-GAAP FINANCIAL MEASURE:

The following table reconciles net income/(loss), the most directly comparable GAAP measure, to adjusted EBITDA, a non-GAAP financial measure:

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017

Add: (Gain)/loss on extinguishment of debt	-	35	23	35
Add: Income tax expense/(benefit)	5	1	4	(11 )
Add: Depreciation and amortization	140	144	281	289
Add: Restructuring and management transition charges	2	23	9	123
Add: Other components of net periodic pension cost/(income)	(19 )	(14 )	(38 )	92
Less: Proportional share of net income from the home office land joint venture	(1 )	(19 )	(1 )	(20 )
<i>Adjusted EBITDA (non-GAAP)</i>	<u>\$ 105</u>	<u>\$ 201</u>	<u>\$ 256</u>	<u>\$ 439</u>

#### ADJUSTED NET INCOME/(LOSS) AND ADJUSTED EARNINGS/(LOSS) PER SHARE-DILUTED, NON-GAAP FINANCIAL MEASURES:

The following table reconciles net income/(loss) and earnings/(loss) per share-diluted, the most directly comparable GAAP measures, to adjusted net income/(loss) and adjusted earnings/(loss) per share-diluted, non-GAAP financial measures:

	Three Months Ended		Six Months Ended	
	August 4, 2018	July 29, 2017	August 4, 2018	July 29, 2017
Net income/(loss)	\$ (101 )	\$ (48 )	\$ (179 )	\$ (235 )
Earnings/(loss) per share-diluted	\$ (0.32 )	\$ (0.15 )	\$ (0.57 )	\$ (0.76 )
Add: Restructuring and management transition charges <sup>(1)</sup>	2	23	9	123
Add: Other components of net periodic pension cost/(income) <sup>(1)</sup>	(19 )	(14 )	(38 )	92
Add: (Gain)/loss on extinguishment of debt <sup>(1)</sup>	-	35	23	35
Less: Proportional share of net income from the home office land joint venture <sup>(1)</sup>	(1 )	(19 )	(1 )	(20 )
Less: Tax impact resulting from other comprehensive income allocation <sup>(2)</sup>	(1 )	-	(3 )	(16 )
<i>Adjusted net income/(loss) (non-GAAP)</i>	<u>\$ (120 )</u>	<u>\$ (23 )</u>	<u>\$ (189 )</u>	<u>\$ (21 )</u>
<i>Adjusted earnings/(loss) per share-diluted (non-GAAP)</i>	<u>\$ (0.38 )</u>	<u>\$ (0.07 )</u>	<u>\$ (0.60 )</u>	<u>\$ (0.07 )</u>

1. Reflects no tax effect due to the impact of the Company's tax valuation allowance.
2. Represents the net tax benefit that resulted from our other comprehensive income allocation between our Operating loss and Accumulated other comprehensive income.

**Reconciliation of Non-GAAP Financial Measures**  
(Unaudited)  
(Amounts in millions)

Free cash flow is a key financial measure of our ability to generate additional cash from operating our business and in evaluating our financial performance. We define free cash flow as cash flow from operating activities, less capital expenditures, plus the proceeds from the sale of operating assets. Free cash flow is a relevant indicator of our ability to repay maturing debt, revise our dividend policy or fund other uses of capital that we believe will enhance stockholder value. Free cash flow is considered a non-GAAP financial measure under the rules of the SEC. Free cash flow is limited and does not represent remaining cash flow available for discretionary expenditures due to the fact that the measure does not deduct payments required for debt maturities, payments made for business acquisitions or required pension contributions, if any. Therefore, it is important to view free cash flow in addition to, rather than as a substitute for, our entire statement of cash flows and those measures prepared in accordance with GAAP.

**FREE CASH FLOW, NON-GAAP FINANCIAL MEASURE:**

The following table sets forth a reconciliation of cash flow from operating activities, the most directly comparable GAAP measure, to free cash flow, a non-GAAP financial measure, as well as information regarding net cash provided by/(used in) investing activities and net cash provided by/(used in) financing activities:

	<b>Six Months Ended</b>	
	<b>August 4, 2018</b>	<b>July 29, 2017</b>
Net cash provided by/(used in) operating activities	\$ (135 )	\$ 56
Add: Proceeds from sale of operating assets	121	146
Less: Capital expenditures	(221 )	(192 )
<i>Free cash flow (non-GAAP)</i>	<u>\$ (235 )</u>	<u>\$ 10</u>
Net cash provided by/(used in) investing activities (1)	\$ (100 )	\$ (37 )
Net cash provided by/(used in) financing activities	\$ (41 )	\$ (592 )

(1) Net cash provided by/(used in) investing activities includes capital expenditures and proceeds from sale of operating assets, which are also included in our computation of free cash flow.
