Brinks Home Security Reports Results for the Three and Nine Months Ended September 30, 2019

DALLAS-FORT WORTH, Texas, Nov. 13, 2019 (GLOBE NEWSWIRE) -- Monitronics International, Inc. and its subsidiaries (doing business as Brinks Home Security™), (“Brinks Home Security” or the “Company”) (OTC: SCTY) today announced results for the three and nine months ended September 30, 2019.

Third Quarter Key Highlights:

- Completed reorganization and emerged from voluntary Chapter 11 on August 30, 2019, having eliminated over \$800 million of debt
- Listed on the OTC Markets on September 5, 2019 under ticker “SCTY”
- Brinks Home Security ranked #1 in customer satisfaction for the second year in a row by the J.D. Power 2019 Home Security Satisfaction StudySM
- Net revenue of \$120.9 million (including a one-time “Fresh Start” reduction of \$5.3 million), as compared to \$137.2 million in the prior year period
- Net Income of \$673.6 million, including a one-time \$702.8 million gain from the restructuring, as compared to net loss of \$33.8 million in the prior year period
- Adjusted EBITDA of \$62.5 million, (including a one-time “Fresh Start” reduction of \$5.3 million), as compared to \$71.3 million in the prior year period

“We are pleased to begin a new era for Brinks Home Security, having successfully completed our balance sheet recapitalization in late August,” said Jeff Gardner, President and Chief Executive Officer of Brinks Home Security. “Our new capital structure allows us to operate as a stronger organization with the resources available to execute on the growth opportunities ahead of us.”

“As an appropriately capitalized market leader, we are prioritizing our commitment to delivering a best in class customer experience, a disciplined approach to account acquisition, improved customer retention and prudent capital allocation. Through smart investments in both our Dealer and Direct to Consumer Channels, we are enhancing our go-to-market strategies to improve new customer acquisition. We are also strengthening retention through a more personalized customer experience that continuously engages the customer throughout their lifecycle. Our sales and marketing strategy, with the Brinks Home Security brand name in the forefront, will leverage our strong consumer recognition and trust. This trust is most recently evidenced by Brinks Home Security being ranked #1 in customer satisfaction for the second straight year by the J.D. Power Home Security Satisfaction Study. We believe this award enhances the value of our brand and validates the value we place on delivering the highest levels of customer service.”

“The Company is well into the process of developing our go-forward strategic plan and we anticipate providing the market with a more detailed presentation of our strategic priorities

and long-term objectives in early 2020. While there is much work ahead of us, we are excited to share our vision in the coming months and leverage our fresh start to build a stronger and more dynamic Brinks Home Security.”

Customer & Attrition Data

Brinks Home Security customers are obtained through its direct-to-consumer sales channel (the "Direct to Consumer Channel" or "DTC"), which offers both Do-It-Yourself and professional installation security solutions and its exclusive authorized dealer network (the "Dealer Channel"), which provides product and installation services, as well as support to customers.

Customer Additions

Through its Dealer and DTC Channels, in the three and nine months ended September 30, 2019, the Company acquired 21,228 and 63,974 subscriber accounts, respectively. This represents a decline of 35.8% and 30.5% in the three and nine month periods, respectively, as compared to the prior year periods. The declines are due to large bulk purchases made in the respective periods in 2018 and a reduction in accounts generated in the current year in the Company's DTC Channel. Excluding the impact of the 2018 bulk purchases, subscriber account acquisitions decreased 19.5% and 14.0% in the three and nine month periods, respectively.

Attrition

	Twelve Months Ended September 30,	
	2019	2018
Beginning Balance of accounts	942,157	998,087
Accounts Acquired	84,899	110,358
Accounts Cancelled	(156,047)	(161,657)
Cancelled accounts guaranteed by dealer and other adjustments (a)	(5,161)	(4,631)
Ending balance of accounts	865,848	942,157
Monthly weighted average accounts	903,424	965,026
Attrition rate – Unit	17.3%	16.8%
Attrition rate - RMR (b)	17.6%	14.1%

- a. Includes cancelled accounts that are contractually guaranteed to be refunded from holdback
- b. The recurring monthly revenue ("RMR") of cancelled accounts follows the same definition as subscriber unit attrition as noted above. RMR attrition is defined as the RMR of cancelled accounts in a given period, adjusted for the impact of price increases or decreases in that period, divided by the weighted average of RMR for that period.

