Liberty Interactive Corporation Reports Third Quarter 2015 Financial Results

ENGLEWOOD, Colo.--(BUSINESS WIRE)-- Liberty Interactive Corporation ("Liberty Interactive") (Nasdaq: QVCA, QVCB, LVNTA, LVNTB) today reported third quarter 2015 results. Highlights include⁽¹⁾:

Attributed to QVC Group

- Grew QVC US revenue by 4% and adjusted OIBDA⁽²⁾ by 1% in the third quarter
 - QVC US operating income increased by 5%
 - QVC.com revenue as a percent of total US revenue increased to 48%, a 450 basis point increase
 - QVC US mobile penetration was 52% of QVC.com orders, a 1,100 basis point increase
- QVC consolidated mobile penetration was 53% of QVC.com orders, a 1,000 basis point increase
- QVC generated local currency revenue growth and adjusted OIBDA improvement in all consolidated markets, for the second quarter in a row
- Completed acquisition of zulily on October 1, 2015

Attributed to Liberty Ventures Group

- Interval Leisure Group (Nasdaq: IILG) entered into definitive agreement to acquire Starwood Hotels and Resorts' vacation ownership business in October, and will own 45% of the combined company; Liberty Interactive pro forma ownership estimated at 13%

"QVC generated strong results across the board with local currency growth in all consolidated markets for the second quarter in a row. The expansion in mobile orders continues at a rapid pace, comprising 53% of consolidated eCommerce orders. We completed the acquisition of zulily and have already begun introducing its customers to QVC," stated Greg Maffei, Liberty Interactive President and CEO. "Attributed to Liberty Ventures, Interval Leisure Group announced an agreement to acquire Starwood Hotels and Resorts' vacation ownership business."

On October 1, 2015, Liberty Interactive completed the previously announced acquisition of zulily, inc. ("zulily"). Pursuant to the terms of the acquisition, each share of zulily Class A common stock and Class B common stock received \$9.375 in cash and 0.3098 of a share of Liberty Interactive's Series A QVC Group common stock. As a result of the acquisition,

Liberty Interactive drew down an additional \$910 million on the QVC credit facility and issued approximately 38.5 million shares of its Series A QVC Group common stock.

Due to the timing of the acquisition, zulily's results are not included in Liberty Interactive's third quarter financial reporting. However, zulily's revenue and OIBDA performance for the third quarter were in the middle and at the high end, respectively, of guidance provided on zulily's second quarter earnings call, which took place on August 5, 2015. We will provide additional financial disclosure on zulily at Liberty's Investor Day on November 12, 2015. Beginning with fourth quarter financial reporting, zulily will be included as a separate reportable segment of Liberty Interactive (attributed to QVC Group).

QVC GROUP – Excluding the pre-retribution impact of the Digital Commerce companies (see reconciling schedule 1), in the third quarter, QVC Group's revenue decreased 1% to \$2.0 billion, adjusted OIBDA decreased 3% to \$421 million, operating income increased 1% to \$264 million, adjusted net income⁽³⁾ increased 35% to \$203 million and net income increased 86% to \$154 million.

QVC

QVC's consolidated revenue decreased 1% in the third quarter to \$2.0 billion. Adjusted OIBDA decreased 2% to \$430 million and adjusted OIBDA margin decreased 30 basis points. Operating income increased 1% to \$280 million. Consolidated eCommerce revenue increased 10% to \$861 million and grew to 43% from 39% of consolidated revenue. Mobile orders were 53% of total eCommerce orders in the quarter, compared to 43% a year ago.

US Dollar denominated results were negatively impacted by exchange rate fluctuations in the third quarter. The US Dollar strengthened against the Euro, Japanese Yen and British Pound Sterling 16%, 15% and 7%, respectively. On a constant currency basis, consolidated revenue increased 4% and adjusted OIBDA increased 1% compared to a 1% and 2% decline in US Dollars, respectively. Excluding the costs related to launch QVC France, consolidated adjusted OIBDA increased 3% on a constant currency basis in the quarter.

