# SUNation Energy Ranks No. 1 Solar Installer In PSEG Long Island Territory, With 29% Growth In 2025 Installed Capacity

RONKONKOMA, N.Y., April 29, 2026 (GLOBE NEWSWIRE) -- **SUNation Energy Inc. (Nasdaq: SUNE)** (“**SUNation**” or the “**Company**”), a leading provider of solar energy and backup power solutions to residential, commercial, and municipal customers, today announced that it ranked first among solar contractors in total installed capacity within PSEG Long Island’s service territory during 2025.

Based on the latest publicly available utility interconnection data, SUNation installed 9,379 kilowatts AC (9.3 MW) in the territory during the year, while increasing its aggregate installed capacity on Long Island by approximately 29% year over year.

“This milestone is a clear operating proof point of SUNation’s growth in our core market,” said Scott Maskin, Founder and Chief Executive Officer of SUNation Energy. “Finishing 2025 as the top installer in PSEG Long Island reflects durable customer demand, strong local execution, and the scalability of the platform, as well as our ability of our platform to convert market opportunity into growth across both residential and commercial channels.”

SUNation’s position in PSEG Long Island reflects more than installation volume; it reflects the strength of a regional platform built to serve customers across multiple energy and service needs.

“Our deep familiarity with the Long Island market give us an execution advantage at every stage of the customer lifecycle,” said John Mucci, General Manager of SUNation’s New York Operations. “That helps us install more projects efficiently, maintain a strong customer experience, and create additional opportunities across residential, commercial, and service, all of which support sustainable growth in our core market.”

In addition, utility interconnection data shows that SUNation has increased its aggregate installed capacity on Long Island approximately 29% year over year in 2025, underscoring the Company’s expanding presence in its core market and reinforcing management’s view that local scale, execution, and diversification continue to support growth across the platform.
