## Digital Turbine Reports Fiscal 2026 Third Quarter Financial Results

*Third Quarter Revenue Totaled \$151.4 Million, Representing Year-over-Year Growth of 12%*

*Third Quarter GAAP Net Income of \$5.1 Million and GAAP EPS of \$0.03; Third Quarter Non-GAAP Adjusted Net Income<sup>1</sup> of \$21.7 Million and Non-GAAP Adjusted EPS<sup>1</sup> of \$0.18*

*Third Quarter Non-GAAP Adjusted EBITDA<sup>2</sup> Totaled \$38.8 Million, Representing Year-over-Year Growth of 76%*

AUSTIN, Texas, Feb. 3, 2026 /PRNewswire/ -- Digital Turbine, Inc. (Nasdaq: APPS) announced financial results for the fiscal third quarter ended December 31, 2025.

### **Recent Financial Highlights:**

- Fiscal third quarter of 2026 revenue totaled \$151.4 million, representing an increase of 12% year-over-year as compared to the fiscal third quarter of 2025.
- GAAP net income for the fiscal third quarter of 2026 was \$5.1 million, or \$0.03 per share, as compared to GAAP net loss for the fiscal third quarter of 2025 of \$23.1 million, or (\$0.22) per share. Non-GAAP adjusted net income<sup>1</sup> for the fiscal third quarter of 2026 was \$21.7 million, or \$0.18 per share, as compared to Non-GAAP adjusted net income<sup>1</sup> of \$14.2 million, or \$0.13 per share, in the fiscal third quarter of 2025.
- Non-GAAP adjusted EBITDA<sup>2</sup> for the fiscal third quarter of 2026 was \$38.8 million, representing an increase of 76% year-over-year as compared to Non-GAAP adjusted EBITDA<sup>2</sup> of \$22.0 million in the fiscal third quarter of 2025.
- Non-GAAP free cash flow<sup>3</sup> totaled \$6.4 million in the fiscal third quarter of 2026.

"Our December quarter results reflected a continuance of our positive business momentum," said Bill Stone, CEO. "I was particularly pleased with the breadth and diversity of our results, which were driven by strong demand, expanding global supply, and great execution by our team. Collectively, it enabled us to once again deliver upside results and raise our full-year fiscal 2026 outlook. The market opportunity in front of us is expanding quickly, as mobile app publishers and advertisers look to capitalize on newly available ways to promote app usage and profitability. Provided that we continue to execute and align our resources effectively to facilitate the evolving demand trends, we are well positioned to capitalize on the wealth of opportunities that lie ahead."

## **Fiscal 2026 Third Quarter Financial Results**

Total revenue for the third quarter of fiscal 2026 was \$151.4 million, representing year-over-year growth of 12% as compared to revenue of \$134.6 million for the third quarter of fiscal 2025. Total On Device Solutions revenue before intercompany eliminations was \$99.6 million. Total App Growth Platform revenue before intercompany eliminations was \$52.6 million.

GAAP net income for the third quarter of fiscal 2026 was \$5.1 million, or \$0.03 per share, as compared to GAAP net loss for the third quarter of fiscal 2025 of \$23.1 million, or (\$0.22) per share.

Non-GAAP adjusted net income<sup>1</sup> for the third quarter of fiscal 2026 was \$21.7 million, or \$0.18 per share, as compared to Non-GAAP adjusted net income<sup>1</sup> of \$14.2 million, or \$0.13 per share, in the third quarter of fiscal 2025.

Non-GAAP adjusted EBITDA<sup>2</sup> for the third quarter of fiscal 2026 was \$38.8 million, representing year-over-year growth of 76% as compared to Non-GAAP adjusted EBITDA<sup>2</sup> for the third quarter of fiscal 2025 of \$22.0 million.

## **Business Outlook**

Based on information available as of February 3, 2026, the Company is raising its expectations for fiscal year 2026 to the following:

- Revenue of between \$553 million and \$558 million
- Non-GAAP adjusted EBITDA<sup>2</sup> of between \$114 million and \$117 million

It is not reasonably practicable to provide a business outlook for GAAP net income because the Company cannot reasonably estimate the changes in stock-based compensation expense, which is directly impacted by changes in the Company's stock price, or other items that are difficult to predict with precision.

### **Use of Non-GAAP Financial Measures**

To supplement the Company's consolidated financial statements presented in accordance with GAAP, Digital Turbine uses non-GAAP measures of certain components of financial performance. These non-GAAP measures include non-GAAP adjusted net income and earnings per share ("EPS"), non-GAAP adjusted EBITDA, non-GAAP free cash flow and non-GAAP gross profit. Reconciliations to the nearest GAAP measures of all non-GAAP measures included in this press release can be found in the tables below.

