

Marathon Patent Group Announces USPTO Ruling Granting Joint Motion to Terminate Brainlab AG and Varian Medical Systems, Inc's Petition for Inter Partes Review of Sarif Biomedical Patent

LOS ANGELES, CA -- (Marketwired) -- 12/03/14 -- **Marathon Patent Group, Inc.** (NASDAQ: [MARA](#)) ("Marathon"), a patent licensing company, announced today that on December 1, 2014, the Patent Trial and Appeal Board (PTAB) of the United States Patent and Trademark Office (USPTO) granted a joint motion to terminate IPR2014-00753.

The court ruled, "On November 4, 2014, we instituted an *inter partes* review of claims 10 and 11, but not remaining claims 1-9 of the '725 patent. Patent Owner has filed a statutory disclaimer under 35 U.S.C. § 253(a) and 37 C.F.R. § 1.321(a) disclaiming claims 10 and 11, all of the claims of the '725 patent on which a trial was instituted in the instant proceeding. Consequently, there are no patent claims remaining in this *inter partes* review. Under these circumstances, we determine that it is appropriate to enter judgment and terminate the trial without rendering a final written decision."

"We were pleased with the USPTO's initial decision in early November denying Brainlab AG and Varian Medical Systems, Inc.'s IPR petition on claims 1-9," said Doug Croxall, Founder and CEO of Marathon Patent Group. "As a result of the earlier decision, Sarif's infringement suits will be unaffected since none of Sarif's asserted claims were subject to invalidation via the instituted IPR."

Croxall continued, "Hopefully our voluntarily disclaiming of claims 10 and 11 of the 725 patent resulting in the termination of the proceeding, combined with the earlier IPR denial with respect to claims 1-9, will encourage the parties in suit to reach reasonable licensing arrangements with Sarif Biomedical."
