Anixa Biosciences Increases Previously Announced Bought Deal Offering of Common Stock to \$22.5 Million

SAN JOSE, Calif., March 22, 2021 /PRNewswire/ -- Anixa Biosciences, Inc. (NASDAQ: ANIX) ("Anixa" or the "Company"), a biotechnology company focused on the treatment and prevention of cancer and infectious diseases, today announced that, due to demand, the underwriter has agreed to increase the size of the previously announced offering and purchase on a firm commitment basis 4,285,715 shares of common stock of the Company at a public offering price of \$5.25 per share, less underwriting discounts and commissions. The Company also has granted the underwriter a 30-day option to purchase up to an additional 642,857 shares of common stock at the public offering price, less underwriting discounts and commissions. The offering is expected to close on or about March 25, 2021, subject to satisfaction of customary closing conditions.

H.C. Wainwright & Co. is acting as the sole book-running manager for the offering.

The gross proceeds of the offering are expected to be approximately \$22.5 million, prior to deducting underwriting discounts and commissions and estimated offering expenses payable by the Company and excluding the exercise of the underwriter's option to purchase additional shares. The Company intends to use the net proceeds from this offering for general corporate purposes, including, but not limited to, ongoing research and pre-clinical studies, clinical trials, the development of new biological and pharmaceutical technologies, investing in or acquiring companies that are synergistic with or complementary to its technologies, and licensing activities related to current and future product candidates and working capital.

The shares of common stock are being offered pursuant to an effective registration

statement on Form S-3 (File No. 333-232067) that was filed with the U.S. Securities and Exchange Commission ("SEC") on June 11, 2019 and declared effective on June 21, 2019. The shares of common stock may be offered only by means of a prospectus supplement forming a part of the effective registration statement. A preliminary prospectus supplement and accompanying prospectus relating to the offering was filed with the SEC and is available on the SEC's website at www.sec.gov. A final prospectus supplement and accompanying prospectus relating to the offering will be filed with the SEC and, upon filing, may be obtained on the SEC's website at <http://www.sec.gov> or by contacting H.C. Wainwright & Co., LLC, 430 Park Avenue, New York, NY 10022, by email at placements@hwcwco.com or by phone at (212) 856-5711.

This press release shall not constitute an offer to sell or a solicitation of an offer to buy, nor shall there be any sale of these securities in any state or jurisdiction in which such offer, solicitation or sale would be unlawful, prior to registration or qualification under the securities laws of any such state or jurisdiction.

About Anixa

Anixa Biosciences, Inc. is a publicly-traded biotechnology company developing a number of programs addressing cancer and infectious disease. Anixa's therapeutics portfolio includes a cancer immunotherapy program which uses a novel type of CAR-T, known as chimeric endocrine receptor T-cell (CER-T) technology, and a Covid-19 therapeutics program focused on inhibiting certain viral protein function. The company's vaccine portfolio includes a vaccine to prevent breast cancer, and specifically triple negative breast cancer (TNBC), the most deadly form of the disease, and a vaccine to prevent ovarian cancer. These vaccine technologies focus on immunizing against specific proteins that have been found to be expressed in certain forms of cancer. Anixa's therapeutic and vaccine programs are currently in the research or pre-clinical stage of development. Anixa continually examines emerging technologies in complementary fields for further development and commercialization. Additional information is available at www.anixa.com.
