## Westell Technologies Reports Second Quarter Revenue of \$30 million

### Strong sales of new products drive revenue growth and profitability

AURORA, Ill.--(BUSINESS WIRE)-- Westell Technologies, Inc. (NASDAQ: WSTL), a global leader of intelligent site and outside plant solutions, today announced results for its fiscal 2014 second quarter ended September 30, 2013.

Consolidated revenue was \$30.0 million, driven by record quarterly sales of intelligent site management solutions, tower mounted amplifiers (TMAs), and distributed antenna systems (DAS) interface panels.

On a GAAP basis, the Company recorded net income in the quarter ended September 30, 2013, of \$1.3 million or \$0.02 per share, compared to a net loss of \$2.2 million or \$0.04 per share in the year-ago quarter. On a non-GAAP basis, the Company recorded net income of \$4.0 million or \$0.07 per share, compared to a non-GAAP net loss of \$1.6 million or \$0.03 per share in the year-ago quarter. Please refer to the schedule at the end of this release for a complete GAAP to non-GAAP reconciliation, and other information related to non-GAAP measures.

Cash and short-term investments were \$81.5 million at September 30, 2013, compared to \$82.9 million at June 30, 2013. Revenue growth in the quarter drove increased working capital requirements.

***“We are pleased with our revenue and profitability performance in the fiscal second quarter,” said Chairman and CEO Rick Gilbert. “Our success during the first half of the fiscal year continues to validate our strategic focus on intelligent site management and wireless products. We believe we are well-positioned to achieve our financial goals for this fiscal year.”***

### Kentrox Segment

Kentrox segment revenue was \$16.1 million in the quarter ended September 30, 2013, up 34% from \$12.0 million in the fiscal 2014 first quarter ended June 30, 2013. The sequential revenue growth was driven primarily by increased demand for large deployments with domestic customers. Gross profit was \$8.1 million and gross margin was 50.4% compared to \$5.2 million and 43.5% in the prior quarter. The margin improvement was due to the higher revenues and a more favorable product mix. Kentrox R&D expenses were \$0.9 million, compared to \$1.0 million last quarter. As a result, Kentrox segment profit was \$7.3 million,

compared to \$4.2 million in the first quarter.

## **Westell Segment**

Westell segment revenue was \$13.9 million in the quarter ended September 30, 2013, up 33% from \$10.5 million in the prior quarter, driven by increased wireless product revenue, primarily TMAs and DAS panels. Gross profit was \$4.3 million and gross margin was 31.1%, compared to \$3.6 million and 34.0% in the last quarter. While gross profit improved due to the revenue increase, the margin decreased due to higher amounts recorded this quarter for excess and obsolete inventory. Westell R&D expenses were \$1.8 million, compared to \$1.7 million last quarter. As a result, Westell segment profit was \$2.6 million, compared to \$1.8 million in the first quarter.

## **Conference Call Information**

Management will address financial and business results during its second quarter conference call on Thursday, November 7, 2013, at 9:30 AM Eastern Time. Participants may register for the call at <http://www.conferenceplus.com/westell>. After doing so, they will receive a dial-in number, a passcode, and a personal identification number (PIN) that automatically joins them to the audio conference. Those who do not wish to register may participate in the call by dialing 888-206-4073 no later than 9:15 AM Eastern Time and using confirmation number 35883407. International participants may dial 847-413-9014.

This news release and related information that may be discussed on the conference call will be posted on the Investor News section of Westell's website: <http://www.westell.com>. An archive of the entire call will be available on the site via Digital Audio Replay by approximately 1:00 PM Eastern Time after the call ends. The replay of the conference also may be accessed by dialing 888-843-7419 or 630-652-3042 and entering 7777976.

## **About Westell Technologies**

Westell Technologies, Inc., headquartered in Aurora, Illinois, is a global leader of intelligent site and outside plant solutions focused on the high value/growth edge and access networks. The comprehensive solutions Westell provides enable service providers, industrial customers, tower operators, home network users, and other network operators to reduce operating costs while improving network performance. With millions of products successfully deployed worldwide, Westell is a trusted partner for transforming networks into high quality, reliable systems. For more information, please visit [www.westell.com](http://www.westell.com).

