SG Blocks Partners With Bareburger on New Container-Based Restaurant in Oyster Bay

NEW YORK, Dec. 15, 2014 (GLOBE NEWSWIRE) -- [SG Blocks](#) (OTCQB:SGBX), a premier innovator and designer of container-based structures, today announced it is partnering with Bareburger on a new restaurant in Oyster Bay. The firm will be supplying its GreenSteel product, the structural core and shell of an SG Blocks building, for the two-story, 11-container restaurant. The restaurant will be located at 395 South Oyster Bay Road, Plainview, NY.

"We share many values with Bareburger, foremost our stance on providing an eco-friendly and sustainable product," stated Paul Galvin, Chairman and CEO of SG Blocks. "This project has a unique design, which demonstrates our expertise in developing code-complaint structures by creatively manipulating a standard shape to achieve the distinct needs of each client."

SG Blocks will deliver the GreenSteel containers – which are currently being prefabricated in Jacksonville, FL – in eight weeks and the new Bareburger is expected to open in the spring of 2015.

"Bareburger's philosophy has always been to offer organic and all-natural food in a sustainable environment and we are excited that this location offers us the opportunity to further develop this vision," stated John Simeonidis Jr., CBO & Co-Founder of Bareburger. "By partnering with SG Blocks, we are pushing the definition of 'sustainable environment' to the next level, providing our guests in Plainview with a dining experience even more unique than what they have come to expect from us."