The increase in unit and RMR attrition was driven by fewer customers under contract or in the dealer guarantee period, as compared to the prior period, as well as some impact from competition, including new market entrants. The increase in the RMR attrition rate was also

impacted by price guarantees and a less aggressive price increase strategy.

Presentation of Predecessor and Successor Financial Results:

Apart from interest expense, Brinks Home Security's operating results and key operating performance measures on a consolidated basis were not materially impacted by the reorganization. The Company believes that certain of its consolidated operating results for the period from July 1, 2019 through August 31, 2019 when combined with its consolidated operating results for the period from September 1, 2019 through September 30, 2019 is comparable to certain operating results from the comparable prior year period. Accordingly, the Company believes that discussing the combined non-GAAP results of operations and cash flows of the Predecessor Company and the Successor Company for the three-month period ended September 30, 2019 is useful when analyzing certain performance measures.

Three Months Ended September 30, 2019 Financial Summary¹

	Non-GAAP Combined Three Months Ended September 30, 2019	Successor Company	Predecessor Company	
		Period from September 1, 2019 through September 30, 2019	Period from July 1, 2019 through August 31, 2019	Three Months Ended September 30, 2018
Net revenue	\$ 120,878	\$ 36,289	\$ 84,589	137,156
Cost of services	28,962	8,976	19,986	35,059
Selling, general and administrative, including stock- based and long-term incentive compensation	32,370	11,390	20,980	34,266
Amortization of subscriber accounts, deferred contract acquisition costs and other intangible assets	49,810	17,302	32,508	52,671
Interest expense	34,586	7,474	27,112	39,077
Income tax expense	642	204	438	1,346
Net income (loss)	673,578	(10,807)	684,385	(33,840)
Adjusted EBITDA	62,502	17,144	45,358	71,282

The Company reported net revenues of \$120.9 million, a decline of 11.9%, attributable to the lower average number of subscribers in the three-month period, along with a \$5.3 million fair value adjustment that reduced deferred revenue upon the Company's emergence from bankruptcy in accordance with "Fresh Start" accounting. Offsetting these declines was increased product sales revenues from new customers in connection with reduced equipment and installation subsidies on new sales and from existing customers as part of upgrade retention offers. Increases in average RMR per subscriber in the quarter, also had a favorable impact on revenues.

RMR acquired during the quarter was \$1.0 million, as compared to \$1.6 million in the prior year period, largely due to a large bulk purchase in 2018.

Cost of Services was \$29.0 million, a decline of 17.4%, driven by reductions in subscriber acquisition and field service costs as well as reductions in headcount. Subscriber acquisition costs, which include expensed equipment and labor costs associated with the creation of new subscribers, decreased 51.2% to \$2.2 million.

Selling, General and Administrative costs were \$32.4 million, a decline of 5.5%, primarily attributable to reductions in subscriber acquisition selling and marketing costs associated with the creation of new subscribers and \$3.1 million of rebranding expense recognized in the prior year period.

Net income increased to \$673.6 million as compared to a net loss of \$33.8 million in the prior year period, due primarily to a one-time \$702.8 million gain on restructuring and reorganization related to the conversion of debt to equity, discounted cash settlement of the Predecessor Company's high yield senior notes in accordance with the Company's bankruptcy Plan, and application of fresh start accounting.

Adjusted EBITDA was \$62.5 million, a decline of 12.3%, driven by reductions in net revenue, offset by favorable decreases in cost of services and SG&A, including subscriber acquisition costs. Excluding the impact of the "Fresh Start" fair value adjustment to deferred revenue, Adjusted EBITDA decreased 4.9%.

