SM Energy Announces Closing of Common Stock Offering and Exercise of Option

DENVER--(BUSINESS WIRE)-- SM Energy Company ("SM Energy") (NYSE: SM) announced today the closing of its previously announced underwritten public offering of 18,400,000 shares of common stock, which includes the full exercise by the underwriters of their option to purchase an additional 2,400,000 shares of common stock. Net proceeds from the sale of the shares of common stock, including as a result of the option exercise, after deducting fees and estimated expenses, were approximately \$531 million.

SM Energy intends to use the net proceeds from the offering to pay a portion of the purchase price for its recently announced acquisition of all of the outstanding membership interests of an entity holding undeveloped leasehold interests, producing wells and associated infrastructure assets in the Midland Basin of west Texas from Rock Oil Holdings LLC. If this acquisition does not close, SM Energy intends to use the net proceeds for general corporate purposes.

Wells Fargo Securities, BofA Merrill Lynch, J.P. Morgan, Barclays, BBVA and RBC Capital Markets acted as joint book-running managers for the offering.