"We delivered strong constant currency revenue gains across markets as we continued to execute our strategies to extend our leading global video and eCommerce position," said QVC President and CEO, Mike George. "We expanded our commerce platform reach with additional TV carriage and increased digital penetration, and mobile orders now represent over 50% of all eCommerce orders. We enhanced our merchandise differentiation with key brand launches and leverage of our global vendor network. Our joint venture in China generated outstanding results, and on October 1st we welcomed zulily to the QVC Group, extending our reach to millennial customers."

QVC US revenue increased 4% to \$1.4 billion in the third quarter. Units sold increased 5%, average selling price per unit increased 1% to \$58.70 and returns as a percentage of gross product revenue increased 21 basis points. QVC US experienced growth in the apparel, accessories, home and beauty categories, which was partially offset by a decline primarily in jewelry. eCommerce revenue increased 15% to \$678 million and grew to 48% from 43% of total QVC US revenue. Adjusted OIBDA increased 1% to \$333 million and adjusted OIBDA margin decreased 55 basis points to 23.5%. These results were primarily due to higher freight and inventory obsolescence expense, which were partially offset by higher product margins and lower bad debt expenses.

QVC's international revenue decreased 10% to \$587 million, adjusted OIBDA decreased 12% to \$97 million and adjusted OIBDA margin declined 35 basis points in the third quarter, reflecting the aforementioned unfavorable exchange rate fluctuations. On a constant currency basis, international revenue increased 4% and adjusted OIBDA was flat. QVC France launched its TV broadcast on August 1, 2015. The third quarter included \$7 million of costs related to the launch of QVC France. Excluding the costs related to QVC France, international adjusted OIBDA increased 7% on a constant currency basis in the quarter.

QVC Germany's revenue in local currency increased 3% in the third quarter. Sales increased in local currency primarily in apparel and home, which were partially offset by a decline primarily in electronics. Adjusted OIBDA in local currency increased 1%, and adjusted OIBDA margin in local currency declined 28 basis points primarily due to lower product margins and higher personnel costs, which were partially offset by lower warehouse and bad debt expense.

QVC Japan's revenue in local currency increased 5% in the third quarter. QVC Japan experienced sales gains in local currency primarily in home and beauty, which were partially offset by a decline primarily in accessories and apparel. Adjusted OIBDA in local currency increased 3%. Adjusted OIBDA margin in local currency decreased 32 basis points primarily due to higher personnel costs and inventory obsolescence expenses, which were partially offset by favorable commissions resulting from a key contract renewal, as well as warehouse efficiencies.

QVC UK's revenue increased 5% in local currency in the third quarter. Sales increased in local currency primarily in apparel and beauty, which were partially offset by a decline primarily in electronics. Adjusted OIBDA in local currency increased 16% and adjusted OIBDA margin in local currency increased 183 basis points primarily due to higher product margins and sales leverage, which were partially offset by higher freight costs.

QVC Italy's revenue increased 2% in local currency in the third quarter. Sales increased in local currency primarily in beauty and accessories, which were partially offset by a decline primarily in jewelry and home. Adjusted OIBDA deficit in local currency decreased 52% and adjusted OIBDA margin in local currency improved 242 basis points primarily due to lower fixed and freight costs, which were partially offset by lower product margins.

CNR Home Shopping Co., Ltd. ("CNRS"), QVC's joint venture in China, increased local currency revenue 43% in the third quarter. CNRS' adjusted OIBDA deficit in local currency decreased 21%, reflecting the strong revenue growth, which was partially offset by lower product margins and higher commission, warehouse and freight expenses as the business continues to grow its presence in this nascent market. In early July, CNRS added the strategically important Shanghai market to its TV distribution, bringing its current reach to approximately 111 million homes. This joint venture is being accounted for as an equity method investment, and as a result, QVC reported a \$3 million reduction in net income for the quarter.

QVC's total debt, net of original issue discount, was \$4.5 billion at September 30, 2015, down from \$4.6 billion at December 31, 2014.