Nine Months Ended September 30, 2019 Financial Summary²

	Non-GAAP Combined Nine Months Ended September 30, 2019	Successor Company	Predecessor Company	
		Period from September 1, 2019 through September 30, 2019	Period from January 1, 2019 through August 31, 2019	Nine Months Ended September 30, 2018
Net revenue	\$ 378,575	\$ 36,289	\$ 342,286	405,922
Cost of services	84,262	8,976	75,286	100,807
Selling, general and administrative, including stock- based and long-term incentive compensation	91,755	11,390	80,365	98,935
Amortization of subscriber accounts, deferred contract acquisition costs and other intangible assets	148,093	17,302	130,791	160,973
Interest expense	112,555	7,474	105,081	114,550
Income tax expense	1,979	204	1,775	4,039

Net income (loss)	587,606	(10,807)	598,413	(301,839)
Adjusted EBITDA	204,517	17,144	187,373	213,480

The Company reported net revenues of \$378.6 million, a decline of 6.7%, attributable to the lower average number of subscribers in the nine-month period, along with the previously discussed \$5.3 million “Fresh Start” adjustment. Offsetting these declines was increased product sales revenues from new customers in connection with reduced equipment and installation subsidies on new sales and from and existing customers as part of upgrade retention offers. Increases in average RMR per subscriber also had a favorable impact on revenues in the period.

RMR acquired during the nine-month period was \$3.1 million, as compared to \$4.3 million in the prior year period.

Cost of Services was \$84.3 million, a decline of 16.4%, driven by reductions in expensed subscriber acquisition costs and field service costs. Subscriber acquisition costs, which include expensed equipment and labor costs associated with the creation of new subscribers, decreased 43.4% to \$7.1 million.

Selling, General and Administrative costs were \$91.8 million, a 7.3% decline, primarily attributable to a reduction in subscriber acquisition selling and marketing costs associated with the creation of new subscribers. Also contributing to the decrease in SG&A was a \$4.8 million insurance receivable settlement received by the Company in April 2019 from an insurance carrier that provided coverage related to the 2017 class action litigation of alleged violation of telemarketing laws as well as rebrand expenses of \$6.4 million recognized in 2018. These declines were partially offset by a legal settlement received in the second quarter of 2018, increased consulting fees on integration/implementation of various company initiatives and increased Topic 606 contract asset impairment costs incurred during the nine months ended September 30, 2019.

Net income increased to \$587.6 million, as compared to a net loss of \$301.8 million in the prior year period, due primarily to a one-time \$702.8 million gain on restructuring and reorganization related to the conversion of debt to equity, discounted cash settlement of the Predecessor Company's high yield senior notes in accordance with the Company's bankruptcy Plan, and application of fresh start accounting. The net loss for the nine months ended September 30, 2018 was caused largely by the goodwill impairment of \$214.4 million recognized in the second quarter of 2018 and net losses generated from normal operations.

Adjusted EBITDA was \$204.5 million, down \$9.0 million or 4.2%, driven by declines in net revenue, offset by favorable increases in costs of services and SG&A, including subscriber acquisition costs. Excluding the impact of the “Fresh Start” fair value adjustment to deferred revenue, Adjusted EBITDA decreased 1.7%.

Adjusted EBITDA

We evaluate the performance of our operations based on financial measures such as revenue and "Adjusted EBITDA." Adjusted EBITDA is a non-GAAP measure and is defined as net income (loss) before interest expense, interest income, income taxes, depreciation, amortization (including the amortization of subscriber accounts, dealer network and other intangible assets), restructuring charges, stock-based compensation, and other non-cash or non-recurring charges. We believe that Adjusted EBITDA is an important indicator of the operational strength and performance of our business. In addition, this measure is used by management to evaluate operating results and perform analytical comparisons and identify strategies to improve performance. Adjusted EBITDA is also a measure that is customarily used by financial analysts to evaluate the financial performance of companies in the security alarm monitoring industry and is one of the financial measures, subject to certain adjustments, by which our covenants are calculated under the agreements governing our

debt obligations. Adjusted EBITDA does not represent cash flow from operations as defined by generally accepted accounting principles in the United States ("GAAP"), should not be construed as an alternative to net income or loss and is indicative neither of our results of operations nor of cash flows available to fund all of our cash needs. It is, however, a measurement that we believe is useful to investors in analyzing our operating performance. Accordingly, Adjusted EBITDA should be considered in addition to, but not as a substitute for, net income, cash flow provided by operating activities and other measures of financial performance prepared in accordance with GAAP. Adjusted EBITDA is a non-GAAP financial measure. As companies often define non-GAAP financial measures differently, Adjusted EBITDA as calculated by Monitronics should not be compared to any similarly titled measures reported by other companies.
