## ***Commentary- Cheryl Beranek, President & CEO of Clearfield***

"We are exceptionally pleased to report record first quarter revenue numbers during a period of considerable uncertainty in the telecommunication and overall global economic markets. Revenue growth was throughout our product categories and customer base. While continuing to penetrate the wireline requirements for FTTH builds within the independent telephone market, Clearfield is expanding its presence with multi-site telco and cable providers. In addition, the flexibility of our patented Clearview technology and FieldSmart architecture is allowing us to enter new application environments, including the fiber distribution requirements for cell backhaul and distributed antennas providing wireless services."

"Due to a lack of regulatory clarity within the U.S. carrier market, our customer base has continued to be very cautious in its capital equipment investments. The resulting price pressure from our competitors among some product categories was one factor in the Company's lower gross margin performance for the quarter. The Company is continuing to make investments in the capital equipment necessary to streamline manufacturing processes and reduce cost of goods for our technologies."

"The Company continues to invest in market and product development activities. The increase in operating expenses for the quarter reflects Clearfield's continued expansion into adjacent territories and markets. Our development activities in markets outside of the United States continue with ongoing bookings and revenue in Caribbean and Latin America markets. We are evaluating additional international markets and are pursuing distribution agreements in target locations. Looking forward, Clearfield is embarking into additional product development and certification initiatives that will enable us to broaden our reach within the telecommunications marketplace."

"First quarter 2013 net income was affected by the impact of the higher tax expense compared to a year ago, resulting from the release of the deferred tax valuation allowance in fiscal 2012. We do not anticipate further changes to the valuation allowance for deferred taxes in fiscal 2013; as a result, our income statement will now reflect increased income tax expense over the fiscal year 2012. A majority of the tax expense has a non-cash effect on the operating cash flow of the business."

### **About Clearfield, Inc**

*Clearfield, Inc. (Nasdaq:CLFD) designs, manufactures and distributes fiber optic management products for the communications networks of leading ILECS, CLECs, MSO/cable TV companies and mobile broadband providers. We help service providers solve the Fiber Puzzle, which is how to reduce high costs associated with deploying, managing, protecting and scaling a fiber optic network to deliver the mobile, residential and business services customers want. Based on the patented Clearview™ Cassette, our unique single-architected, modular fiber management platform is designed to lower the cost of broadband deployment and maintenance by consolidating, protecting and distributing incoming and outgoing fiber circuits and enable our customers to scale their operations as their subscriber revenues increase. Headquartered in Plymouth, MN, Clearfield deploys more than a million fiber ports each year.*
