Perma-Fix Achieves Profitability for the Second Quarter of 2018

ATLANTA, Aug. 08, 2018 (GLOBE NEWSWIRE) -- **Perma-Fix Environmental Services, Inc. (NASDAQ: PESI)** today announced results for the second quarter ended June 30, 2018.

Second quarter 2018 financial highlights:

- Revenue for the second quarter of 2018 increased to \$13.2 million versus \$12.7 million for the same period last year
- Gross profit included \$1.2 million of closure costs related to the M&EC facility; and excluding these costs, gross profit would have increased to \$3.3 million versus \$2.4 million for the second quarter of 2017
- Achieves second consecutive quarter of positive net income
- Achieved adjusted EBITDA (defined below) of \$846,000 compared to \$586,000 for the same period last year (see reconciliation to GAAP below)

Mark Duff, President and CEO of the Company, commented, "We achieved another solid quarter of revenue growth and profitability, which reflects the success of our new sales strategies and increased focus on delivering innovative solutions to our clients. We achieved these results despite continued activities related to the closure of our M&EC facility, which impacted both revenue and gross profit. Nevertheless, we generated \$846,000 of adjusted EBITDA and achieved net income attributable to stockholders of \$610,000 for the second quarter of 2018. Within our Treatment Segment, we head into the third quarter with backlog in excess of \$7 million which is a positive indicator for the second half of the year. Within our Services Segment, revenue increased by \$929,000 or 30.1% for the second quarter of 2018. We have worked hard to increase our bidding activity and proposal quality within the Services Segment and we expect to see the results of these initiatives in the next two quarters. Heading into the second half of the year, we remain optimistic for the balance of 2018 based on our current sales pipeline and the improved Department of Energy (DOE) budget. Through several recent facility upgrades and technology deployments, we believe Perma-Fix is positioned in the future to support new procurements within the DOE as well as providing continued support to the Test Bed Initiative at Hanford."

Financial Results

Revenue for the second quarter of 2018 was approximately \$13.2 million versus approximately \$12.7 million for the same period last year. Revenue from the Services Segment was \$4.0 million versus \$3.1 million for the same period in 2017. Our Services Segment revenues are project based; as such, the scope, duration and completion of each project vary. As a result, our Services Segment revenues are subject to differences relating to timing and project value. Revenue for the Treatment Segment was \$9.2 million compared

to \$9.6 million for the same period in 2017. The decrease was primarily due to lower waste volume and lower averaged price waste resulting from waste mix. Our Treatment Segment revenue was impacted by the pending closure of our M&EC subsidiary which had a revenue decrease of approximately \$1.6 million from the second quarter of 2017 to the second quarter of 2018; however, revenue for our remaining Treatment Segment subsidiaries increased by approximately \$1.2 million as we continue to transition operational capabilities from our M&EC subsidiary to our other Treatment Segment subsidiaries.

Gross profit for the second quarter of 2018 was \$2.0 million versus \$2.4 million for the second quarter of 2017. Gross profit for the second quarter of 2018 included approximately \$1.2 million of additional closure costs recorded for our M&EC facility in connection with the pending closure of the facility. Excluding the additional closure costs, gross profit for the second quarter of 2018 would have been approximately \$3.3 million, an increase of \$904,000 or 38.4% from the corresponding period of 2017, which was primarily due to increased revenue and the reduction in our fixed costs. Excluding the additional closure costs recorded, gross margin would have increased to 24.8% from 18.5%.

Operating loss for the second quarter of 2018 was \$799,000 versus an operating loss of \$1.1 million for the second quarter of 2017. Operating loss for the second quarter of 2018 included the closure costs of \$1.2 million as discussed above. Net income attributable to common stockholders for the second quarter of 2018 was \$610,000 or \$0.05 per share, versus net loss of \$1.2 million or (\$0.10) per share, for the same period in 2017. Net income attributable to common stockholders for the second quarter of 2018 included a net gain of approximately \$1.6 million resulting from the exchange of the Series B Preferred Stock of the Company's M&EC subsidiary for the Company's Common Stock in a private placement exchange offer, which was consummated on May 30, 2018.

The Company had Adjusted EBITDA of \$846,000 from continuing operations during the quarter ended June 30, 2018, as compared to Adjusted EBITDA of \$586,000 for the same period of 2017. The Company defines EBITDA as earnings before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before research and development costs related to the Medical Isotope project, closure costs accrued for M&EC subsidiary, and net gain on exchange offer of Series B Preferred Stock of M&EC. Both EBITDA and Adjusted EBITDA are not measures of performance calculated in accordance with Generally Accepted Accounting Principles in the United States of America ("GAAP"), and should not be considered in isolation of, or as a substitute for, earnings as an indicator of operating performance or cash flows from operating activities as a measure of liquidity. The Company believes the presentation of EBITDA and Adjusted EBITDA is relevant and useful by enhancing the readers' ability to understand the Company's operating performance. The Company's management utilizes EBITDA and Adjusted EBITDA as a means to measure performance. The Company's measurements of EBITDA and Adjusted EBITDA may not be comparable to similar titled measures reported by other companies. The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to GAAP numbers for income (loss) from continuing operations for the three and six months ended June 30, 2018 and 2017.

| Three Months Ended June 30, | Six Months Ended June 30, |
|--------------------------------|------------------------------|
|--------------------------------|------------------------------|

| (In thousands) | 2018 | 2017 | 2018 | 2017 |

This press release contains "forward-looking statements" which are based largely on the Company's expectations and are subject to various business risks and uncertainties, certain of which are beyond the Company's control. Forward-looking statements generally are identifiable by use of the words such as "believe", "expects", "intends", "anticipate", "plans to", "estimates", "projects", and similar expressions. Forward-looking statements include, but are not limited to: our backlog which is a positive indicator for the second half of the year; results of our initiatives in the next two quarters; optimistic based on our current sales pipeline and improved DOE budget; and positioned to support new procurements within the DOE as well as providing continued support to the Test bed Initiative at Hanford. These forward-looking statements are intended to qualify for the safe harbors from liability established by the Private Securities Litigation Reform Act of 1995. While the Company believes the expectations reflected in this news release are reasonable, it can give no assurance such expectations will prove to be correct. There are a variety of factors which could cause future outcomes to differ materially from those described in this release, including, without limitation, future economic conditions; industry conditions; competitive pressures; our ability to apply and market our new technologies; the government or such other party to a contract granted to us fails to abide by or comply with the contract or to deliver waste as anticipated under the contract; inability to win bid projects; failure of Congress to provides continuing funding for the DOD's and DOE's remediation projects;

ability to obtain new foreign and domestic remediation contracts; inability to meet financial covenants; and the "Risk Factors" discussed in, and the additional factors referred to under "Special Note Regarding Forward-Looking Statements" of, our 2017 Form 10-K and Forms 10-Q for quarters ended March 31, 2018 and June 30, 2018. The Company makes no commitment to disclose any revisions to forward-looking statements, or any facts, events or circumstances after the date hereof that bear upon forward-looking statements.