Share Repurchases

Share repurchases over the past quarter were impacted by the pending acquisition of zulily. Rules governing the exchange offer for zulily shares prohibited Liberty Interactive from repurchasing shares from August 4, 2015 through September 30, 2015. As a result, from August 1, 2015 through October 31, 2015, Liberty Interactive repurchased approximately 3.5 million Series A QVC Group shares (Nasdaq: QVCA) at an average cost per share of \$27.78 for total cash consideration of \$98 million. Since the creation of the QVC Group stock (including its predecessor, Liberty Interactive Group) in May 2006, Liberty Interactive has repurchased shares for aggregate cash consideration of \$5.9 billion, representing approximately 39.4% of the shares outstanding at the time of the creation of the QVC Group stock. All repurchases up to August 9, 2012, the date on which the QVC Group stock was recapitalized to create the Liberty Ventures Group stock, were comprised of shares of the combined stocks. The remaining repurchase authorization as of November 1, 2015 for QVC Group stock was approximately \$1.1 billion.

As of September 30, 2015, QVC Group consists of Liberty Interactive's subsidiary, QVC, Inc., and Liberty Interactive's interest in HSN, Inc. zulily is attributable to QVC Group as of October 1, 2015.

LIBERTY VENTURES GROUP – Revenue for the continuing consolidated Digital Commerce companies (which consist of Bodybuilding.com, CommerceHub, Evite and Right Start) increased 4% to \$146 million in the third quarter. The increase in revenue was primarily due to CommerceHub (\$5 million). CommerceHub revenue growth was primarily attributed to an acquisition during the first quarter of 2015 and growth in active customers (vendors and suppliers) which increased the number of aggregate transactions processed through the CommerceHub platform.

Adjusted OIBDA for the continuing Digital Commerce companies increased \$3 million year-over-year in the third quarter. Adjusted OIBDA as a percentage of revenue was slightly higher, representing 11.6% of revenue in the third quarter of 2015, as compared to 9.9% of revenue in the third quarter of 2014.

Operating loss for the continuing Digital Commerce companies was \$7 million in the third quarter as compared to operating income of \$6 million in the same period in 2014. The decrease is primarily due to increases in stock-based compensation expense.

Share Repurchases

There were no repurchases of Liberty Ventures Group common stock (Nasdaq: LVNTA) from August 1, 2015 through October 31, 2015. The total remaining repurchase authorization for Liberty Ventures Group stock as of November 1, 2015 was \$650 million.

The businesses and assets attributed to the Liberty Ventures Group are all of Liberty Interactive's businesses and assets other than those attributed to the QVC Group, including its interests in Expedia, Interval Leisure, Lending Tree and FTD, its subsidiaries Bodybuilding.com, CommerceHub, The Right Start and Evite, and minority interests in Time Warner Inc. and Time Warner Cable.

- (5) Face amount of Senior Exchangeable Debentures with no reduction for the fair market value adjustment.

Total cash and liquid investments attributed to the QVC Group increased by \$22 million during the third quarter. Cash flow from operations and additional borrowings were largely offset by stock repurchases and capital expenditures. Total debt attributed to the QVC Group increased by \$27 million, primarily due to additional borrowings on QVC's credit facility. Subsequent to the end of the quarter, QVC drew down an additional \$910 million on its credit facility in connection with the acquisition of zulily.

Total cash and liquid investments and debt attributed to the Liberty Ventures Group were relatively flat during the third quarter.

Important Notice: Liberty Interactive (Nasdaq: QVCA, QVCB, LVNTA, LVNTB) President and CEO, Greg Maffei, will discuss Liberty Interactive's earnings release in a conference call which will begin at 5:15 p.m. (E.S.T.) on November 4, 2015. This press release includes certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, including statements about business strategies, market potential, future financial prospects, international expansion, new service and product offerings, Liberty Interactive's expected ownership interest in Interval Leisure Group following its announced transaction with Starwood Hotel and Resorts, the monetization of our non-core assets, the continuation of our stock repurchase program, the estimated liabilities under exchangeable debentures and other matters that are not historical facts. These forward-looking statements involve many risks and uncertainties that could cause actual results to differ materially from those expressed or implied by such statements, including, without limitation, possible changes in market acceptance of new products or services, competitive issues, regulatory matters affecting our businesses, continued access to capital on terms acceptable to Liberty Interactive, changes in law and government regulations that may impact the derivative instruments that hedge certain of our financial risks, the availability of investment opportunities, and market conditions conducive to stock repurchases. These forward-looking statements speak only as of the date of this presentation, and Liberty Interactive expressly disclaims any obligation or undertaking to disseminate any updates or revisions to any forward-looking statement contained herein to reflect any change in Liberty Interactive's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based. Please refer to the publicly filed documents of Liberty Interactive, including the most recent Forms 10-K and

10-Q, for additional information about Liberty Interactive and about the risks and uncertainties related to Liberty Interactive's business which may affect the statements made in this presentation.