## **“Safe Harbor” Statement under the Private Securities Litigation Reform Act of 1995**

Certain statements contained herein that are not historical facts or that contain the words “believe,” “expect,” “intend,” “anticipate,” “estimate,” “may,” “will,” “plan,” “should,” or derivatives thereof and other words of similar meaning are forward-looking statements that involve risks and uncertainties. Actual results may differ materially from those expressed in or implied by such forward-looking statements. Factors that could cause actual results to differ materially include, but are not limited to, product demand and market acceptance risks, need for financing and capital, economic weakness in the United States (“U.S.”) economy and telecommunications market, the effect of international economic conditions and trade, legal, social and economic risks (such as import, licensing and trade restrictions), the impact

of competitive products or technologies, competitive pricing pressures, customer product selection decisions, product cost increases, component supply shortages, new product development, excess and obsolete inventory, commercialization and technological delays or difficulties (including delays or difficulties in developing, producing, testing and selling new products and technologies), the ability to successfully consolidate and rationalize operations, the ability to successfully identify, acquire and integrate acquisitions, the effect of the Company's accounting policies, retention of key personnel and other risks more fully described in the Company's SEC filings, including the Form 10-K for the fiscal year ended March 31, 2013, under Item 1A - Risk Factors. The Company undertakes no obligation to publicly update these forward-looking statements to reflect current events or circumstances after the date hereof, or to reflect the occurrence of unanticipated events, or otherwise.

Net income (loss) from continuing operations			\$ (1,568 )	

In connection with the Kentrox acquisition, the Company completed the integration of the marketing, sales, customer service, and administrative functions into single organizations that now operate across the whole Company. In as much as these organizations are no longer solely dedicated to any one segment and are managed (1) separately at the corporate level, the Company has excluded these expenses from segment profit. Segment profit, therefore is defined as gross profit less research and development expenses. Segment profit excluded sales and marketing expenses, general and administrative expenses, the amortization of acquired intangible assets, and restructuring.

The Company conforms to U.S. Generally Accepted Accounting Principles (GAAP) in the preparation of its financial statements. The schedules above reconcile the Company's non-GAAP financial measures to the most directly comparable GAAP measure. The adjustments share one or more of the following characteristics: they are unusual and the Company does not expect them to recur in the ordinary course of its business; they do not involve the expenditure of cash; they are unrelated to the ongoing operation of the business in the ordinary course; or their magnitude and timing is largely outside of the Company's control. Management believes that these non-GAAP results provide meaningful supplemental information to investors and indicate the Company's core performance and that they facilitate comparison of results across reporting periods. The Company uses these non-GAAP

measures when evaluating its financial results. Non-GAAP measures should not be viewed as a substitute for the Company's GAAP results.

On April 1, 2013, the Company purchased Kentrox which required the step-up of certain assets to fair value, which resulted in cost that will not recur once those assets have fully

- (1) settled. The adjustments remove the increased costs associated with the third-party sales of inventory that was stepped-up and the step-down on acquired deferred revenue that was recognized in the three and six months ended September 30, 2013.

- (2) Amortization of intangibles is a non-cash expense arising from the acquisition of intangible assets.

The Company is in a full valuation allowance in fiscal year 2014. The adjustment

- (3) removes the tax benefits recorded in fiscal year 2013 to reflect the tax result had the Company been in a full valuation allowance in fiscal year 2013.

- (4) Restructuring expenses are not directly related to the ongoing performance of our fundamental business operations.

- (5) Stock-based compensation is a non-cash expense incurred in accordance with share-based compensation accounting.

In the first quarter of fiscal year 2014, the Company discontinued the operations of the

- (6) CNS segment. Historical results of operations of the CNS division are presented as discontinued operations.
