C-Bond Ballistic-Resistant System Selected as Safety Solution for Large Texas School District

C-Bond Premier Distributor, A1 Glass Coating, Currently Installing C-Bond BRS at Initial Four Schools at 70 School Campus

HOUSTON, May 11, 2020 (GLOBE NEWSWIRE) -- [C-Bond Systems](#) (the “Company” or “C-Bond”) (OTC: CBNT), a nanotechnology solutions company, announced today that one of the largest school districts in San Antonio, Texas, has selected C-Bond BRS (ballistic-resistant system) as a safety solution to improve student safety and peace of mind. C-Bond premier distributor, A1 Glass Coating, is currently installing C-Bond BRS at an initial four schools within the district’s 70 campuses.

[C-Bond BRS](#) is a ballistic-resistant film system that consists of the patented C-Bond glass strengthening technology and security film. The C-Bond technology chemically bonds to the defects randomly distributed on the glass surface thereby increasing impact resistance and preventing breakage. C-Bond BRS is validated by an independent third-party laboratory to provide National Institute of Justice (NIJ) Level I, Level IIA, Level II, and Underwriters Laboratories (UL) 752 ballistic-resistant protection.

“Although no one likes to think about the possibility of school shootings or other school safety emergencies, it is critical that schools plan for them, and with students currently taking classes online, forward-thinking schools are taking action to improve their safety profile for when students and staff return,” said Scott R. Silverman, Chairman and Chief Executive Officer of C-Bond Systems. “We are proud that this school district chose to install C-Bond BRS, with the help of A1 Glass Coating, to help protect their students, teachers and other school personnel.”

C-Bond BRS has been installed in numerous schools, government buildings, and other high-security facilities around the country. C-Bond’s glass strengthening technology is protected by 22 patents and patent pending applications.

About A1 Glass Coating

A1 Glass Coating in San Antonio, Texas, provides quality window tint solutions for auto, home, and business owners across Texas and has been doing so for over 30 years. We specialize in automotive window tinting, residential window film, and commercial window film that stops harmful UV rays from passing through our films, resulting in reduced glare, comfortable temperatures, and lower energy bills. We also carry products that offer forced-entry protection and films that protect glass from scratches, graffiti, other types of vandalism, and even bullets.

About C-Bond

C-Bond Systems, Inc. (OTC: CBNT) is a Houston-based advanced nanotechnology company and marketer of the patented C-Bond technology, developed in conjunction with Rice University and independently proven to significantly strengthen glass in key automotive and structural applications. The Company's Transportation Solutions Group sells C-Bond NanoShield®, a liquid solution applied directly to automotive windshields, sold through distributors. The Company's Safety Solutions Group sells ballistic-resistant glass solutions and FN NANO Coating directly to private enterprises, schools, hospitals and government agencies. Forward-Looking Statements

Statements in this press release about our future expectations constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934, and as that term is defined in the Private Litigation Reform Act of 1995. Such forward-looking statements involve risks and uncertainties and are subject to change at any time, and our actual results could differ materially from expected results. These risks and uncertainties include, without limitation, C-Bond's ability to raise capital; the Company's ability to successfully commercialize its products; as well as other risks. Additional information about these and other factors may be described in the Company's filings with the Securities and Exchange Commission ("SEC") including its Form 10-K filed on March 25, 2020, its Forms 10-Q filed on November 14, 2019, August 12, 2019, and May 10, 2019, and in future filings with the SEC. The Company undertakes no obligation to update or release any revisions to these forward-looking statements to reflect events or circumstances after the date of this statement or to reflect the occurrence of unanticipated events, except as required by law.