SUPPLEMENTAL INFORMATION

As a supplement to Liberty Interactive's condensed consolidated statements of operations, which are included in its Form 10-Q, the following is a presentation of quarterly information and operating metrics on a stand-alone basis for the largest business owned by Liberty Interactive (QVC) at September 30, 2015, which Liberty Interactive has identified as a reportable segment.

Please see below for the definition of adjusted OIBDA and a discussion of why management believes the presentation of adjusted OIBDA for QVC provides useful information for investors. See Schedule 2 to this press release for a reconciliation of QVC's adjusted OIBDA to operating income for the same period, as determined under GAAP.

NON-GAAP FINANCIAL MEASURES

This press release includes a presentation of adjusted OIBDA, which is a non-GAAP financial measure, for Liberty Interactive, the QVC Group, QVC (and certain of its subsidiaries), and the Digital Commerce companies together with a reconciliation to that entity or such businesses' operating income, as determined under GAAP. Liberty Interactive defines adjusted OIBDA as revenue less cost of sales, operating expenses, and selling, general and administrative expenses, excluding all stock based compensation, and excludes from that definition depreciation and amortization and restructuring and impairment charges that are included in the measurement of operating income pursuant to GAAP. Further, this

press release includes adjusted OIBDA margin which is also a non-GAAP financial measure. Liberty Interactive defines adjusted OIBDA margin as adjusted OIBDA divided by revenue.

Liberty Interactive believes adjusted OIBDA is an important indicator of the operational strength and performance of its businesses, including each business' ability to service debt and fund capital expenditures. In addition, this measure allows management to view operating results and perform analytical comparisons and benchmarking between businesses and identify strategies to improve performance. Because adjusted OIBDA is used as a measure of operating performance, Liberty Interactive views operating income as the most directly comparable GAAP measure. Adjusted OIBDA is not meant to replace or supersede operating income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with the same information that Liberty Interactive's management considers in assessing the results of operations and performance of its assets. Please see the attached schedules for applicable reconciliations.

In addition, this presentation includes references to adjusted net income, which is a non-GAAP financial measure, for QVC Group. Liberty Interactive defines adjusted net income as net income, excluding the impact of purchase accounting amortization (net of deferred tax benefit) and net income (loss) generated by the Digital Commerce companies prior to the reattribution.

Liberty Interactive believes adjusted net income is an important indicator of financial performance, in particular for QVC Group, due to the impact of purchase accounting amortization and the reattribution of the Digital Commerce companies. Because adjusted net income is used as a measure of overall financial performance, Liberty Interactive views net income as the most directly comparable GAAP measure. Adjusted net income is not meant to replace or supersede net income or any other GAAP measure, but rather to supplement such GAAP measures in order to present investors with a valuable supplemental metric of financial performance. Please see the attached schedules for a reconciliation of adjusted net income to net income (loss) calculated in accordance with GAAP for QVC Group (Schedule 4).

SCHEDULE 1

The following table provides a reconciliation of QVC Group's adjusted OIBDA to its operating income calculated in accordance with GAAP for the three months ended September 30, 2014, December 31, 2014, March 31, 2015, June 30, 2015 and September 30, 2015, respectively.

(1) QVC Group adjusted OIBDA presented exclusive of the impact of the Digital Commerce companies and reconciled to both QVC Group adjusted OIBDA and GAAP operating income. Under GAAP, the Digital Commerce companies were only included as part of the QVC Group through September 30, 2014.

SCHEDULE 2

The following table provides a reconciliation of adjusted OIBDA for QVC (and certain of its subsidiaries) and the Digital Commerce businesses to that entity or such businesses' operating income (loss) calculated in accordance with GAAP for the three months ended September 30, 2014, December 31, 2014, March 31, 2015, June 30, 2015 and September 30, 2015, respectively. As there are no material reconciling items between adjusted OIBDA and operating income for the QVC China joint venture for the referenced periods, no reconciliation has been provided.
