Operating expenses for 2024 were \$9.4 million, compared to approximately \$19.2 million for 2023.

The net loss attributable to common shareholders was approximately (\$22.6) million, or

(\$10.53) per share in 2024, compared to a net loss of (\$26.2) million, or \$(34.03) per share for 2023.

The Company's Adjusted EBITDA (non-GAAP) for the year ended December 31, 2024, was approximately (\$9.4) million as compared to Adjusted EBITDA of approximately (\$20.8) million for the year ended December 31, 2023. Both EBITDA and Adjusted EBITDA are non-GAAP financial measures. The Company defines EBITDA as GAAP net income (loss) attributable to common stockholders before interest expense, income tax benefit (expense), depreciation and amortization. Adjusted EBITDA is defined as EBITDA before certain non-recurring, unusual or non-operational items, such as litigation expense, stock issuance expense and stock compensation expense. The Company believes that adjusting EBITDA to exclude the effects of these items that are not closely associated with ongoing corporate operations provides management and investors with a meaningful measure that increases period-to-period comparability of the Company's operating performance.

The Company believes the presentation of EBITDA and Adjusted EBITDA is relevant and useful by enhancing the readers' ability to understand the Company's operating performance. The Company's management utilizes EBITDA and Adjusted EBITDA as a means to measure performance.

The Company's measurements of EBITDA and Adjusted EBITDA may not be comparable to similar titled measurements reported by other companies. EBITDA and Adjusted EBITDA are not measurements of financial performance under GAAP and should not be considered as an alternative to net income (loss) attributable to common stockholders or as an indication of operating performance or any other measures of financial performance derived in accordance with GAAP. The Company does not consider these non-GAAP measures to be substitutes for or superior to the information provided by its GAAP financial results. The non-GAAP information should be read in conjunction with our consolidated financial statements and related notes. These measures also should not be construed as an inference that our future results will be unaffected by the non-recurring, unusual or non-operational items for which these non-GAAP measures make adjustments.

The table below reconciles EBITDA and Adjusted EBITDA, both non-GAAP measures, to GAAP net gain (loss) attributable to common stockholders of Safe & Green Holdings Corp.
