# Twin Vee PowerCats to Accept Bitcoin as Payment for Boat Sales

**FORT PIERCE, FL / ACCESSWIRE / January 6, 2025** / [Twin Vee PowerCats Co.](#)

(Nasdaq:VEEE), ("Twin Vee" or the "Company"), a manufacturer, distributor, and marketer of power sport boats, announced that it would soon start accepting Bitcoin ("BTC") for purchases of its Twin Vee and AquaSport power sport boats.

"Twin Vee has always been about forward-thinking and being at the forefront of both our boat designs and the way we serve our customers," said Joseph Visconti, CEO of Twin Vee PowerCats Co. "We want to provide our customers with a seamless and modern purchasing experience by integrating Bitcoin into our payment options while also widening the appeal in our boats. The increasing use and legitimacy of cryptocurrency as a payment method has inspired us to offer this financial option."

The Company believes that accepting Bitcoin will open the door to a new segment of tech-savvy customers who prefer to transact using cryptocurrency. The inclusion of Bitcoin could potentially attract more international buyers familiar with its decentralized and borderless nature. "Having heard from Twin Vee boat owners over the years, we want to provide greater flexibility and choice in how customers complete their purchases with us," remarked Visconti. "We are an innovative and future-oriented company, and by incorporating Bitcoin into our sales ecosystem, Twin Vee is staying ahead of the curve and providing a convenient method to pay for our incredible products. We'll be working closely with our dealer network to facilitate Bitcoin transactions for all of our customers. This will include providing credits or cash conversions to those dealers who may not currently accept Bitcoin, allowing them to confidently embrace this new payment option."

Twin Vee is finalizing the necessary technological infrastructure to ensure secure and efficient cryptocurrency transactions and expects to be able to accept its first Bitcoin soon. "We will continue to explore new ways to enhance every aspect of boat ownership, from purchase to performance and everything in between," concluded Visconti.