Non-GAAP measures are provided to enhance investors' overall understanding of the Company's current financial performance, prospects for the future and as a means to evaluate period-to-period comparisons. The Company believes that these non-GAAP measures provide meaningful supplemental information regarding financial performance by excluding certain expenses and benefits that may not be indicative of recurring core business operating results. The Company believes the non-GAAP measures that exclude such items when viewed in conjunction with GAAP results and the accompanying reconciliations enhance the comparability of results against prior periods and allow for greater transparency of financial results. The Company believes non-GAAP measures facilitate management's internal comparison of its financial performance to that of prior periods as well as trend analysis for budgeting and planning purposes. The presentation of non-GAAP measures is not intended to be considered in isolation or as a substitute for, or superior to, the financial information prepared and presented in accordance with GAAP.

<sup>1</sup>Non-GAAP adjusted net income and EPS are defined as GAAP net income and EPS adjusted to exclude the effect of the following, if any: stock-based compensation expense, amortization of intangibles, business transformation costs, transaction-related expenses, severance costs, changes in fair value of contingent consideration, contract settlement fees, impairment of goodwill, tax adjustments, (gain)/loss on extinguishment of debt, amortization of debt discount, issuance costs, and unrealized (gain)/loss on derivatives. The Company added (gain)/loss on extinguishment, the amortization of debt discount and issuance costs, and unrealized (gain)/loss on derivatives due to their unusual nature and association with the Company's specific September 2, 2025 debt refinance transaction and related issuance of warrants. Readers are cautioned that non-GAAP adjusted net income and EPS should not be construed as an alternative to comparable GAAP net income figures determined in accordance with U.S. GAAP as an indicator of profitability or performance, which is the most comparable measure under GAAP.

<sup>2</sup>Non-GAAP adjusted EBITDA is calculated as GAAP net income excluding the following cash and non-cash expenses, if any: stock-based compensation expense, depreciation and

amortization, net interest income (expense), net other income (expense), business transformation costs, foreign exchange transaction gains (losses), income tax (benefit) provision, transaction-related expenses, contract settlement fees, changes in fair value of contingent consideration, impairment of goodwill, severance costs, (gain)/loss on extinguishment of debt, amortization of debt discount and issuance costs, and unrealized (gain)/loss on derivatives. The Company added (gain)/loss on extinguishment, the amortization of debt discount, issuance costs, and unrealized (gain)/loss on derivatives due to their unusual nature and association with the Company's specific September 2, 2025 debt refinance transaction and related issuance of warrants. Non-GAAP adjusted EBITDA margin is calculated as non-GAAP adjusted EBITDA as a percentage of total revenue. Readers are cautioned that non-GAAP adjusted EBITDA should not be construed as an alternative to net income determined in accordance with U.S. GAAP as an indicator of performance, which is the most comparable measure under GAAP.

<sup>3</sup>Non-GAAP free cash flow, which is a non-GAAP financial measure, is defined as net cash provided by operating activities (as stated in our Consolidated Statements of Cash Flows), excluding the following, if any: transaction-related expenses, severance costs and business transformation costs, reduced by capital expenditures. Readers are cautioned that free cash flow should not be construed as an alternative to net cash provided by operating activities determined in accordance with U.S. GAAP as an indicator of profitability, performance or liquidity, which is the most comparable measure under GAAP.

<sup>4</sup>Non-GAAP gross profit is defined as GAAP income from operations adjusted to exclude the effect of the following, if any: product development costs, sales and marketing costs, general and administrative costs, contract settlement fees, impairment of goodwill and depreciation of software included in other direct costs of revenue. Readers are cautioned that non-GAAP gross profit should not be construed as an alternative to income from operations determined in accordance with U.S. GAAP as an indicator of profitability or performance, which is the most comparable measure under GAAP.

Non-GAAP adjusted EBITDA, non-GAAP adjusted net income and EPS, non-GAAP free cash flow and non-GAAP gross profit are used by management as internal measures of profitability and performance. They have been included because the Company believes that the measures are used by certain investors to assess the Company's financial performance before non-cash charges and certain costs that the Company does not believe are reflective of its underlying business.

## **Forward-Looking Statements**

This news release includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Statements in this news release that are not statements of historical fact and that concern future results from operations, financial position, economic conditions, product releases and any other statement that may be construed as a prediction of future performance or events, including financial projections and growth in various products are forward-looking statements that speak only as of the date made and which involve known and unknown risks, uncertainties and other factors which may, should one or more of these risks uncertainties or other factors materialize, cause actual results to differ materially from those expressed or implied by such statements. These factors and risks include:

### *Risks Specific to our Business*

- Our transformation activities and reduction in force may not adequately reduce our operating costs or improve our operating margins or cash flows, may lead to additional workforce attrition and may cause operational disruptions.
- We have a history of net losses.
- We have a limited operating history for our current portfolio of assets.
- Our operations are global in scope, and we face added business, political, regulatory, legal, operational, financial and economic risks as a result of our international operations.
- Our financial results could vary significantly from quarter-to-quarter and are difficult to predict.
- A significant portion of our revenue is derived from a limited number of wireless carriers and customers.
- The risk of impairment of our goodwill.
- The effects of the current and any future general downturns in the U.S. and the global economy, including financial market disruptions.
- Our products, services and systems rely on software that is highly technical, and if it contains errors or viruses, our business could be adversely affected.
- Our business may involve the use, transmission and storage of confidential information and personally identifiable information, and the failure to properly safeguard such information could result in significant reputational harm and monetary damages.
- Our business and reputation could be impacted by information technology system failures and network disruptions
- System security risks and cyber-attacks could disrupt our internal operations or information technology services provided to customers.
- Our business and growth may suffer if we are unable to hire and retain key talent.
- Our corporate culture has contributed to our success, and if we cannot maintain this culture, we could lose the innovation, creativity, passion, and teamwork that we believe contribute to our success and our business may be harmed.
- If we make future acquisitions, this could require significant management attention and disrupt our business.
- Adverse effects of negative developments affecting the financial services industry, including events or concerns involving liquidity, defaults, or non-performance by financial institutions.
- Entry into new lines of business, and our offering of new products and services, resulting from our investments may result in exposure to new risks.
- Litigation may harm our business.

### *Risks Related to the Mobile Advertising Industry*

- The mobile advertising business is an intensely competitive industry, and we may not be able to compete successfully.
- The markets for our products and services are rapidly evolving and may decline or experience limited growth.
- Our business is dependent on the continued growth in usage of smartphones and other mobile connected devices.
- Wireless technologies are changing rapidly, and we may not be successful in working with these new technologies.

- The complexity of and incompatibilities among mobile devices may require us to use additional resources for the development of our products and services.
- If wireless subscribers do not continue to use their mobile devices to access mobile content and other applications, our business growth and future revenue may be adversely affected.
- A shift of technology platform by wireless carriers and mobile device manufacturers could lengthen the development period for our offerings, increase our costs, and cause our offerings to be published later than anticipated.
- Actual or perceived security vulnerabilities in devices or wireless networks could adversely affect our revenue.
- We may be subject to legal liability associated with providing mobile and online services.
- Risks of public health issues, such as a major epidemic or pandemic.
- Risk related to geopolitical conditions and the global economy, including conflicts, financial markets, inflation, global supply chain, and tariffs.
- Risk related to the geopolitical relationship between the U.S. and China or changes in China's economic and regulatory landscape, including recent tariff increases and trade tensions.

#### *Industry Regulatory Risks*

- We are subject to rapidly changing and increasingly stringent laws, regulations and contractual requirements related to privacy, data security, and protection of children.
- We are subject to anti-corruption, import/export, government sanction, and similar laws, especially related to our international operations.
- Government regulation of our marketing methods could restrict or prevent our ability to adequately advertise and promote our content, products and services available in certain jurisdictions.
- Limitations may negatively affect our ability to use our net operating losses, credits, and certain other tax attributes to offset future taxable income.
- Regulatory requirements pertaining to the marketing, advertising, and promotion of our products and services.

#### *Risks Related to Our Intellectual Property and Potential Liability*

- Third parties may obtain and improperly use our intellectual property; and if so, our competitive position may be adversely affected, particularly if we do not, or are unable to, adequately protect our intellectual property rights
- Third parties may sue us for intellectual property infringement, which may prevent or limit our use of the intellectual property and disrupt our business and could require us to pay significant damage awards.
- Our platform contains open source software.
- Indemnity provisions in various agreements potentially expose us to substantial liability for intellectual property infringement, damages caused by malicious software, and other losses.

#### *Risks Relating to Our Common Stock and Capital Structure*

- We have secured and unsecured indebtedness, which could limit our financial flexibility.

- To service our debt and fund our other obligations and capital requirements, we will require a significant amount of cash, and our ability to generate cash will depend on many factors beyond our control.
- The market price of our common stock is likely to be highly volatile and subject to wide fluctuations, and you may be unable to resell your shares at or above the current price or the price at which you purchased your shares.
- Risk of not being able to raise capital to grow our business.
- Risk to trading volume of lack of securities or industry analysts research coverage.
- A material weakness in our internal control over financial reporting and disclosure controls and procedures could, if not remediated, result in material misstatements in our financial statements.
- Maintaining and improvising financial controls and being a public company may strain resources.
- Anti-takeover provisions in our charter documents could make an acquisition of our company more difficult.
- Our bylaws designate Delaware as the exclusive forum for certain disputes.
- Other risks described in the risk factors in Item 1A of our latest Annual Report on Form 10-K under the heading "Risk Factors" and subsequent Quarterly Reports on Form 10-Q filed with the Securities and Exchange Commission.

You should not place undue reliance on these forward-looking statements. The Company does not undertake to update forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
