TAMPA, Fla., May 15, 2023 /PRNewswire/ -- LM Funding America, Inc. (NASDAQ: LMFA) ("LM Funding" or the "Company"), a cryptocurrency mining and technology-based specialty finance company, today provided a business update and reported financial results for the guarter ended March 31, 2023.

Operational Highlights

- Approximately 3,700 Bitcoin mining machines in operation as of March 31, 2023.
- Approximately 5,000 Bitcoin mining machines operating today providing approximately 520 PH/s of mining capacity after adding 1,300 machines in April, 2023.
- Signed an agreement with GIGA Energy May 8, 2023, adding 1,080 additional machines for an approximate total of 627 PH/s by May 31, 2023.

Bruce Rodgers, Chairman and CEO of LM Funding, commented, "We are pleased with the strides LM Funding has taken during the first quarter of 2023 as we continue to steadily transition our Company towards Bitcoin mining. We started the year with approximately 2,700 fully operational mining machines and added approximately 2,300 more during the first four months of 2023, bringing our total to approximately 5,000 machines, with a mining capacity of around 520 PH/s, actively mining Bitcoin today. Throughout the quarter, we mined nearly 91.7 Bitcoins at an average value of about \$22,800 per Bitcoin, compared to the current price of Bitcoin, which has been ranging between \$27,000 and \$30,000 over the past two months."

"We continue to strategically acquire additional mining machines, and since the conclusion of the first quarter, have acquired 101 S19 XP machines through a Bitmain raffle, costing

\$0.3 million. Our goal is to continue to acquire and energize more energy efficient mining machines in the forthcoming quarters as we approach the next Bitcoin halving, anticipated to occur sometime in 2024."

Richard Russell, Chief Financial Officer of LM Funding commented, "In addition to our revenue growth, our balance sheet remains solid. As of March 31, 2023, we had \$3.4 million in cash, approximately 84 Bitcoins valued at \$1.8 million or \$21,400 per Bitcoin, working capital of \$4.6 million, and LM Funding stockholders' equity of \$44.0 million, or \$3.36 per share. In light of our strong capital position, we have confidence in our ability to deliver on our growth strategy, which we believe will generate significant value for our shareholders in the long term."

Financial Highlights

- Total revenue for the quarter ended March 31, 2023, was approximately \$2.3 million, an increase of \$2.1 million, or more than 1,100%, from \$0.2 million for the 2022 first quarter. The increase was primarily due to digital mining revenue of \$2.1 million in connection with the commencement of our Bitcoin mining operations in September 2022 compared to no digital mining revenue in the same quarter last year.
- Net loss attributable to LM Funding shareholders for the first quarter ended March 31, 2023, was approximately \$5.4 million, which included a \$5.8 million non-cash, unrealized loss on investment and equity securities, compared to a net loss of approximately \$5.8 million for the first quarter of 2022, which included a \$1.0 million unrealized loss on investment and equity securities.
- Core EBITDA loss for the quarter ended March 31, 2023, improved to a loss of \$(0.3 million), compared to Core EBITDA loss of \$(1.7 million) in the 2022 comparable quarter, primarily due to our successful digital strategy. Core EBITDA is a non-GAAP financial measure, and a reconciliation of Core EBITDA to net loss is set forth below in this press release.
- Cash of approximately \$3.4 million, digital assets of \$1.8 million, and working capital of \$4.6 million as of March 31, 2023.
- Total LM Funding stockholders' equity of \$44.0 million and net equity per share of \$3.36 as of March 31, 2023. (Calculated as LMFA stockholders' equity divided by 13,091,883 shares outstanding as of March 31, 2023)

NON-GAAP FINANCIAL INFORMATION

Our reported results are presented in accordance with U.S. generally accepted accounting principles ("GAAP"). We also disclose Earnings before Interest, Tax, Depreciation and Amortization ("EBITDA") and Core Earnings before Interest, Tax, Depreciation and Amortization ("Core EBITDA") which adjusts for unrealized loss on investment and equity securities, unrealized gain on convertible debt securities and stock compensation expense and option expense, all of which are non-GAAP financial measures. We believe these non-GAAP financial measures are useful to investors because they are widely accepted industry measures used by analysts and investors to compare the operating performance of Bitcoin miners.

The following tables reconcile net loss, which we believe is the most comparable GAAP measure, to EBITDA and Core EBITDA:
