⁽¹⁾ Certain totals may not foot due to rounding. Certain Sequoia and Acacia securitization entities and the resecuritization we engaged in during the third quarter of 2011 are treated as secured borrowing transactions for GAAP and we are required under GAAP to consolidate the assets and liabilities of these securitization entities. However, the securitized assets of these entities are not available to Redwood. Similarly, the liabilities of these entities are obligations payable only from the cash flow generated by their securitized assets and are not legal obligations of Redwood.

⁽²⁾ The consolidating balance sheet presents the assets and liabilities of the resecuritization we engaged in during the third quarter of 2011 under Redwood (Parent), although these assets and liabilities are owned by the resecuritization entity and are legally not ours and we own only the securities and interests that we acquired from the resecuritization entity. At June 30, 2012, the resecuritization accounted for \$323 million of available-for-sale securities and \$193 million of asset-backed securities issued and our investment in this resecuritization is reflected in the difference between these assets and liabilities.
